

CRASH IN WALL STREET.

Panic Sweeps the New York Stock Exchange.

KEENE HOLDS HIS CORNER.

Northern Pacific Bid Up to \$1,000 by the Frantic Shorts, While All Other Stocks Go Down With a Plunge—Banks Offer Money at Low Rate.

New York, May 10.—Bitter stress developed in Wall street by the second hour of trading on the Stock exchange yesterday.

Late in the day the principal banks in the financial district agreed to form a pool and raise a fund to loan the money rate down to 4 per cent on the Stock exchange.

The state of excitement was very apparent all through the financial district during the period of the panic, but there were few sensational scenes.

Now and then a white faced woman would peer from a cab outside a broker's office and would be driven off in a fainting condition after receiving a message from the interior.

In the brokers' offices many men sat who were reduced to absolute ruin as a result of 15 minutes' proceedings on the Stock exchange.

There was a strong feeling before proceedings had commenced on the Stock exchange that a panic could be averted only by the strongest measures.

The fact was apparent that the corner in Northern Pacific was still unbroken.

The first steps to avert the panic were devoted to circulating reports that the conferences between the contending interests in Northern Pacific, which continued in one form or another throughout the night had resulted in a compromise which would free the shorts in that stock from their compromised positions.

The perception of this fact was the principal impelling cause in producing the demoralization in the stock market.

There was no wild scramble for overnight loans of Northern Pacific stock, and the new day seemed to be fair in promise.

The National Association of Store Manufacturers elected these officers: President, Albert N. Parlin of Boston; secretary, J. T. Hogan, Chicago; treasurer, Walter A. Stevenson, Philadelphia.

J. Hill were after all on top in the fight to control Northern Pacific and that the Burlington deal is an accomplished fact stirred the crowd, but the chief concern was for the future of the market.
