MONEY! MONEY!
Do You Want a Bargain in Town Property?

I have three properties that are bargains and I am going to sell them at a bargain to some one who has a few hundred dollars laying idle.

I want to build a good building for a printing office and will sell property cheap, to carry out my plans.

Come and see me on any kind of a property deal. I want money and I'll give big value for it.

The Only "Dolly" Type Machine Made

That has absolutely no operating mechanism attached to the sides or top of the machine.

Equipped with specially designed reversible wringer, which is operated by the same motor that operates the machine, and enables the washing and wringing to be done at the same time.

The motor, together with all operating mechanism, is mounted on a metal frame underneath the body of the machine, out of the way of the operator. This metal frame is rigidly attached to the legs and insures perfect alignment of the gearing and reduces the amount of power required to operate the machine to a minimum.

Only one Lever to Operate

The machine and reversible wringer under positive control of the operator. The wringer may be operated at the same time or remain stationary while the machine is washing the clothes. The only Dolly-type machine fitted with special 1-inch drain faucet at the bottom for drawing off the waste or making permanent connection with the waste drain if desired.

15 days' free trial to convince you of the merits of this machine.
