Actor and Manager Thought to Kill Himself Too, but His Nerve Fails Him at Last Moment—Had Quarrel With His Sweetheart.

Chicago, June 4.—Edward Forshay of Kansas City, an actor and assistant manager of theatrical companies, last night shot and killed Miss Edna Stokes, an actress, whose home is at Sedalia, Mo., and with whom he was deeply in love.

Forshay evidently intended to take his life after killing the woman, for upon his person when he was arrested were letters bidding farewell to his mother and another to the chief of police.

The couple were engaged in a desperate quarrel three days ago, and Forshay is said to have beaten the actress badly, cutting her head in two places. Miss Stokes gave orders to the proprietor of the Vernon hotel, at which she was stopping, that Forshay should not be admitted to her presence, and although he called twice during the early part of the evening he was compelled to leave by the attendants.

When taken to the police station, Forshay said he intended to kill himself, as he could not live without Miss Stokes' love, but his nerve failed him at the last moment.

Hudson Maxim Sells Secret of His Invention to the United States.

New York, June 4.—The Press says: Maximite, the new explosive invented by Hudson Maxim, has been adopted by this country after a series of successful tests at the Sandy Hook proving grounds. The secret of the explosive has been sold to the government by the inventor and the explosive, it is thought, may revolutionize warfare. It is said to be more deadly in its character than lyddite, yet so safely can it be handled that the danger attaching to its use is less than that incurred in transporting ordinary black powder.

In an interview, Mr. Maxim said: "Should the United States become involved in war with any other power we will be able to throw high explosive projectiles through the thickest armor of our enemies to explode inside their warships, while they in turn would be able only to penetrate our armor with solid shot."

He thought the moral of these new developments is that the ponderous battleship must go and be replaced by the small, swift torpedo boats or torpedo gunboats, and cruiser.

DISCUSS CHURCH EXTENSION.

Annual Report of Board and of Secretary Read and Adopted.

Des Moines, June 4.—Yesterday was church extension day in the general synod of the Evangelical Lutheran church. The annual report was read by Rev. H. H. Weber of York, Pa., and was adopted. The report of the statistical secretary was read and adopted.

The discussion of the foreign mission situation, with plans to change the field of work from the African coast to the interior, is set as special business for this afternoon. The main business of the synod deals with this question, factions being formed and divided on the administration of the post, one faction claiming a favoritism and partiality of the foreign mission board in the past, asserting that unless a change is had at once the church will be shaken to its foundation and that serious trouble is imminent. The election of Dr. Freas as president, however, shows the old administration has a majority of the synod and no change may be made.
