Priestly and son, Charles, with their families expect to move from Pierce to Norfolk about April 1. The elder Mr. Priestly has advertised a sale of his personal property, to be held the latter part of this month. Revival meetings are now being held in the Free Methodist church at the Junction every evening at 7:30. Rev. F. D. Christie, an evangelist of Alma, Nebr., and Rev. F. J. Atkinson, the pastor, have charge of the services. A cordial invitation is extended to all. J. W. Wada and wife were in the city yesterday on their way home to Creigh- ton from an extended visit to Colorado, where they had gone hoping for benefit to Mrs. Wada's health. The lady has consumption and the climate of the state

was found of no avail in staying its ravages so they are returning home. Complaints are made that the taking of mail from the boxes at the postoffice still continues and it looks suspiciously like it was being made a business. Patrons should be careful to lock their boxes, as it is the ones on which the combination is open that are disturbed. Yesterday was the birthday of Miss Marie Bley who clerks in the Fair store and last evening a dozen young lady friends surprised her at the home of her sister, Mrs. F. C. Weber on South Fourth street. Nice refreshments were served and gifts were presented. The evening was spent in a jolly manner and the uninvited guests departed wish- ing Miss Bley many happy returns. The Tribune of the 8th published at Fullerton, California contains the fol- lowing announcement of the marriage of Alice, daughter of Mr. and Mrs. A. J. Weber, formerly of this city: "William G. Dixon and Miss Alice Weber were married Sunday afternoon at the home of the bride's parents, on South Spadra avenue. The ceremony was performed by Rev. Coultas in the presence of re- latives and a few friends. A splendid spread was partaken of by the party, after which the couple was escorted to Anaheim, where they took the evening overland train for the east. At the depot in Fullerton the train was met by a large party of friends of the bride and groom who took advantage of the brief stop to extend congratulations. Mr. Dixon has been prominent in the social life of Fullerton for many years and his genial manner has made him a general favorite. The bride is equally popular, and is esteemed by a wide circle of friends. "Mr. and Mrs. Dixon go to Denver and will also visit the groom's relatives dur- ing their absence. They expect to be gone two months." A Good Thing. German Syrup is the special prescrip- tion of Dr. A. Get Green's Prize Almanac. Asa. K. Leon- ard. Prefers the Crop. The editor is once more under the reg- ular annual obligation to our kind pa- ternal government at Washington for a nice little package of bean seed. While we appreciate very highly this renewed evidence of Uncle Sam's exceeding kind- ness we are very sorry to confess that we shall be unable to make any use of the seed on account of the scratching proclivities of an old roan hen that our wife persists in keeping about the place. If Uncle Sam has any more seeds to pre- sent to us will he please plant them around Washington somewhere and ship us the crop, prepaid, in the fall?— Callaway Courier. The Norfolk Nursery. Gerocke returned to her home in Stanton at noon, after a week's visit with Norfolk friends. Sheriff Losey is in the city from Mad- ison to see that the school man's do not fracture the state laws. Jonas is today moving his tailor shop to the Chesney building, al- most across the street from his old loca- tion. He left last night with a carload of household goods and Mrs. Colver left for the capital city on the noon train today. Mr. and Mrs. Colver leave many friends in Norfolk who regret their removal but will wish them much prosperity in their new home. Herman Naegle will leave about the first of April for a visit to his old home in Germany, expecting to be absent about two months. He goes mainly for the purpose of seeing his mother who is not in very good health. He has not seen her for 22 years, having been away from the Fatherland that length of time. His next market will be closed during his absence. The Columbus Telegram gives notice that after the first of May, next, the sub- scription price of that publication will be \$1.50 per year, payable in advance. Many of the weekly publications are ad- vancing to this price and it is the sensib- le thing to do. A paper is certainly worth that price. When it is given at less than \$1.50 it usually is cheap in appearance as well as in price. A dol- lar publication is not appreciated by the public usually. A company of 60 Norfolk ladies was pleasantly entertained by Mrs. A. Bear at her delightful home on Norfolk ave- nue and Ninth street yesterday after- noon. A guessing contest, in which answers were found in the names of poets afforded amusement during a por- tion of the time. Mrs. N. A. Rainbolt was the most successful in naming the correct answers. At 5 o'clock the guests were seated at small tables and were served with delicious refreshments. Real Estate Transfers. TRAINS TIED UP BY DRIFTS

Travelers Are Snowbound In Western Nebraska.

WORST STORM IN YEARS.

Union Pacific, Burlington and Elkhorn Roads Blocked With Snow—Blizzard In Colorado and Wyoming—Great Damage to Stock Interests Feared. Lincoln, March 25.—Reports from Al- lance and Ogallala this morning indi- cate that the Union Pacific and Bur- lington main lines are blocked with snow. Three passenger trains are held at Ogallala and drifts west of there have not been raised after hard work with snow plows. The Burlington line to the northwest is tied up west and east of Alliance and all trains are held. The storm in western Nebraska is the worst in years and will cause great damage to stock interests. Snow is reported from four to 12 inches deep with a strong wind blowing. Eastern Nebraska is drenched with rain. Re- ports from Long Pine, Neb., show that the Elkhorn road is blocked and all trains are tied up. Denver, March 25.—A storm has pre- vailed all over the state of Colorado. In some places reaching the propor- tions of a blizzard. Snow has fallen to a depth of from three to ten inches. The storm continues with severity on the mountains, blocking railroads and traffic generally. Already cattlemen have suffered losses and fears are en- tertained that the loss will be greatly increased before the storm is ended. All trains from the east are delayed in western Kansas. Regular trains on the Colorado and Southern between here and Leadville have been aban- doned, as the cuts are filled with snow. On the western slope the fall of snow has been heaviest. In some places it is ten inches on the level and much deeper on the mountains. Reports come from Lamar, Colo., that the storm is driving the cattle along with it and undoubtedly many will die from exposure. Reports from the vicinity of Casper, Wyo., show similar weather conditions there. Kidnaping Delays Reception. Cedar Falls, Ia., March 25.—A kid- napping interfered with a reception tendered Saturday night by the men of the Orio society of the state nor- mal school to the women of the Clio society. When George Cleveland, president of the Orios, left his home for the hall, he was seized by four members of other societies, blind- folded, placed in a carriage and driven out of town, where he was held cap- tive until after 10 o'clock. He had in his possession the keys to the recep- tion room, and the guests were unable to gain admittance until one of the young men got in through a window and unfasted the door. Negotiating for Southern Pacific Line. Tacoma, Wash., March 25.—It is cur- rently reported here and is generally believed in railroad circles that the Northern Pacific is negotiating for the purchase of the Southern Pacific line from Portland to San Francisco. It is said the purchase of that portion of the line within the state of Oregon is assured. It is known that a repre- sentative of the Northern Pacific has been over the entire line within a few days on a tour of inspection and much depends on the report he will make to the board of directors. Negotiations have been hanging fire for more than a year and the matter has been kept very quiet. New Can Combine Ready for Business. New York, March 25.—The new can consolidation will go into practical op- eration today, the work of taking over and paying for the constituent prop- erties having been completed on Satur- day. The various plants will from now on be operated for the American Can company. Pending the transfer of the properties, quotations on cans were withdrawn. It is now intimated that the new price list will show a substantial advance and it is also reported that the American Tin Plate company is about to make an advance in tin plate prices. Funeral of Harry Fuller. Pierre, S. D., March 25.—The remains of Harry Fuller, son of Chief Justice Fuller were brought in yesterday on a special train and the funeral was held at the residence. The young man died Saturday morning in Minneapolis of appendicitis, and this is the third death in the family within a year. Death of Judge Bartholemew. Bismarck, N. D., March 25.—Judge Joseph M. Bartholemew, for ten years justice of the supreme court of this state, dropped dead yesterday. Judge Bartholemew was recognized as an able lawyer and jurist and was one of the best public speakers in the state. He leaves a wife and one daughter. Colorado Strike Ended. Florence, Colo., March 25.—The strike of coal miners of the Fremont county district has been ended by an agree- ment satisfactory to both sides and work will be resumed April 1. About 1,500 men are affected. Storm in Black Hills. Deadwood, S. D., March 25.—Two feet of snow has fallen in the last 24 hours and will be of inestimable value to the cattle ranges and mining inter- ests. The storm reaches all parts of the Black Hills. Philadelphia, Baltimore and Wash- ington are red brick cities, red brick being the predominating building ma- terial. In Washington the sameness is relieved by the granite public buildings and marble business structures.

ENCOUNTERS HEAVY SEAS.

French Liner La Gasconne Battered by Wind and Wave.

New York, March 27.—Battered by fierce seas and tossed about by ter- rific gales, the French line steamer La Gasconne arrived from Havre 48 hours overdue. The liner left Havre on March 16, and until March 20 had fine weather. On the morning of the 21st the wind came up from the northwest and the gales lasted through the fol- lowing three days and several times the steamer was obliged to give way and run before the fury of the blast. Great seas broke over the starboard side with enormous force, the lifeboats on the upper deck were wrenched from the davits and smashed, the davits being bent double. Two of the life rafts were lifted bodily from the upper deck and dropped down upon the upper structure, smashing sky- lights and ventilators. The rafts were stove in many places and damaged beyond repair. Fortunately none of the passengers were hurt.

SUFFOCATED IN TUNNEL

Great Northern Freight Becomes Stalled In Cascade—One of the Crew Dead, Five Overcome by Gas.

Seattle, March 27.—The first serious accident in the new Great Northern tunnel, which was opened for traffic about three months ago, took place yesterday and resulted in the death of Engineer W. W. Bradley from suffoca- tion from the poisonous gases in the tunnel. His fireman, Joe W. Smith, was overcome, but recovered. Five other trainmen were overcome but re- covered soon after getting in the open air. The train, which was eastbound, be- came stalled in the middle of the tun- nel. The fumes of the engine filled the place, and the men were forced to leave the train and lie on the floor of the tunnel for safety. When the train failed to appear at the far end of the tunnel the watch- ers there feared that something had happened and started in with a relief engine. The body of the dead engineer was found face down in a ditch at the side of the track. The other men were found on the track. The rescuers had a hard time getting to the scene, on ac- count of smoke and gas. All the men rescued were taken to the hospital at Everett and are nearly recovered. Relief In Corner Is Shaken. Chicago, March 27.—Belief that a corner in May corn is being generated was somewhat shaken yesterday by the action of that market, the price for May keeping within a range of about 5c, with trading restricted. Among the more optimistic bulls there was some talk of 50-cent corn during the morning, but traders popularly be- lieved to be most heavily interested in the alleged corner were good sellers at times. George H. Phillips, who is credited with engineering the deal, denied that any corner had been formed.

Dead Letter Curious.

In postoffice transactions the lack of ingenuity and even of ordinary com- mon sense is astonishing. The curious of the dead letter office include envel- opes legibly cross marked "Return if not delivered" or "If not called for in five days, return to sender" without a word of further specifications. Others bear names without topographical data: "Hermann Kemper, painter and decorator, successor to Ritchie Bros. & Co." Workmen, foreigners especial- ly, often seem to credit mail clerks with the gift of geographical clairvoy- ance: "Jan Jansen, at the miners' boarding house, or, perhaps, stops at Mrs. Baumgarten's place"—no town to hint about the state or county of the mining camp. "Please deliver as soon as possible" some such letters are marked and seem often to have been plastered with an extra stamp in the hope of inducing the carrier to give the matter his earliest attention.—Cincin- nati Enquirer.

One of the greatest blessings she can give him is health, but to do this, she must have health her- self. She should use every means to improve her physical condition. Mother's Friend.

It will take her through the crisis easily and quickly. It is a liniment which gives strength and vigor to the muscles. Common sense will show you that the stronger the muscles are, which bear the strain, the less pain there will be. A woman living in Fort Wayne, Ind., says: "Mother's Friend did wonders for me. Praise God for your liniment." Read this from Hunei, Cal. "Mother's Friend is a blessing to all women who undergo nature's ordeal of childbirth." Get Mother's Friend at the drug store. 51 per bottle.
