Cat's Tigerish Nature.

A shocking affair in which a domestic cat displayed tigerish qualities occurred at Ayr recently. A woman named Mr. John Scott had occasion to go a message and left a child, six weeks old, in the house. On her return she was horrified to discover that the cat had eaten the small finger of the child's left hand, and had commenced on the next finger.

ALL OVER NEBRASKA

Fatal Accidental Shooting.

Nance County.-Upon the farm of T. J. Cissna, four miles west of Fullerton, the 14-year-old son accidentally shot and killed the father. The two had gone into a draw to shoot rabbits and it was while thus engaged the accident occurred.

Horse Blanket Thief Arraigned. Gage County.-Granville Smith, a young farmer charged with stealing horse blankets and robes from the buggy of Harry Larson, of Filley, was arraigned in county court and pleaded not guilty. His case was set for hearing later and he was released on bond of \$1,000.

Mail by Automobile. Dawson County.-The mail between Gothenberg and Arnold, a distance of 45 miles, is being carried by automobile. This is one of the few routes in the United States where the government allows the use of the auto. The car makes the round trip of 90 miles every other day.

Chadron's Record Good One.

Dawes County.-The year's record for the city of Chadron is satisfactory to its citizens. Uniting the impovements made under contracts the total shows \$625,360 for the year 1910. Many smaller and some large buildings have been erected, so that an estimate of \$700,000 is moderate for the year.

C. F. Wright Breaks Jall. Gage County.-C. F. Wright, of Gage county, who is wanted at Wymore for wife desertion, made his escape at Manhattan, Kans., where he was being held for the Gage county officers. Wright deserted his wife and three small children at Wymore, leaving them in destitute circumstances. The family is being cared for by charitably inclined citizens.

Nebraska Bank Law. Announcement that the Nebraska bank guaranty law, recently held good by the United States supreme court, will not be placed in effect for 40 days, was made by Attorney General Marton. Mr. Martin said that under the law governing procedure in the supreme court 40 days are allowed has elapsed nothing will be done in for the defeated parties to file a motion for a rehearing. Until this time the way of placing the law in effect.

Court in Sixth District. Merrick County.-Judges Conrad Hollenbeck and George H. Thomas are sending out cards announcing the terms of court in the Sixth judicial district for coming year. Their

list is made as follows: Colfax Coui -- January 30, May 1, November 13.

Dodge County-February 13, May 15, November 27. Merrick County-January 30, May

 November 13. Nance County-March 6, June 15,

December 13. Platte County-February 13, May 15. November 27.

Farmers Resist Fence Moving.

Merrick County.-A long line of broken down posts and severed strands of barb wire tell of the fierce resistance which is being made by the land owners along the Union Pacific against the company's attempt to set its fences over 200 feet on either side of its track on the government sections, where it claims its 400 feet of right-of-way.

Two or three weeks ago the fences on the Blevins farm were cut and now on the Minter farm not only have the wires been cut, but the posts have been also cut down in places, so that there is scarcely a bit of the fence standing which was recently put up. The matter will be tried out in the courts.

Bank Officers Indicted. Cass County.-The federal grand jury returned indictments against A. D. Welton and Lawrence Daft, respectively president and cashier of the First National bank of Greenwood, Neb. President Welton is charged with embezzlement on 18 counts and Cashier Daft with aiding and abetting embezzlement.

Morrill County .- As the result of an explosion of a dynamite cartridge at Wheatland, Wyo., Harry Townsend son of William Townsend, a contractor living near Morrill, Neb., was of the injuries. His brother was injured in the same accident, but not

fatally. Mr. Townsend and his two boys were engaged in constructing an irrigation ditch and were blasting rock. They had planted a cartridge which failed to go off and they were trying to dig it out when, without warning, the cartridge exploded, killing one man and injuring several others, among them the two Townsend boys. This is the third death as a result of the accident.

Buffalo Poor Farm Costly.

Buffalo County.-Buffalo county's poor farm was, in spite of its 240 acres of rich soil, an expensive proposition in 1910, as shown by the annual report of the superintendent.

Wheat Thief to Prison. Cass County.-Jack Crawford was escorted by Sheriff Quintin and E. H. Tritsch to the penitentiary at Lincoln. The crime to which Crawford. pleaded guilty was that of stealing 100 bushels of wheat from the bin of

Will Amend Road Law.

Several bills will be introduced a the coming session of the legislature providing for amended road laws. The democratic state platform calls for good road legislation under the join! effort of the county and the state This will stimulate such measures from democratic members, with promise of support from republicans if the measures are satisfactory. Parallel with measures looking toward state aid in road building, will be others to amend the road laws now on the statute books relating to road districts. Bills are now in the process of drafting providing for a county road overseer or supervisor, similar to the plan by which there is now a county assessor. Provision will be made either that he shall name the local road supervisors or at least shall have control of their work. It is very likely also that the measure will provide that the supervision of culvert and bridge building shall be taken ou! of the hands of the county commissioners and placed under the county supervisor of roads.

New Depository Bonds.

Attorney General-elect Grant Martin is putting in his spare time examining bonds presented by state depository banks. All such banks are required to present new bonds in place of bonds that are about to expire. The bonds presented are for the safe keeping of state funds obtained by banks under the state depository law. The rate of interest required by the state treasurer is 3 per cent. Most of the bonds presented are signed by one or the other of two Omaha banking companies. The total liability of depository banks to the state ranges from \$300,000 to about \$600,000.

Policy Holders Liable.

Four hundred and fifty Nebraskans and Nebraska firms were held liable for the debts of the Nebraska Mercantile Mutual Insurance company by Judge Frost Saturday afternoon in a decision in the case of John A. Raniall, receiver, against William H. Mc-Clain and others. All of the defendants were policy holders in the insolent company at the time when application was made to the court for the appointment of a receiver.

S. R. McKelvie, editor of the Nebraska Farmer, E. M. Martin, editor of the Beatrice Sun, and Will A. Campbell of the publicity department of the Omaha Commercial club are pressing their claims for an appropriation of \$25,000 to be used in advertising the state. In speaking of the propaganda Mr. McKelvie said that the publicity board would be under control of the state board of agriculture if the appropriation is made and that he had some confidence of its passage because of the support that has come to the idea. He says that 180 Nebraska papers are pledged to support the measure, that the state board of agriculture is friendly to the idea anl that he believes Governor-elect Aldrich is not unfriendly.

The state conference of charities and correction will be held in Lincoln January 15, 16, 17. The membership of this conference includes state, city and county officers concerned with the handling of the dependent, defective and delinquent classes, officers of local charitable organizations and all who are interested in improving the methods of caring for the unfortunate and all those who seek to remedy the conditions which produce poverty and

Warden Tom Smith of the state penitentiary is in favor of a law providing for an official who shall look after paroled convicts. There are now about ninety prisoners out on parole and there is no one to look after them The governor gets monthly reports from them, but these reports are inaccurate and unsatisfactory. Smith thinks that the state could afford to pay a man to check the parolel men up occasionally and look after them while out of prison.

State Superintendent Bishop is is suing a bulletin to young men and women intending to fit themselves for teachers. It sets out in extended form much valuable information to the persons interested, showing them plainly how the various grades of certificates are to be obtained and what credits are required for them.

The annual meeting of the Nebraska state bee keepers' association will be held at the state farm, on Wednes day and Thursday, January 18 and 19 This is one of the oldest of the societies comprising the federation of organized agriculture and its meetings are always full of interest to friends

of the honey bee. "School Hygiene and Sanitation" is the central theme of the program of the Nebraska superintendents' and principals' association, which corvenes in annual session in Lincoln

January 12-13. The formation of a Nebraska county treasurers' association will be the purpose of a meeting of county treasurers to be held in Lincoln, January 18 and 19. Seventy-five or more treasurers and deputies are expected to attend the initial session of the association. Letters from over the state indicate that the money-caretakers are much interested in the move

MOTHERS OF THEN AND NOW

Conditions Are Only Different, No Matter What Sentimental Writers May Assert.

The "popular" writer who bewails what he assumes to be the fact that the "old-fashioned" mother is no more is liable to defeat his own purpose if that be inculcating in children the highest possible regard for their parents. It is a danger which even the quantitative theory of literature or space rates cannot justify.

The mother of the past, of course, was different from the mother of the present, as different on the whole as the conditions of life then and now, but since her daughter is the mother of the present there must be some points of similarity. All the good in our mothers and grandmothers certainly could not have vanished. It will be paying scant tribute to those dear, good women who have laid down their recepts and examples and passed on to say so. And, of course, this writer does not mean to do that, yet he comes very near doing what he does not intend.

The fallacy of the whole sentimental notion that because things and people are not like they used to be they are not as good lies in the patent fact that they cannot be alike, and if they were it would simply be because of the present generation being so much inferior to the past that it was unable to do no more than stand

SKIN TORTURED BABIES SLEEP AND MOTHERS REST

A warm bath with Cuticura Soap, followed by a gentle anointing with Outicura ointment, is generally sufficient to afford immediate comfort in the most distressing forms of itching, burning and scaly eczemas, rashes, irritations and inflammations of infants and children, permit sleep for child and rest for parent, and point to permanent relief, when other methods fail. Peace falls upon distracted households when these pure, sweet and gentle emollients enter. No other treatment costs so little and does so much for skin sufferers, from infancy to age. Children's Food.

Certain little suggestions are always to be followed when planning the diet of the little ones. To keep healthy little stomachs in the nursery never serve hot stewed fruit to the children. Plenty of stewed fruit and baked apples they should eat, but they must invariably be cooked the day before and dished up cold. The nursery potatoes should always be baked or boiled in their jackets. Stewed and fried potatoes or potatoes boiled without their skins supply starch, with a loss of all the wholesome potash salts that the skin gives out during the process of cooking into the white part of the vegetable.

A Prime Cause of III Health. A famous physician on being asked recently what is the chief cause of ill health, replied: "Thinking and talking about it all the time. This senseless introspection in which so many of the rising generation of the nervous folk indulge is certainly wearing them out. When they are not worrying as to whether they sleep too much or too little, they are fidgeting over the amount of food they take or the quantity of exercise necessary for health. In short they never give themselves a moment's peace."

There's the Rub. "Well," said the optimistic boarder, 'there's one thing about our boarding house; you can eat as much as you like there."

"Of course; same as ours," replied the pessimistic one, "you can eat as much as you like, but there's never anything you could possibly like."

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a- million women, in a practice of over 40 years, it is phenomenal. and entitles Dr. Pierce to the gratitude accorded him by women, as the first of

specialists in the treatment of women's diseases. Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them.
