 February 2, 1912.
 M. M. Dewing was in Rushville
 Saturday on business.
 Three of Mos-ek's children have
 the whooping cough.
 A light snow storm with a very
 cold wind visited us last Friday.
 L. E. Aubert was doing some
 trading at White Clay the first of
 the week.
 J. O. Aplan took a load of wood
 to town and will visit over Sunday
 with his family.
 Charlie Abold went to Rushville
 Wednesday and will visit a few
 days with his folks.
 Mr. and Mrs. Humphreys and
 Miss Jacobs were in the city Sat-
 urday, doing some trading.
 John Lehmen went to town
 Wednesday and hauled out a load
 of household goods for Frank
 Talbot.

Frank Talbot and family have
 moved out on the extension and
 will farm Frank Peck's place the
 coming year.
 Mr. Aska and family have moved
 on J. O. Aplan's ranch and Mr.
 Aska will assist Mr. Aplan with
 the farm work.
 The groundhog did not see his
 shadow unless he had extraordi-
 nary sharp eyes as February 2nd
 was cloudy all day.
 Henry Abold brought out a load
 of supplies from town Wednesday
 for a dance to be given at his
 house next Saturday.

**IN THE REALM
 OF FASHION**

Chafing Dish Apron.
 The chafing dish apron here shown
 is notable for the arrangement of its
 shoulder straps which are mere con-
 tinuations of the lace and ribbon run
 beading outlining its pointed front.
 The straps cross each other at the
 waist line in front and are each re-en-
 forced by an additional row of the lace

RIBBON AND SWISS APRON.

edging and finished with pointed ends,
 each adorned with a bow of ribbon.
 The waist band is of ribbon under val-
 lace. Double rows of this lace edge
 the apron.
 Bowknotted swiss was the material
 chosen for this dainty conceit, and rib-
 bon bows and ties added the finishing
 touch of coquettishness.

The New Train.
 What at first sight looks very much
 like the old fashioned wattleau plait is
 a feature of many of the season's even-
 ing gowns. For want of a better name,
 many dressmakers are indeed calling
 the new separate trains, which are com-
 ing from the center of the back high
 up between the shoulders, wattleau
 trains. The attraction of the new
 train, from the practical woman's point
 of view, is that it can be easily picked
 up and carried over the wearer's arm.

Rich Fabrics.
 This is the season of elaborate and
 costly materials. We have gone mad
 about broadened satin, velvet and chif-
 fon, metal effects and the rich and
 luxurious effects for which the conno-
 isation was responsible.

**ADVANCE STYLES
 IN SPRING COATS.**

**Full Length Models Lead, but
 Shorter Ones Are Coming In.**

In speaking of spring wraps the Dry
 Goods Economist says:
 The cut of the coats again shows the
 straight line from shoulder to hem.
 While there is no indication of any at-
 tempt to draw in the figure in any ex-
 aggerated way, the absence of fullness
 in the skirt gives the appearance of
 slimmness which is so essential.
 The full length coat is considered the
 most practicable for the coming sea-
 son, but manufacturers are working
 on some new models in three-quarter
 and seven-eighth lengths in outway
 effect, which they expect will be taken
 in the dressier models in silks, satins
 and chamoisee.

The large easy fitting sleeve is con-
 sidered excellent for spring and is seen
 frequently in the utility coats. It is
 made somewhat similar to the regula-
 tion coat sleeve, outlining the arm to
 more or less extent. In automobile
 wraps the sleeves as well as the arm-
 hole are made somewhat larger and
 usually finished off with a deep turn-
 back cuff, some of which have buttons
 and straps so that they can be fast-
 ened close to the arm when taking
 long journeys.

In the evening wraps the sleeve is
 frequently cut in kimono shape, but
 set in at the shoulder or below the
 shoulder line, but the regulation kim-
 onio sleeve is seldom seen in the new
 lines. The full length sleeve is by far
 the most desirable, but some three-
 quarter and seven-eighth sleeves are
 to be found in the extremely dressy
 wraps.

The use of fagoting and fancy silk
 stitching is noted and makes a neat
 and effective trimming. Belts are much
 in evidence, and belt effects are also
 seen. These are largely of leather
 and suede in black and colors and in
 some cases of the material itself.

New Neck Bow.
 The latest in neckwear is the ex-
 tremely large bow of black or white
 plaited malines. Frequently both col-
 ors are used together, one veiling the
 other.

Trained Gowns.
 Dressy afternoon gowns are made
 longer than they were last season,
 many showing the short train effect,
 while others just sweep the floor.

**ALL THESE MEN HAVE
 WORKED FOR THE
 SAFETY OF YOUR MONEY
 WHEN IT IS IN A
 NATIONAL BANK**

IN order to furnish
 proper banking protection,
 President Lincoln and his
 first congress established
 the National Bank which
 operates under government
 supervision.

From time to time addi-
 tional laws have been
 passed under the different
 presidents shown above
 strengthening the protec-
 tion a National Bank af-
 fords.
 Thus the confidence and
 security that comes with
 the possession of money
 in the bank is greatly en-
 hanced when it is in a Na-
 tional Bank, for here it
 has every safe-guard pos-
 sible for human ingenuity
 to devise.

In selecting a bank in which
 to deposit your savings or
 surplus funds the one thing
 to be considered is safety,
 and we ask for your busi-
 ness only on the basis of ab-
 solute safety. Call at our
 bank and let us explain to
 you how safe your money
 is here.

A LIBERAL OFFER
 We Guarantee to Relieve Dyspepsia.
 If we Fail the medicine Costs
 Nothing.

To unquestionably prove to the
 people that indigestion and dys-
 pepsia can be permanently relieved
 and that Rexall Dyspepsia Tablets
 will bring about this result, we
 will furnish the medicine absolutely
 free if it fails to give satisfaction to
 anyone using it.

The remarkable success of Rexall
 Dyspepsia Tablets is due to the
 high degree of scientific skill used in
 devising their formula as well as to
 the care exercised in their manufac-
 ture, whereby the well-known prop-
 erties of Bismuth-Subnitrate and
 Pepsin have been combined with
 Carminatives and other agents.

Bismuth-Subnitrate and Pepsin
 are constantly employed and recog-
 nized by the entire medical profes-
 sion as invaluable in the treatment
 of indigestion and dyspepsia.
 The Pepsin used in Rexall Dys-
 pepsia Tablets is carefully prepared
 so as to develop its greatest efficien-
 cy. Pepsin supplies to the digestive
 apparatus one of the most impor-
 tant elements of the digestive fluid.
 Without it the digestion and assimi-
 lation of food are impossible.

The Carminatives possess prop-
 erties which aid in relieving the dis-
 turbances and pain caused by un-
 digested food.
 This combination of these ingredi-
 ents makes a remedy invaluable
 for the complete relief of indiges-
 tion and dyspepsia.

We are so certain of this that
 we urge you to try Rexall Dys-
 pepsia Tablets on our own personal
 guarantee. Three sizes, 25 cents,
 50 cents, and \$1.00. Remember,
 you can obtain Rexall Remedies
 only at our store.—The Rexall Store,
