### STRIKE AFFECTS UNCLE SAM.

May Block Work on Government Vessels—Department Orders Transports Transferred From San Francisco to Bremerton Navy Yard.

Washington, May 22.—Both the navy and war departments are apprehensive as to the effects of the machinists' strike on government work now in progress. The navy department received word that the strike had spread to large private yards on the Pacific coast, where a number of warships are under construction and it is expected that eastern yards having naval ships to build, also will be affected. The war department was informed that the strike was likely to stop work on the two naval transports, Egbert and Rosecrans, now repairing on the Pacific coast. Secretary Root asked the navy department to assist in forwarding the work pending the tieup and Acting Secretary Hackett of the navy ordered that the two army transports be taken to the navy yard at Bremerton, on Puget sound, for the completion of their repairs.

President O'Connell said that the advice received at headquarters indicated that an early settlement of the trouble between the machinists and employes will be effected. Information at hand showed that during the day over 120 firms had settled by granting the nine hour day.

Mr. O'Connell said that so far as he knew about 7,000 men are out in San Francisco and about 3,000 in Cincinnati. In Chicago nearly all the important shops have settled with the men. The reports from the south show that all through that section settlements are being effected. Half the firms in Philadelphia, he said, have come to terms and the others are expected to follow suit. There has been no news of a clash anywhere.

No men were admitted to witness the games, except the faculty. The girls wore blue blouses and bloomers and black stockings. Two college records were broken. At Its Conclusion Assembly Gives Vent to Burst of Patriotic Enthusiasm—Congress Urged to Act Against Polygamy.

Philadelphia, May 22.—The commissioners to the Presbyterian general assembly yesterday gave vent to a spontaneous burst of patriotic enthusiasm, which found voice in the hearty rendition of a national anthem. It was a fitting conclusion to a masterly address delivered by Rev. Dr. Charles O. Thompson, secretary of the home mission board.

The report of the committee on home missions had been read and Dr. Thompson arose to make the usual appeal for aid, which developed into an oration and aroused the assembly to the highest pitch of enthusiasm. A statement in the committee's report that over 3,000 churches failed to give directly to the home mission board aroused the ire of the commissioners representing self-supporting synods and presbyteries, and after a brief but lively debate, the objectionable paragraph was eliminated. Rev. Dr. Hugh K. Walker, chairman of the committee, in discussing the report, declared that unless the church supported its home missions the home missions would fail. The report urged congress to act on the anti-polygamy amendment to the constitution before the Mormons secure the balance of political power in any additional states.

The train was struck by a wall of water 14 feet high and carried down with the bridge. The passengers, 18 in number, succeeded in reaching places of safety on the tops of the cars. The flood was caused by a cloudburst in the Sierra Mojada mountains.

## WITHDRAW THEIR REPORT.

Gomez and Silva Substitute the Old Majority Report.

### REVIVE FORMER OBJECTIONS.

Sanguily Reminds Delegates That United States Government Has Been Fair and Honorable and Promises What Island Needs.

Havana, May 22.—At yesterday's session of the Cuban constitutional convention, Gomez and Silva withdrew the minority report of the committee on relations and substituted for it the old majority report of the committee, which was drawn up before the commission went to Washington, and was signed by Gomez, Silva and Villuendas, but which was never acted upon by the convention, because it was a rejection of the Platt amendment. This action of Gomez is attributed to the bitter attack made upon him by the radicals for having accepted portions of the Platt amendment. Villuendas asked that his name be stricken off the old report, thus making it the report of the minority and declared that he now favored the majority report now before the convention.

Sanguily made a bitter attack on Gomez and the radicals, asserting that the United States had always been fair and honorable in their dealings with Cuba, that the policy of the Washington government was to establish the republic and that the concessions asked by the United States were necessary to maintain the republic. He spoke for nearly two hours. The convention adjourned without coming to a vote.

### ALLEN MAKES FIRST REPORT.

Governor Advocates a Colonial System for Porto Rico.

Washington, May 22.—Governor Charles H. Allen of Porto Rico has presented to the president his first annual report. The governor expresses the opinion that a scheme of colonial administration, such as is found in the Danish, French and English West Indies might be safely instituted, with variations dependent upon the future policy of the home government. The governor refers to the many suggestions offered that the form of territorial government adopted in the United States be applied to Porto Rico, but points out that a standard form of such government, while useful in the United States, would not apply successfully to this island possession. The governor speaks plainly in presenting the reason why this island has been at a practical standstill for nearly four centuries and says that in a climate where a man can lie in a hammock, pick a banana with one hand and dig a sweet potato with one foot, the incentive to idleness is easy to yield to and brings its inevitable consequences.

In conclusion Governor Allen urged the introduction of fresh blood and Anglo-Saxon push and energy as the means of lifting the little island out of its lethargy and by thrift and industry, develop its riches to their full measure.
