

WRECK ON THE WABASH.

Westbound Passenger Plunges Through Trestle in Indiana.

FIFTEEN ARE REPORTED KILLED.

Dozen Passengers and Engine Crew Meet Death in Catastrophe Near Peru—Disaster Due to a Washout, Three Coaches Overturned.

Peru, Ind., June 26.—West-bound passenger train No. 3 on the Wabash railroad ran into a washout at Case, 15 miles west of here, at 12:30 o'clock this morning, wrecking the engine and five cars. It is reported 15 persons were killed.

The train is due at Peru at 10:55, but left here one hour late, in charge of Conductor Brownley.

The train was running at high speed to make up lost time and at Case, a switch five miles east of Logansport, plunged through a trestle that had been swept away by a washout. The engine was totally demolished and the three passenger coaches and two baggage cars were derailed and overturned.

Every surgeon in Peru was summoned and the relief party left here at midnight for the scene. Details are meager, but it is rumored Engineer Butler and Fireman Adams and at least a dozen passengers were killed and many more injured.

Mrs. Howard of Waco, Tex., en route home from a St. Louis hospital on a cot, was badly bruised and seriously injured. Postal Clerks W. E. Seybold, M. E. Simms and Butler Campfield were injured, but not seriously. The tender, two baggage coaches and one mail coach were turned over and smashed into kindling wood and scrap iron. None of the passengers, except Mrs. Howard, was hurt, but many were thrown from their berths and chairs with great violence.

Leipzig Bank Failure.

Berlin, June 26.—The crash of the Leipziger bank was a complete surprise to the Berlin bourse, where yesterday the bank shares were quoted at 140. This failure now turns out to be worse than at first reported. All well informed Berlin financiers infer that the Leipziger bank will save little if anything out of the wreck, and that the failure of the institution will seriously affect a number of other banks.

BOLT STARTS COSTLY BLAZE.

College of Physicians and Surgeons, Chicago, Destroyed.

Chicago, June 26.—During a heavy thunder storm last night a bolt of lightning struck the College of Physicians and Surgeons, on Harrison street. The fire which followed the lightning in a short time destroyed the college building, which was one of the finest of its kind in the west. Loss, \$200,000.

The lightning struck the college squarely on the top of a rising projection in the front part of the roof, and such a tremendous crash of thunder accompanied the flash that all people in the neighborhood thought that an explosion had taken place in the college. Almost before the first fire engines had arrived the flames had spread all through the five stories of the building. Adjoining the college is the smaller building of the West Side hospital, which was filled with patients, about 100 being in the various wards. As soon as it was seen that the college could not be saved, and that its walls were liable to fall at any time, the work of removing the patients from the hospital began. The rain was pouring down heavily at the time, but, fortunately, there are so many hospitals and medical institutions that it was necessary to remove the patients only a short distance, most of them being taken to the County hospital, one square away.

The firemen and the attendants at the hospital did most of the moving, carrying the invalids on beds, cots, stretchers or whatever came to hand. None of the hospital patients were injured.

AIM BLOW AT RAILROADS.

Merchants Will Ask Congress to Force Uniform Classification.

Chicago, June 26.—The Tribune says: Prominent western merchants, all heavy shippers of merchandise, are preparing to call to account before the interstate commerce commission the heads of the various railroad combinations and the "community of interests" alliances of the trunk lines of the country. Charges are made that, following these movements of consolidation, freight rates have been advanced from 30 to 50 per cent through quiet and organized manipulation of the various classifications of commodities. Merchandise formerly in class 4 has been placed under class 2, with a consequent increase of 30 per cent in shipment charges, and so on through the voluminous tabulated classifications of all commodities.

Behind the movement to attack this scheme of freight advances by applying to the interstate commerce commission for relief lies the plan for a still more vigorous blow. The complainants intend to press a demand that congress shall take a hand in forcing the formation of a uniform classification of freight, which shall be effective on every railroad in the United States.

TO GO BACK REINFORCED.

United States Marshal Will Try It Again at Thacker.

Thacker, W. Va., June 26.—The United States deputy marshals who were fired on here while endeavoring to serve notice of injunction on striking miners, left for Charleston, having received orders from United States Marshal Thompson to come there at once. It is supposed they will be reinforced and returned, and that state militia may be sent.

While the United States marshals were in the station here waiting for the train, probably 50 shots were fired into the depot by strikers who had gathered on the Kentucky side of the river. At Marquette yesterday a small force of nonunion men are at work. Aside from this, every operation in the field is idle.

BRITISH CASUALTY LISTS.

Evidence of Severe Fighting in Various Parts of South Africa.

London, June 26.—The casualty lists made public by the war department continue to show rather severe fighting in various parts of South Africa that are not reported in the ordinary dispatches. This is noticeably so with regard to the Zeerust position in Cape Colony. It also inspires disquietude, which is added to by the reported looting of Jamestown, in spite of the proximity of a strong British force at Allwal North. It appears that including the Boer prisoners and those in the concentration camps, the cost of supporting some 80,000 Boers is today falling upon the British taxpayers.

DEATH LOSS NOT OVER 50.

Later Estimates of Flood Victims Not So Fearful.

PROPERTY LOSS IS VERY HEAVY.

Newspaper Correspondents Collect Facts Regarding the Storm in West Virginia and Describe the Scenes in the Devastated District.

Bluefield, W. Va., June 26.—The situation in the Elkhorn valley is greatly improved today, although it marked the first time that reporters were able to get into the area of the flood districts. Many newspaper correspondents went into the center of the devastated districts and it was evident that the facts were not exaggerated so far as property loss is concerned. From Ennis down, the loss was the worst. Cars were wrenched to pieces and piled up in ruins. The track for several hundred yards was washed away, houses wrecked and many demolished and many coke ovens were ruined. At Powhatan the railroad suffered greatly.

At North Fork Junction the double steel bridge was washed away and the 60-pound rails of both tracks were snapped like threads. Thousands of tons of driftwood, remnants of houses, logs and trees were piled up. Many of those drowned on the North Fork are supposed to be buried in the debris. The iron bridge between North Fork and Keystone was undermined and the rails bent like hairpins. Five bodies lay with the coffin lids washed away and exposed to the gaze of the curious at this point. They had been buried on the river bank, but were washed out.

The loss of life, it is now conservatively estimated, will not exceed 50. Keystone, a town of 2,000 inhabitants, was torn to pieces. Thirty buildings were deluged and greatly damaged. The contents of many other houses were seriously damaged. The railroad bed was washed out to a depth of 25 feet. The loss at Keystone was immense. The huge drift west of the town cannot be described. It had a house with a tree driven into the door on its top. Many dead bodies are supposed to be confined in this immense pile of debris.

At Shawnee, where the beautiful homes of the officers of the Shawnee Coal company were located, with their splendid lawns and tennis courts, the river is now running. Vivian Yard is a complete wreck.

Between Welch and Vivian all the bridges are damaged and several of the most important are gone.

Superintendent J. B. Connors of the Scott division, with a large force of men, is working at the extreme west end of the flooded district and has the track clear as far east as Prather. Trainmaster Johnson, also of the Scott division, has a large force of men at work on this line. The passenger train which was overtaken by the flood at Vivian, from which so many passengers made miraculous escapes, has been reached by the rescuing party and will be brought to this city today.

The Clinch valley division is open and the first passenger train arrived at 7 p. m. yesterday. Trains brought stories of damaged crops, destroyed homes and loss of life. The drowned on this division will not amount to over 15, former reports being verified.

NASH AND NIPPERT HEAD TICKET

Ohio Republican Convention Beats the Record for Fast Time.

Columbus, O., June 26.—The Republican state convention here yesterday broke the Ohio record by completing its work in three hours. The intense heat was prostrating and Chairman Hanna not only cut short his own speech, but also those of others and then dispatched business with the utmost speed.

In those three hours the convention nominated a full state ticket, adopted its declaration of principles, endorsed J. B. Foraker as the Republican candidate for re-election as United States senator, completed the party organization for the campaign and transacted other business.

Of the seven nominations, only three were new men, and one of these, Nippert, for lieutenant governor, was nominated without opposition, after Lieutenant Governor Caldwell had declined renomination. Nash, Sheets, Cameron and Johnston were re-nominated for second terms without opposition. There were free for all contests for the nominations for supreme judge and clerk of the supreme court. The vote showed that J. L. Price and Lawson E. Emerson had formed a combination that worked successfully for both of them. Judge Price of Lima has been on the common pleas and circuit court benches and Emerson has been prominent in politics in eastern Ohio for many years.

FUNERAL OF ADELBERT HAY.

Body is Laid to Rest in Lakeview Cemetery, Cleveland.

Accompanying the remains were the parents of the deceased.

The casket rested on a white marble catafalque in the center of the new mortuary chapel in Lakeview cemetery. It was covered with a profusion of flowers. A magnificent wreath of roses was the gift of the state department at Washington. The classmates of the deceased at Yale were the honorary pallbearers.

Secretary and Mrs. Hay showed evidence of the great sorrow they felt and Mrs. Hay was so nearly prostrated that her husband had to assist her nearly all the time.

HELD FOR CATTLE STEALING.

Old Resident of Keya Paha County Charged With Rustling.

Springview, Neb., June 26.—Joseph Bingham, an old resident of Keya Paha county, had a preliminary hearing yesterday before County Judge Estes, on a charge of cattle stealing, and was bound over to the district court in the sum of \$1,500. The defendant offered no testimony in his own behalf. It is assumed by stockmen that there is a strong organization of stock thieves along the Keya Paha river and that Bingham and many other prominent people are connected with it. The talk is that some of the United States deputy marshals may be connected with the organization and the stock associations of this part of the cattle country propose to have the matter thoroughly investigated.

BAGGAGE FOR BUFFALO.

How to Take the Necessary Precautions as to Marking and Checking.

Buffalo, June 27.—In view of the steadily increasing attendance at the Pan-American exposition, the increase being now attributed to the arrival of people from distant points, the management has requested the publication of the following information for the benefit of visitors. It is safe to say that if the instructions are followed the exposition visitor will not experience the humiliation of being without baggage and "fresh clothes" at a moment when such are absolutely necessary to their peace of mind and personal appearance. The suggestions are: All baggage should be plainly marked with the owner's name in full and permanent or home address. Avoid checking satchels and hand baggage when possible. Identify and have your baggage checked in your presence at starting point to avoid errors. Do not leave that to a hackman or "obliging friend." Keep memorandum of check numbers and full lettering on the checks. Do not exchange your checks for those of hackmen unless you get checks in exchange and then take memorandum of hackman's number and lettering of badge. Check baggage to "Buffalo" and not to exposition grounds—no baggage facilities there. To avoid extra charges call for baggage and remove it upon arrival of same. Always have a check for your baggage when it is not in your possession.

UNFRIENDLY TO NEW YORK PLAN

Kansas Not in Pressing Need of Unemployed Labor.

Kansas City, June 27.—The proposal of a New York alderman to send 5,000 men and women from that city to help harvest Kansas wheat is not well received. Governor Stanley of Kansas said:

"We are in no pressing need of unemployed labor in Kansas. Recently we have called upon adjacent states for help in the harvest fields, but that work is about over now and I know of no reason why we should encourage New York city to dump a job lot of unemployed and moneyless men and women upon us. We invite immigration, but it's thrifty, helpful people that we want."

E. B. Howard, superintendent of the free labor bureau of Kansas City, is equally unfriendly to the New York idea, but says: "If they would send 2,000 or 3,000 young women for servant girls, that would be a different proposition. We need servant girls, but have no use for more men. They can send servant girls, but no others need apply."

The automobile numbered one went to the front and assumed its racing speed and disappeared. Two minutes later automobile No. 2 was started in the same manner. Arrangements had been made that automobiles leave at two minutes intervals.
