The Navy Department has secured space in Mercantile Hall for their exhibit at the coming State Fair, Sept., 4th to 8th. In this exhibit will be six model battle ships, each 8 feet in length, a wireless telegraph outfit complete, gun carriages and equipment mess outfit, and in fact everything to interest the boy who has aspira-

tions and ambitions to at some time be of service to his country, should occasion require. The small naval exhibit of last year created such an interest that the officers in charge said that Nebraska's Fair was one of the best places in the country at which to make an exhibit.

A contract was signed up last Saturday for the Walter Savidge Carnival Company to be here for the Fraternal Picnic, Farmers' Institute and Corn Show. This amusement company has been in Valentine before and bears a reputation for clean shows and square dealing. Mr. Savidge has donated the use of his large theatre tent in the afternoon and it will be used for speaking purposes.

The J. S. Worley Company, engineers have secured a contract with Norfolk to draw plans for their municipal lighting plant. This is the same company that now has our light plant in hand. Palmer & Company drew plans for Norfolk in the first place but upon investigation by members of the Norfolk city council it was decided not to risk using them as they could not secure satisfactory recommendations. Each year has found some new improvement on the State Fair Grounds and when the next fair dates, September 4th to 8th rolls around, the visitor will behold a new Grand Stand with steel supported roof covering the entire structure, which covers a space 80x20 feet. This new Stand is built on the old site but a little further back from the track, and contains 6400 comfortable seats, the upper row of which is 40 feet from the ground. An earthen dyke over one half mile in length and averaging about six feet in height has been constructed around the west of the grounds to prevent flood water from Salt and Antelope creeks from coming on the grounds. Some of the other improvements are a cement floor in the Auto building and the installation of turnstiles opened by coins.

Value

is not what some people imagine it to be. There is only one kind of clothing value—actual worth. When you read a (Bargain Sale?) notice of \$50 value for \$7.69, your good sense tells you it is not worth \$50.00—but most likely it is a \$7.50 value.

Every garment we offer is worth the price we get for it. A \$15.00 suit will be worth \$15.00 in actual wearing value to you.

At the price you pay us, we are absolutely certain that it is the most style, quality and workmanship to be had for that money—no matter if it is \$15.00 or \$35.00. Our policy is: "The utmost value at the price."
