Immediately after the opening of the session Senors Tamio, Valluendas and Quesada, constituting a majority of the committee on relations, submitted as a substitute for the committee's former report the Platt amendment as passed by congress, recommending that it be accepted and made an appendix to the constitution.

Senors Rivera, Correoso, Gener and Robau were absent.

The latter two voted against acceptance in the previous division. Senor Ferrer voted with the conservatives, explaining his change of attitude by asserting that he believed acceptance would be the best solution of the prob-

ACTION PLEASES WASHINGTON. Evacuation of American Troops Will Follow Soon.

Washington, June 13.-The news of the adoption of the Platt amendment by the Cuban constitutional convention was received with genuine gratification here. The administration officials all along have felt confident that its ratification would be accomplished when the Cubans realized that this government was firm in its attitude regarding the amendment and that its acceptance would be necessary before the United States would consent to withdraw its supervision from the island. Now that the Cubans have demonstrated their good faith in the United States, it is expected that a fairly speedy evacuation of the island will follow, contingent only upon the establishment of a stable government in the island. Just to what extent the United States will require practical evidence of this fact is not definitely known, but the officials here think that such steps should be taken by the Cubans as will demonstrate their ability to maintain order and peace, so that the interests of all the people, native and foreign, shall be adequately protected. An effective police force and other measures necessary to the preservation of good order and sanitation are deemed as essential prerequisites in

One cabinet officer, speaking of the matter, expressed the opinion that if the other requirements are met our withdrawal might be accomplished during the summer and that Cuban independence might be a reality by next autumn.

New Pan-American Trains.

St. Louis, June 13.-The Wabash road announces two new trains to the Buffalo exposition, one from Chicago to Buffalo, and one from St. Louis to the same terminus. This service will commence June 15 and continue until the end of the exposition. The trains will be known as the Pan-American Limited. One will leave Chicago daily at 9:10 a. m., reaching Buffalo at 11:45 the next morning. The other will leave St. Louis at 1:05 p. m., reaching its destination at 8:20 in the morning. This service is in addition to the regular trains, none of which will be discontinued. Paper Carpets In Korea,

"Carpets in Korea are not of as little moment as are carpets here. They are handed down in families as heirlooms from generation to generation to become darkened and subdued with age. They are rugs always and are made of paper by a peculiar process. In appearance they are much like the lacquered boxes which come from Japan and which are so much used as handkerchief boxes," said the old time American consul in Korea. "The natives always take off their sandals when they enter the house, and that fact accounts largely for the long life of the rugs. When I was there, however, I shocked the feelings of every southwest and traveled very fast to one by wearing my shoes, carpets or no carpets, and during my stay I completely wore out some of those beauttful dark colored carpets. They are about a quarter of an inch in thickness and very effective."
