The weather has been threatening for a week or more but not until yesterday afternoon did it get down to business thoroughly. Then it snowed and the "beautiful" covered the ground to a depth of about half a foot. Fortunately there was no wind and the snow lays on a level. It gives a disagreeably wintry aspect to the landscape that is not appreciated by those who have been watching for the buds to burst and the grass to shoot but it will undoubtedly be of great benefit in placing the ground in nice condition for spring work and starting the crops that have been planted to growing. The trains have not been delayed to any great extent and traffic will not be greatly impeded if the wind does not rise and blow the material into drifts. A few sleighs have been out, the occupants enjoying the best of the season.

 GOSHEN, Ill. Genesse Pure Food Co. Le Roy, N. Y.: Dear Sirs—Some days since a package of your Grain-O preparation was left at my office. I took it home and gave it a trial, and I have to say I was very much pleased with it as a substitute for coffee. We have always used the best Java and Mocha in our family, but I am free to say I like the Grain-O as well as the best coffee I ever drank.

This is all fools' day and the practical jokers, both young and old, have been laying for the unwary victim in more than one instance and many have been made to feel foolish by the successful working of some trick, more or less ridiculous.

Kuhn, for the last five years general agent of the Chicago & Northwestern in Omaha, has been chosen to fill the vacancy caused by the resignation of Mr. Morehouse. It is probable that H. C. Cheney, general agent of the Northwestern at Sioux City will be promoted to Mr. Kuhn's old position.

Dr. C. F. W. Marquardt, the ophthalmologist, has today commenced in THE NEWS the publication of a series of articles on the eye that cannot but be of value to the reader. They contain information regarding an important organ that all should know. Do not pass them by on the theory that they are mere advertisements. They are not. They contain the most recent information obtained by one who has spent years in acquiring knowledge that he gives freely. An article from the doctor's pen will appear each day for some time.

L. Buckendorf, who owns the green house on Madison avenue, between Fourth and Fifth streets, is deserving of a liberal patronage on the part of those desiring cut flowers, potted plants, vegetable plants, or anything in that line. He has been at a large expense and put in a great deal of hard work in fixing up to supply the demands of the city. It is one of those home industries which should be patronized. Potted plants and vegetable plants are grown by him, while he takes orders for cut flowers and procures them as reasonable as anyone.

An Extract from Her Letter: "If you could only be here this winter morning and see for yourself you would no longer doubt me. Roses are blooming in our front yard and all nature is as far advanced in this lovely American summerland as it will be in your cold eastern home by June."

"We made the journey from Missouri river to the Golden Gate on the Union Pacific to avoid the circuitous routes—an important item in the winter. A trip to California is made delightful by the perfect service and luxurious accommodation of The Overland Limited, which is perhaps the most finely equipped train in the world."

Detailed information furnished on application. F. W. JUNEMAN, Agent.

Mr. and Mrs. R. W. Williams have issued invitations to the wedding of their adopted daughter, Miss Minnie Stepler, who will be married to Paul Edward Lang, Wednesday evening, April 10, at 8 o'clock. Mr. Lang is from Rocky Ford, Colorado.

The weather today has accorded very well with those that have passed for a week or more. Cloudy and chilly, with a generous supply of sticky mud under foot are the characteristics and it is unnecessary to remark that there is little pleasure in being out of doors. A slight snow fall last night that has melted rapidly today gives the mud an increased durability.

The social given last evening in the parlors of the First Congregational church was quite well attended, when the disagreeable weather is taken into consideration. The ladies society, under whose auspices the entertainment was given, cleared about \$15 and the committee having it in charge is accorded a great deal of credit for the successful manner in which it was conducted.

In spite of the obstacles presented by the weather, considerable spring moving is being done. Among those who are changing residences is D. Rees, who is moving from the M. C. Walker house to his home on West Norfolk avenue. W. H. Sheer will occupy the Walker house, moving from a residence in The Heights, on South Tenth street. I. J. Johnson who has lived in the Rees home will move into the house being vacated by Mr. Sheer and family.

Owen Bros., the Norfolk railroad contractors, have taken contracts for work that will keep them busy this summer and at which they will employ a small army of men. H. E. Owen has returned from Chicago, where he and his brother, D. M., received two extensive contracts for railroad work, one at St. Paul, Minn., and the other at Red Oak, Iowa. The firm will move their grading outfits on the work as soon as possible, as they will be crowded for time in which to complete the large amount of work the contracts call for. They expect to work 400 men and many teams during the season or until the contracts are completed.

Not for many years has Norfolk experienced as quiet an election and one in which less interest was taken than the municipal election held today. The weather may have contributed to the effect, but certain it is that a very light vote has been polled and but little effort

was made to get the voters out. The candidates and their friends have been doing some work in the interest of their respective tickets, but the apathy of the general public is very noticeable. It looks as though there would be scarcely half the number of votes polled today that there was during the election of a year ago when keen interest was taken and a large vote polled, the vote on mayor being 437 for Robertson and 416 for Westervelt. The condition that prevails today may be realized when it is known that it has required an effort to provide election boards. In the Third ward no board was secured until a late hour in the forenoon. In the First ward no republican could be induced to serve and consequently the democrats were in supreme control. In the other wards the same lack of enthusiasm was shown and for a time it appeared that the election was almost going by default. The weather has been disagreeable enough to presage a democratic victory and this will probably be the result unless the republicans bestir themselves during the remaining hours. The polls will be kept open until 7 o'clock.

CEMETERY ASSOCIATION.

Officers and Trustees Chosen and Improvements Planned.

The regular annual meeting of the Prospect Hill cemetery association was held yesterday afternoon in the undertaking rooms of Sessions & Bell.

Col. S. S. Cotton, I. G. Westervelt, W. J. Gow, L. Sessions, C. B. Durland, Mrs. I. Powers, and Mrs. N. A. Rainbolt were chosen as trustees for one year. L. M. Gaylord was re-elected secretary. L. Sessions was re-elected to the position of treasurer.

Col. Cotton was elected president by the board of directors and he appointed as committee on grounds L. Sessions, C. B. Durland, W. J. Gow, Mrs. Powers and Mrs. Rainbolt.

This committee was instructed to have erected a suitable tool house and office, and money was appropriated for its construction.

The question of completing a plat book of the grounds was considered. This is deemed an important matter, as there are so many unmarked graves that in the course of years it would be impossible to locate them. L. Sessions and T. J. Harter are well informed on the matter, but a permanent record of interments is considered essential, so that in the future people may be able to tell where friends or relatives are buried. The record should be made while Mr. Sessions and Mr. Harter can give it attention, for otherwise the knowledge would in time be lost.

Newman Grove Herald: Word has been received that Carl Swanson, who was recently adjudged insane and taken to the hospital at Norfolk, is improving and if the improvement continues he will soon be able to return home. Pete Swanson, who has been receiving treatment in an Omaha hospital came home last week for a visit and returned on Monday. He is also much improved in health.

Pierce Call: The NORFOLK NEWS still persists in giving Miss Mixer's residence at Ponca, Nebr. Pierce takes exception, as Miss Mixer has been the very efficient instructor of the primary department of the Pierce public schools for several years past. She is second to none in primary and kindergarten work and we have reason to complain when THE NEWS honors some other town with her residence.

Scribner News: At least one real honest young man lives between Scribner and West Point. A year ago last Christmas he bought a bill of goods at one of the stores in Scribner. Yesterday was the first time he had been in town since and the first thing he did was to go to the store where he purchased the goods and state that in making change he had received a dollar too much. He not only offered to return the principal, but the interest on the same as well.

The special evangelistic mission at the Baptist church will commence again this evening at 7:30. Rev. J. B. Daly of Colorado will preach every evening except Saturday. Mrs. Daly will sing. Rev. Mr. Daly has had great success as an evangelist for the past few years in Kansas and Colorado. He is a man of strong religious convictions and knows how to express them. Do not fail to hear him. It is expected that he will be here for two weeks. An interesting and helpful series of bible readings on the office and work of the Holy Spirit will be given in the church in the afternoons at 3 o'clock. A cordial invitation is given to all to attend all these services. There will be special services on Sunday. The ordinance of baptism will be administered at the Friday evening service.

Madison Star: Sidney Robertson, son of Hon. W. M. Robertson of Norfolk is appearing in the district court this week as one of the attorneys for Gilt Wright. Sid, as he is best known in our city, has many warm friends here who will keep an eager eye on him as he climbs the ladder of fame in his chosen profession. That he will make a "number one" lawyer is admitted by all who heard him on last Monday, when he was examining the jurors in the State vs. Wright case. He has all the characteristics of his father, who is one of the best criminal lawyers in the state. Sidney put the questions to the jury in a clear and distinct manner, and had the writer not known the young man from childhood we certainly would have been forced to the conclusion that he was an old time practitioner. This was his first jury case since his admission to the bar. We predict for him a brilliant future.

Howard Perkins was the victim of a surprise party last Tuesday evening, being overtaken by a number of his schoolmates. A merry time was had until late in the evening, when the greatest regret at leaving was, that Howard would not be with them for some time to come.

Last Tuesday evening's passenger brought to Meadow Grove what to all appearances seemed to be a "hobo." The stranger at once proceeded to the hotel where he asked for supper. Being a trifle crippled, this was not refused him. The actions of the stranger seemed very peculiar and attracted the attention of those in the office. One of the gentlemen present advanced the idea that the fellow was not in his right mind. He was at once tried by an insanity commission, consisting of a professor and a butcher. The commission soon discovered the fact that the poor fellow was cracked, and entirely broke. The town marshal was informed of this and took care of him over night. Apparently not violently insane, he was given his liberty in the morning.
