

## A Safe, Simple System

The system of paying by check was devised by all men—for any man—for you. It is suited to the need of any business, either large or small. It makes no difference whether we pay out \$10 or \$10000 a month. A checking account will serve your needs.

Pay by check, the method puts system into your business and gives you a record of every transaction.

Plenty of time to plant trees. Our trees are kept in our large, cool, cement building now and are held back so they will be good to put out for several weeks yet. We keep no trees in our building in winter, and only recommend the hardiest and tried varieties that do business in Northwest Nebr.

Have you noticed the number  
of strangers on the streets of Val-  
entine? Not very long ago you  
could call a friendly hello to near-  
ly every one you met. But now  
'tis different. The opening of  
South Dakota lands has called  
hundreds to that state in quest of  
fortunes in farming and ranching,  
and our own county to the south  
is filling up with "Kinkaiders".  
Valentine is a trading point for  
homesteaders on the south and the  
settlers of the Rosebud country on  
the north.

Two slight earthquake shocks  
were felt in Valentine last Friday  
at 3:36 p. m. At the depot the  
shock was felt by Roadmaster Ly-  
man and in the office of J. J.  
McLean, local weather observer,  
the electric lamps swayed. Many  
persons on the street noticed the  
disturbance. Mr. McLean for-

slight earth tremors are of fre-

no question but what Valentine

Bachelor, and Mrs. Mary Bachel-  
or; 160 acres to L. F. Brown of

The sale at the J. E. Phelps' place  
nine miles southwest of  
Wood Lake Tuesday, was well at-  
tended by Cherry county people.  
Everything sold for good prices,  
cows bringing from \$32 to \$55 per  
head. Mr. Phelps and family

Electric lights were turned off  
Wednesday on account of making  
necessary repairs at the power  
plant. The trouble was at the  
mouth of the flume, where the floor  
had rotted away. The water had  
to be let out of the pond before  
the parts could be replaced. The  
pond is now filling up and the elec-  
tric current will probably be turn-  
ed on Saturday night.

pieces of mail matter handled at  
the Valentine post office during  
the month of May, showed that

passed through the office during  
the month, and that 55,433 pieces  
of incoming mail were handled;  
making an average of 3,308 pieces  
daily. The amount of business at  
the Valentine post office increases  
each month and at the end of the  
year is very noticeable.

A small boy and a match were  
the cause of what might have been  
a serious fire at Hammond & Bullis'  
barn shortly before noon Tuesday.  
The little fellow had a pocket full  
of matches and took delight in set-  
ting fire to them, while sitting by  
the side of the barn where there  
was some loose hay. When Mr.  
Bullis noticed the blaze it came  
only a few feet from reaching the  
open door in the mow. Quick  
work with pails of water kept the  
fire in check until the arrival of  
the hose cart.
