

325,000 IN ONE YEAR

THE IMMIGRATION TO CANADA SURPASSES ALL RECORD.

The returns recently issued by the Canadian Immigration Branch shows that upwards of 325,000 persons arrived in Canada during the past twelve months, declaring their intention of becoming settlers in that country. Of this number about 130,000 were from the United States, the balance being from the British Isles and Northern Europe. It will thus be seen that the sturdy farming element that has gone forward from the United States is being splendidly supplemented by an equally sturdy settlement from across the seas. The lure of Canadian wheat, oats, barley and flax grown on the rich prairie of Western Canada is constantly attracting more and more, and year by year the tide of immigrants to the Western Canada plains increases; there is no ebb to this tide. The Canadian authorities are not surprised at the number from the United States being as large as it is but they did not look for so large an immigration from the old countries. Still, they will not be found unprepared. Reception halls are in readiness at all important points in Manitoba, Saskatchewan and Alberta, surveyors were at work during the past season opening up new districts on which to place those seeking free homesteads of 160 acres each, railroads have been projecting laterals from their main lines, and every provision has been taken to accommodate the newcomer. A recent dispatch from Antwerp reads: "The diversion of European emigration from the United States to Canada is said to be seriously affecting the Atlantic steamship lines. The Red Star today gives up to the America-Canada line two of the best special emigrant steamers afloat, the Gothland and the Samland. These vessels heretofore in the Antwerp-New York service are now to be operated from Rotterdam to Canadian ports."

On the date of the above dispatch word came to the Immigration branch that the "Vanguard of the 1911 army of United States settlers reached Winnipeg at 1:30 o'clock this morning. There was a solid train load of effects, comprising 41 carloads and two colonist sleepers attached to the train, which contained the members of 25 families. Every man Jack in the party is a skilled farmer, and all have come north prepared to go right on the land, which was purchased last year. They are equipped with everything that experience has shown is necessary to make a start on virgin prairie. In addition to machinery and household effects there were a large number of horses and cattle. Some of the farmers had also brought along gas tractors, which will be put right to work on ground breaking."

One of the agents of the Canadian government advises that it would appear as if each month of the present year would show a large increase over the past year. The demand for the literature of the department, describing the country and its resources, is greater than it ever has been.

Now He Doesn't Believe It.
A Cleveland man was reading some jokes about how the English weren't so slow as they are supposed to be to get a joke. He believed it, too. So he tried his theory on a British guest of his.

"Did you ever hear Mark Twain's joke about how the report of his death had been greatly exaggerated?" he asked.

"No," answered the Englishman, eagerly, "but I'll wager it was good. What was it?"—Cleveland Plain Dealer.

Time Saving.
A new version of the new long familiar "while you wait" sign is found in an uptown avenue where a barber shop and a tailoring shop stand side by side. In front of the building hangs a sign on which are displayed the name of the tailoring concern and the name of the barber shop and this announcement:

"Suits cleaned and pressed while you are getting shaved."—New York Sun.

Hopelessly Outclassed.
"Mrs. Caswell, while you were in Venice did you see the Bridge of Sighs?"

"Oh, yes; I saw what they called that. But, my land, I've seen bridges ten times its size without ever going out of Pennsylvania."

Chew and smoke untaxed tobacco, cheap and untaxed. Merchants & Edwards, Clarksville, Tenn.

Every man is just enough of a liar to keep himself amused.

Beware the Gypsy Moth.
Washington.—The department of agriculture is giving a loud cry of warning to everybody interested in fruit trees and ornamental plants and shrubs throughout the country to look out for the brown-tail moth and the gypsy moth. That the dangers to fruit trees and shrubbery, and even such trees as the elm, oak and maple, from these two pests are great and growing is the admonition given by the department of agriculture.

SLOAN AND KINKAID HAVE TARIFF SUGGESTIONS.

Washington.—Convinced that the farmers' free list contains many provisions which would be injurious to the farmers and which would go a long way to nullify the beneficial effects of its other provisions, Representatives Sloan and Kinkaid of Nebraska are making an attempt to bring before the house a number of bills that they believe will bring about the desired results free from the evils embodied in the pending legislation. With the hope that these bills shall be reported out of the committee and with a view to fight for their passage, Mr. Sloan and Mr. Kinkaid will oppose the democratic measure. To this end Mr. Sloan has introduced four bills. One calls for all timb and lumber to be put on the free list, one for sewing machines and all parts thereof, another for boots and shoes, harness, saddles and saddlery, and the last for salt.

Marks Spot of "Lone Tree."
Central City.—A granite pillar with its surface knotted and carved like the trunk of a giant cottonwood tree, now marks the spot where the "Lone Tree" on the old Oregon trail stood for years, the only tree up and down the river for miles, and under the branches of which many a tired band of emigrants or California gold seekers used to rest under the protecting shade of its branches.

The government will open up an experimental coal mine at Bruceston, Pa.

STATE CAPITAL LINCOLN CHAT.

LIEUT.-GOV. HOPEWELL DEAD.
Lieutenant Governor Melville R. Hopewell died at his home at Tekamah Tuesday morning from pneumonia, complicated with chronic malady of heart and stomach.

The lieutenant governor's condition had been serious for a week and hopeless for several days.

On the adjournment of the legislature Judge Hopewell, who was suffering from a severe cold and physical

MELVILLE R. HOPEWELL.

debility went to Excelsior Springs, Mo., to recuperate. He returned home a week ago Monday feeling no better and presently symptoms of pneumonia were observed. In two days his illness had become serious.

To Negotiate With the Utes.

F. H. Abbott, assistant commissioner of Indian affairs, has gone to southern Colorado to attempt to negotiate a treaty with the Ute Indians in order to get them to move from a large area which contains numerous well-preserved remains of the cliff dwellers. In place of this land, exceedingly valuable to the archaeologist, the government is ready to give the Utes other domain.

Asks for Tubercular Hospital.

Lodge Pole, a village in Cheyenne county, is the first town in the state to distinguish itself as an applicant for the location of the proposed state tubercular hospital. The last legislature appropriated \$40,000 for a building, but up to the present no locality has been found that desired the institution.

Militia Camp for Omaha.

The state military board has decided to recommend to the governor an abandonment of the Ashland camp grounds this year. The board recommends a two days' encampment of each company at its home station for rifle practice and a camp of eight days immediately following at a camp within ten miles of Omaha. The plan is to have the state militia camp near Omaha the first week in October and participate in festivities there.

To Revise the Statutes.

After advising with the supreme court the governor has appointed Judge A. M. Post of Columbus, ex-Senator A. L. King of Osceola, and J. H. Broady, Jr., of Lincoln, as a commission to revise the statutes of Nebraska. The governor believes he has chosen men eminently fitted for the work assigned them. The recent legislature passed a bill, which was signed by the governor, authorizing such a commission.

State Settles With Heirs.

A check for \$11,947 was mailed from the attorney general's office to Attorney Robinson of Hartington, acting for the heirs of Nels Jensen, to cover the value of the Cedar county land which escheated to the state on the death of Jensen.

Governor Aldrich will reappoint as a board of control the present three trustees of the school for dependent children in Lincoln. The members are A. L. Weatherly, the Rev. H. H. Harmon and Dr. P. E. Hall.

State Superintendent J. W. Crabtree has arranged so that county superintendents and city superintendents who desire to observe the peace movement by appropriate exercises in the schools may obtain programs free of charge from Mrs. Fannie Fern Andrews, 405 Marlborough street, Boston, Mass. The peace league makes no charge for the programs and they may be obtained by addressing Mrs. Andrews. The programs are in the form of a circular "School exercises for the observance of the eighteenth of May."

Will Close Industrial School. Printery. Land Commissioner Cowles states that the printing shop at the Kearney industrial school would be closed. He stated that it cost about \$100 a month to run it and that it would cost at least \$1,500 to put it in good shape to do good work, which he says it does not do at present.

Governor Aldrich has received an invitation to deliver the commencement address at the Ohio university at Athens, Ohio, on May 15.

On the Level.
"Do you assimilate your food, aunty?"
"No, I doesn't, sah. I buys it open an' honest, sah."—Woman's National Daily.
