On a recent auto trip Howard Layport came upon a party traveling by buggy. That is they had been traveling that way but when Howard saw them the two ladies of the party were sitting to one side and the young man was underneath the buggy vainly trying to repair the break. It is not uncommon to see owners of automobiles toiling with might and main to make their machine travel just a little farther and it gives these said owners no little pleasure to come upon a buggy hopelessly broken down.

The many thousands of Nebraskans who expect to attend the Omaha Land Show, October 16 to 28 inclusive, will have the pleasure of seeing their home state magnificently represented. Some of the best space in the big coliseum where the show will be conducted is being reserved for the Nebraska exhibits. There will be a special Nebraska State Day, and nothing will be left undone to show up the best advantage.

The regents of the University of Nebraska have decided to assemble an exhibit designed to show the advantages and vast resources of the state. Besides this big general exhibit there will be a large number of individual county displays. Indications are that every section of Nebraska will be represented at the Land Show. Already a number of western counties are arranging for space in the coliseum, and more will be heard from as soon as the individual communities know what to send for exhibition purposes.

The people from all over the west will be especially interested to know what Nebraska has to offer, and the object, is to make the best possible showing. General Manager W. O. Paisley, who has just returned from a tour of several western states, says that everywhere he went he found basic conditions wonderfully solid, largely because the era of development is beginning to dawn, and the speculator is being crowded out of the field. He is enthusiastic over the crop conditions, which will insure a prosperous season, and finer land displays than have ever gone out of the west.
