FOR THE CHILDREN

Oatmeal Macaroons.

Come, all ye little would be cooks, And join our merry band: Learn to prepare the toothsome foods Enjoyed throughout the land. Put on your caps and aprons quaint, Set out two bowls and spoons, And butter well your biscuit tins For oatmeal macaroons.

The sugar and the butter mix Till creamy as can be. Then add the beaten yolk of egg And stir most thoroughly. In another bowl the dry things put. The oatmeal and the salt. Stirred with the baking powder till They blend without a fault.

Next mix the contents of the bowls And add vanilla, too. And last the well whipped white of egg Most thoroughly mixed through. Then drop the mixture from a spoon. Two inches space between. In little bits no larger than A tiny lima bean.

-St. Nicholas.

Turning Water Into Milk.

For the trick you will need some lime-water, a glass tumbler and a rod of glass or a piece of broken window pane small enough to be used for stirring the contents of the tumbler and so long that the water will not get on your fingers. You can buy enough lime-water from the druggist for 5 cents, or you can make it yourself by dropping bits of unslaked lime into the amount of water you are going to use. Drop tiny bits at a time and wait until each is dissolved before you drop the next, because the chemical combination of the lime and the water generates great heat. Lime is calcium oxide. Combined with water it makes calcium hydroxide.

Set before your guests the tumbler of lime-water, which does not look different from pure water. Tell the company that your breath is magic and will turn the water into milk and then breathe into the tumbler, stirring the water with the glass rod after each breath. The water will turn white, and the white will become more dense as you continue breathing.

What have you done? You have made a second chemical combination, without heat this time. The carbon dioxide in your breath has combined with the calcium hydroxide and produced water and calcium carbonate, which is what chalk and limestone are made of. You would better warn your friends that there is chalk in the milk you serve, because pretty soon the white powder that made the water opaque will sink to the bottom of the tumbler, leaving clear water above it.

Tom Tiddler's Ground.

A game that used to be played by our grandparents and by their grandparents (only under another name) is Tom Tiddler's ground. There must be at least three players. One is chosen to be Tom Tiddler, and his ground is the lawn or the yard-any part of the ground marked off as his domain. Tom Tiddler gets on to his ground and, shutting his eyes as he stands, pretends to be asleep. Then the other players venture upon the ground, singing:

Here I am on Tom Tiddler's ground, Picking up gold and silver that's round. As Tom continues to play at being asleep, the ponchers go closer and closer to him, when suddenly Tom Tiddler makes a dash and tries to seize upon one of them. If he succeeds in grasping hold of even the garment of one of the players the one thus caught becomes Tom Tiddler, and the first Tom Tiddler becomes one of the ponchers. If he fails to grasp hold of a player, however, the game goes on as before, continuing till one of them is caught.

Geographical Game.

Seat the players in a ring. Let the first one say aloud the name of a city, mountain, river, lake, etc., located in any part of the world or in any division of the earth agreed upon. The next player must give a name beginning with the last letter of the name previously given, and the third must supply one beginning with the final letter of the second, and so on around the circle-for example, America, Athens, Santiago, Omaha, Antwerp, Peru.

Each player is allowed thirty seconds in which to think. If by the end of that time he fails to give a name he must drop out of the game. The one who keeps up longest is the champion. Any player may at any time be challenged to give the geographical location of the place he has named. If he cannot do this he must pay a forfeit.

When the King Travels.

When the ruler of England travels an engine is carefully selected, in charge of an experienced engineer and fireman. A pilot engine always precedes the royal train, and no train is allowed to cross the main line for half an hour before the time fixed for the king to pass. The gates at all grade crossings are locked, all shifting operations are suspended, and an army of trackwalkers is on duty to remove any obstruction from the line. In addition to this, a telegram is sent from every station heralding his approach. Altogether it must be quite an event when he takes a trip, but the general traveling public cannot enjoy it.

Punctuality at School.

Punctuality at school is more important than is usually appreciated, for it cultivates an important trait of character which is an excellent one to acquire. As a rule, there is little excuse for boy or girl being late in the classroom, for both can calculate just how long it takes to reach the school building from their homes. Then it is only a matter of leaving home in time to be in their seats before the 9 o'clock bell rings.

IN THE WORLD OF SPORT

Kirby, New Head of Amateur Athletic Union.

Gustavus T. Kirby, the new president of the Amateur Athletic Union, is one of the most popular men that ever held the position. For many years he has been identified with the sport and, according to friends, is better posted on field athletics than any other man in the country. Mr. Kirby succeeded Everett C. Brown of Chicago as head of the union.

Pitcher Bailey Likes Minor League. Bill Bailey, the young southpaw, does not want to pitch for the St. Louis Browns next season. He was turned over to the Montgomery Southern association team last season and is eager to return to that city, where he had more luck than in many campaigns. Owner Hedges has refused to turn him back to the Southern leaguers and says he expects Bailey to reward him for some of the four years' salary he paid. Bailey won few games for the Browns. The former Texas sidewheeler claims he can make \$600 more each season by remaining with Montgomery than by rejoining the Browns.

Pittsburgh Spent Fortune on Players. The Pittsburgh club in 1911 spent more money for ball players than any other two clubs. The outlay of each club in the major leagues was as follows:

National-Pittsburgh, \$48,000; Boston, \$6,950; Brooklyn, \$16,980; Philadelphia, \$8,450; St. Louis, \$9,750; Cincinnati, \$21,800; New York, \$10,750; Chicago, \$14,000. American-Chicago, \$25,780; St. Louis, \$14,450; Philadelphia, \$13,750; Detroit, \$7,850; Cleveland, \$20,850; Washington, \$13,900; New York, \$25,000; Boston, \$25,800.

Yale May Take Up Boxing.

Properly restricted and safeguarded, boxing might prove an acceptable form of intercollegiate sport, in the opinion of Dr. William G. Anderson, director of the Yale gymnasium, but it would have to be freed from the "knockout" and "any other element that has proved harmful to boxing." Discussing the question, Dr. Anderson suggests a meeting of representatives of different colleges and universities for the purpose of giving the subject careful consideration.

Intercollegiate Ice Hockey.

Most all the big college sevens have begun hockey practice for the approaching season. Few of the teams have been able to practice on ice, and the majority of them have had to devote their attention to armory work. Columbia is working out at the St. Nicholas skating rink, in New York, and Harvard's puck chasers are preparing in the rink in Boston.

One Armed Bowler Sets Record.

Ned Nelson, the one armed bowler of the O'Leary team, rolled a record breaking total of 711 recently in Chicago for the individual title in the city play tournament. This is the highest mark ever made in the Chicago tournament, inaugurated in 1904.

Probst to Lead Syracuse.

Right Tackle Archibald Rndie Probst was elected captain of the Syracuse eleven for the 1912 season. The selection was made on a street car while the members of the team were returning from the game with the St. Louis university recently.

Thomson to Captain Michigan Eleven.

George "Bottles" Thomson of Cadillac, Mich., has been elected captain of the University of Michigan football team. Thomson played fullback during the season just closed.

Mendez: Great Cuban Pitcher.

Mendez, the Cuban pitcher, would be worth approximately \$50,000 to any American club if he were only a white.

MICROBES IN YOUR SCALP? It Has Been Proved That Microbes Cause Baldness.

Professor Unna of Hamburg, Germany, and Dr. Sabouraud, discovered that a microbe causes baldness. Their theory has time and again been amply verified through research experiments carried on under the observation of eminent scientists. This microbe lounges in the Sebium which is the natural hair oil, and when permitted to flourish it destroys the hair follicles and in time the pores entirely close, and the scalp gradually takes on a shiny appearance. When this happens there is no hope of the growth of the hair being revived.

We have a remedy which will, we honestly believe, remove dandruff, exterminate the microbe, promote good circulation in the scalp and around the hair roots, tighten and revitalize the hair roots, and overcome baldness, so long as there is any life left in the hair roots.

We back up this statement with our own personal guarantee that this remedy called Rexall "93" Hair Tonic will be supplied free of all cost to the user if it fails to do as we state.

It will frequently help to restore gray and faded hair to its original color, providing loss of color has been caused by disease; yet it is in no sense a dye. Rexall "93" Hair Tonic accomplishes these results by aiding in making every hair root, follicle, and pigment gland strong and active, and by stimulating a natural flow of coloring pigment throughout the hair cells.

We exact no obligations or promises—we simply ask you to give Rexall "93" Hair Tonic a thorough trial and if not satisfied tell us and we will refund the money you paid for it. Two sizes, prices 50 cents and \$1.00. Remember, you can obtain it in Valentine only at our store—The Rexall Store. G. A. Chapman.

Teachers' Meeting.

January 13, 1911

Music

The Teacher and the School, G. W. Eaton.

Agriculture, Chapt. 14-16,

Mr. Cowan.

Domestic Science, Miss Stuckey.

Discussion, Mrs. Amelia McLean.

Great American Educators,

Miss Brown.

Music

Ethics for children, Miss Gordon.

Uses of School Library in Rural School, Helen Hunter.

Discussion of Books Suitable for School Library,

Edna Hobson, Myrtle Searby.

School Room Ventilation,

Hiram Newman.

What Constitutes an Education,

Ada Smith.

Music

The regular time of meeting is the second Saturday of each month.

84 acre farm for sale. Good house; fair barn; 45 acres alfalfa; 25 acres fenced hog tight; all under fence; all tillable; 1 mile from town. This is certainly a fine farm, and cheap at \$4,800. Address, S. K. Imes, Altoona, Kansas.

Here is a woman who speaks from personal knowledge and long experience, viz., Mrs. P. H. Brogan, of Wilson, Pa., who says, "I know from experience that Chamberlain's Cough Remedy is far superior to any other. For croup there is nothing that excels it." For sale by Chapman, the druggist.

Well pipe at lowest prices at Fischer's Hardware.

Guardian's Sale.

Notice is hereby given that in pursuance of an order of the Hon. W. H. Westover, Judge of the District Court of Cherry County, Nebraska, made on the 25th day of November, 1911 for the sale of real estate hereinafter described, there will be sold at public vendue to the highest bidder for cash at the front door of the Court House in the Village of Valentine in said County on the 30th day of January, 1912 at the hour of ten o'clock a. m. the following described real estate, to-wit: South Half of No. 10th Half, southeast Quarter, Section 9, West Half of Northwest Quarter, Section 15, Township 33, North, Range 28, West, Cherry County, Nebraska, said sale will remain open one hour. W. B. Hadley, guardian of Frank W. Hadley, minor heir of Irene E. Hadley, formerly Irene E. Miller, deceased, by J. L. Walcott & Walcott, His Attorneys.

POOL AND BILLIARD HALL
Cigars and Soft Drinks
JOHN G. STETTER - PROP.

INTERNATIONAL "30"
Before buying an auto it will pay you to see the INTERNATIONAL "30"
No Hill too Steep; no Sand too Deep
Sold by D. McLeod
Guaranteed by International Harvester Company

GRANT BOYER,
CARPENTER & BUILDER.
