

In Regard to Gov. Harmon

The following statement has been issued at Harmon headquarters:

"In one of the series of open letters that passed between Col. W. J. Bryan and E. H. Moore, chairman of the Harmon campaign committee, the former tauntingly said, 'kindly report to Gov. Harmon what you find in Nebraska, and see whether he is proud of his Nebraska campaign?'"

"Gov. Harmon has felt that he might be justly proud of the character of the support he has received in Nebraska. He had been informed that in Nebraska that support numbers, as it does in Ohio, most of the men who, in three campaigns, had actively led the fight for Mr. Bryan."

"This taunt of Mr. Bryan's has been published broadcast throughout Ohio. In view of that fact Mr. Harmon's friends request that when Mr. Bryan comes next week to Ohio to collude with those eminent progressives, John R. McLean, Harvey C. Garber and John J. Lentz, he inform Ohio's democracy whether U. S. Senator Hitchcock, former U. S. Senator Allen, E. Benjamin Andrews, chancellor of the university of Nebraska and former president of Brown university; I. L. Albert, former supreme judge; John M. Devine, editor of the Silver Watchman in 1896; C. M. Greuther, who managed his Nebraska campaign in 1908; John C. Byrnes, chairman of the democratic state central committee of his state; John Kuhl, speaker of the house; State Senator Tibbets; William F. Porter, former secretary of state; M. J. Holland, Wilber E. Bryant, Fred Hunter and James C. Dahlman, mayor of Omaha (whom Mr. Bryan bolted as the last democratic nominee for Governor in that state), are democrats whose support is to be shunned?"

"These are among the leaders of Gov. Harmon's Nebraska supporters. Mr. Bryan most willingly (in view of more recent events, we can hardly say gratefully) accepted the support of one and all of these gentlemen."

"It can be readily understood in view of the saintly character of the gentlemen with whom he is forced to consort when he comes to Ohio in opposition to Gov. Harmon, that Mr. Bryan exacts a high standard in judging a candidate 'by the company he keeps.' But, even applying this rule, will Mr. Bryan please explain to the democracy of Ohio why the support of such eminent Nebraskans as those named above is, in his judgment, taboo?"

"The Golden Rule—BRYAN AND HARMON IN 1908."

(Putman Co., O. Democrat.)

Four years ago Judson Harmon and Wm. J. Bryan were both candidates, one for president and the other for governor.

Harmon, in every speech he made, lauded Bryan. Harmon told the voters that it was their first duty to elect Mr. Bryan president. That it was more important to have Bryan in the White House than it was to elect him governor of Ohio. Harmon was generous enough to urge Mr. Bryan first and himself afterward. Mr. Bryan was getting the best of the bargain.

He had no fault to find with Judson Harmon then. He knew as much about Gov. Harmon then as he does know. Harmon has voted for Bryan. Harmon has made good as the governor of Ohio.

If Bryan is fighting for principle he should spend his energy on making a good platform at the Baltimore convention. Bryan, great as he is, may make the mistake of quarrelling about men and forgetting principle.

Judson Harmon has never said an unkind word about Mr. Bryan, and gave him stronger support in 1908 than did John R. McLean. Yet in 1912 Bryan's found fighting under the McLean flag in Ohio. Years ago McLean was brave enough to say "no more of

Bryan or Bryanism.

If Tom L. Johnson were living today, he would have some friendly to give to Mr. Bryan.

Woodrow Wilson said many bitter things about Mr. Bryan. Wilson condemned the initiative and referendum in severe language before he became a candidate and heaped severe criticism upon Mr. Bryan and all who favored it. Yet Mr. Bryan lauds Wilson and withholds a kindly word from Harmon who never spoke ill of him.

Bryan is a great preacher and a great teacher, but he should remember the golden rule. New Jersey is the home of three-fourths of the trusts that curse the country.

The tariff, trusts, taxation and economy of government are the great issues that need attention. Gov. Harmon is pre-eminently fitted to cope with all of these. He is the one democrat who can be elected. Bryan has thousands of loyal friends who do not want to see him make a mistake in this campaign. He is great enough to unite his party if he will.

Speaking at the annual banquet of the Columbus, Ohio, Jefferson Club, May 16, 1909 before Gov. Harmon became the leading candidate for the presidential nomination, Bryan said: "I am glad to have met your distinguished governor. I have not known him intimately, but my estimation grows of him as I study him. I congratulate your state on having him at his head. Already there is a contrast between the way this state is handling the people's money and the way the republican party at the head of the government is handling the people's money to favorite banks and getting back campaign contributions as the result of favoritism."

Speaking at Steubenville, Ohio, April 16, 1912, while on his recent "invasion" of Ohio, and at a time when Gov. Harmon's shadow fell across the path of his ambition, Bryan said: "Governor Harmon is not fit to hold an office from constable up" (constable being the lowest elective office in the state.

Buy a Gasoline Engine You Can Depend Upon

TWO engines may look equally good, may even work equally well for a time. In the end one proves satisfactory, the other becomes a nuisance. Why? The satisfactory engine is one that is carefully built, and thoroughly tested. Thorough testing takes time and costs money. It means careful adjustment under trying conditions. It is an expensive process, but a necessary one if the finished engine is to be dependable.

IHC Gasoline Engines Are Thoroughly Tested

No engine leaves the factory until it has proved itself thoroughly dependable. That is reason enough for buying an IHC engine. It is a good buy because it is dependable—it is thoroughly tested. If you want engine satisfaction for years to come go to the local dealer and buy an IHC gasoline engine. It is the safe way and by far the cheapest in the long run.
