

SATURDAY SIFTINGS.

W. H. Butterfield has returned from Creighton. Carl T. Sealey of Madison was in Norfolk yesterday. T. H. Brenton of Neligh had business in Norfolk yesterday. Frank Twiss went to Wayne today to visit friends over Sunday. Norman and Della Ocksen of Madison were Norfolk visitors yesterday. Miss Edith Estabrook will leave tonight for Starnut to visit friends. Mrs. Warner and daughter of O'Neill were shopping in the city today. Miss Nettie Lowe left this morning for Coleridge to visit Miss Pearl Kethlege. Alexander Morrison is home from Sibley, Iowa, for a few days' visit with his family. Miss Mattie Davenport went to Madison last evening to visit her sister, Mrs. Arthur Pilger. Mr. and Mrs. P. J. Fuesler and Mr. and Mrs. J. H. Sanford each welcomed baby boys to their homes yesterday. The plasterers are here to finish up the interior of the Stortz block on which nothing has been done since the roof was laid last week. Prospects are said to be excellent for a magnificent hay crop this season. Hay is one of the crops that cannot be ruined by too much water. The harvest of the wheat crop at Wymore has begun, the weather there being ideal for ripening and the yield promises to be large. Mr. and Mrs. S. Euel Dunham of Oneida, Iowa, are visitors at the home of E. B. Kenyon. Mrs. Dunham is a sister of Mr. Kenyon. The roof over Vail's jewelry store has received some needed repairs to keep out the copious showers that prevail in this part of the country. The beautiful mud holes along the outer edge of the Main street sidewalks speak eloquently for a curb or some efficient sort of drainage. Melvin Mayer very pleasantly entertained a number of his young friends last evening at the home of his parents, Mr. and Mrs. Morris Mayer. The Gentry trained animal show, that has proven so popular in other parts of the state and country, is billed to appear in Norfolk on Saturday, July 6. I. Newman, clerk in the Star clothing store has been summoned to Chicago by a telegram announcing the death of his father. He departed for that city yesterday noon. Meadow Grove is counting on a new steam merry-go-round for the reunion on July 2, 3 and 4 and the music for its bowery dance will be furnished by the Italian orchestra of Omaha. The frog and weed crops seem to be doing mighty well and a large yield is promised. If people can't raise corn to fatten hogs for pigs' feet they can have frogs' legs. There is always something to eat in Nebraska. It is stated that enough hail fell in the Berry and Low neighborhood north of Battle Creek during yesterday's storm to do a large amount of damage to crops. Hail stones by the wagon load could have been scooped up after the storm. Charles Oelslagle, jr., of Tilden was the victim of a shotgun accident Wednesday morning. He had leaned the gun against a building and as he started toward the house it fell and he was discharged, the load of No. 6 shot entering his ankle. Amputation of the limb may be necessary. The Catholics of Madison are making an effort to establish a parochial school and erect a new church edifice. The new church will cost about \$5000 and the old building will be converted to school purposes. The parishioners pledged \$1750 to the proposed improvement at a meeting held last Sunday. Hight Bros. have closed a contract with the Brunswick-Balke company of Omaha to put in a three-track bowling alley in the room next to Loder's saloon, soon to be vacated by Hoffman & Smith. The tracks will be of regulation length with a 15-foot run and will be completed about the last of July or the first of August. The cattle barn of August Haase, who lives three miles northwest of the city, was struck by lightning during the storm of Monday and two of his cows were killed. All cattle were in the barn and it is considered fortunate that but the two were killed. Another fortunate fact is that the barn was not set on fire and burned. Battle Creek Republican: David Whittle has purchased the Preece property, west of Dr. Daniel's place. A house and three lots constitute the purchase. Mr. Whittle will take possession about July 1, and he will either build a large addition to the house as it now stands or will remove it entirely and build a fine new house in its place. Battle Creek Enterprise: Charles Fenske believes that the cow is the salvation of the farmer. From twenty-five cows he sold during the month of May \$100 worth of cream, besides supplying his family with the lactical fluid. He uses a separator, thus doing away with the trouble of hauling milk from the creamery separators. Mr. Fenske believes that what he has done can be done

by any farmer and is surprised that a greater interest is not taken in the dairy business. Little things at times show up a man's character to a finish. One fellow, whose barn stands on the gulch, was seen to pitch his barnyard into the current during the recent freshet, where it would wash down upon other men's property, in order to save hauling it away, and after the storm a man on the street had the nerve to ask, "Is this wet enough for you?" Mrs. Ed Jones of the Willow neighborhood, Antelope county, has been adjudged insane and is now an inmate of the hospital here. Her insanity is supposed to be the result of an injury received some time ago, though there was insanity in her family. Mr. Jones' neighbors indicated their sympathy for him in his affliction by appearing in his cornfield with 18 teams and laying the weeds low. Rev. Franklin Baker, pastor of the Second Congregational church, will leave for New York City Monday noon and will sail from that port Saturday afternoon on the Steamship Minnehaha for Europe. His trip will include a visit to England, France, Germany, Switzerland and Italy and will require about three months' time. He expects to return to Norfolk about the middle of September. Another of those daily showers this morning added to the accumulation of surface water in this vicinity; also added to the anxiety of the farmers who see the weeds taking their crops and are unable to cultivate. Although the rain gauge at Dr. Salter's recorded but 15 of an inch precipitation, the fall must have been much heavier in the hills drained by Poverty Run, as it was filled to the brim about 9:30 and overflowed in several places. Three more persons, implicated in the disturbance of a religious meeting in the Walker settlement, southeast of the city, were arrested Thursday and taken before County Judge Vining at Stanton, where they pleaded guilty and were fined \$20 each and costs. The disturbance took place last Sunday night at the Duffy school house when the Christian Endeavor society was in session, and with this last haul, seven persons have been punished for the offense. Rev. L. W. Scudder of Shelton is to become a Norfolk citizen after July 1 and will reside in one of the Bishop houses on North Eleventh street. He comes as pastor of the Presbyterian church, taking charge of the work of that denomination here and at Winside, and regular services will be held after that date. Tomorrow morning at 11 a. m. Rev. Mr. Scudder will preach in the G. A. R. hall and in the afternoon at Winside. There will be no preaching on the 30th. The Piano headquarters are now nicely located in the building formerly used for a planing mill by T. W. Wheaton. The office in the northwest corner of the large room is nicely fitted up with telephones, electric lights and other modern conveniences, the rooms being finished in oiled hard pine and papered. A sleeping room for the machine expert occupies the northeast corner and the main room of the building will be used for storing and setting up machines, the storage of binder twine, repairs and for the other uses of the business. It is a convenient arrangement and Manager Blakeman and his office force are well pleased with the new quarters. Newman Grove Herald: Iver Bygland returned home last Saturday evening from his trip in the Rocky Mountain country. He says he never before appreciated the good Nebraska soil as he does now. The great stretches of alkali land, sage brush and mesquite in Utah and Idaho, he thought, was a very correct representation of desolation. The mountains, too, were disappointing on account of the lack of vegetation as compared with those of Norway; although loftier they lacked the beauty of the tree-covered hills of his native land. He thought Denver was a magnificent city, was delighted with Salt Lake City and the Mormon girls, but is more than ever convinced that Nebraska is the best country that lies outdoors. It was like waking from a bad dream when he again beheld the beautiful Platte valley Saturday morning. Low Rate Excursions to Colorado and Utah. Dates sale: June 18th to 30th. Rate to Denver, Colorado Springs and Pueblo, Glenwood Springs, Ogden and Salt Lake City, one regular first-class normal tariff (not temporarily reduced) fare plus \$2 for the round trip. Final limit: October 31st. Transit limits: To Colorado destinations, continuous passage to Denver; after reaching Denver, stop-over will be allowed on going trip regardless of transit limit; return trip to be continuous passage commencing date of execution, except return trip shall not be begun earlier than five days after date of sale. Utah destinations: Continuous passage to Denver; west thereof stop-over will be permitted in both directions within the going and return transit limits of thirty days each, not to exceed final limit. Tickets will be good for return prior to five days from date of sale. Joint agency fee: A fee of twenty-five cents will be collected from passenger at time of execution and delivery of return portion of ticket, except that no fee will be required for execution of return portion of tickets to Glenwood Springs.

MONDAY MENTION.

Mr. and Mrs. Dan Hines left for Iowa today. Mrs. J. G. Troutman spent Sunday in Grand Island. W. C. Fry was greeting friends in the city yesterday. Harry Barnes was down from Battle Creek Saturday. D. L. Upton of Pierce was a Sunday visitor in Norfolk. S. F. Heitzman of Battle Creek spent Sunday in Norfolk. J. K. Baker was a Sunday guest in Norfolk from Beemer. Mrs. Frank Hirsch was in the city from Stanton Saturday. Mrs. Boeman and son of Tilden were Norfolk visitors yesterday. Bart Mapes and family spent Sunday with friends in Plainview. Mrs. G. H. Main left for Iowa on the noon train to visit relatives. Miss Annie Herman visited with friends in Stanton over Sunday. Ed. Walters of Humphrey visited with Norfolk friends over Sunday. E. H. Luikart of Battle Creek visited at the home of his parents over Sunday. L. L. McKim was over from Sioux City to spend Sunday with his mother. Mr. and Mrs. Van Kirk of Neligh visited with Mr. and Mrs. Coryell over Sunday. C. E. Doughty is arranging to open a plumbing shop in the old steam laundry building. Dennis Sheehan of Rongis, Wyoming, is here visiting his father-in-law, Geo. Williams. Mrs. W. R. Hoffman departed at noon for New Hampshire, expecting to visit until September. The family of W. H. Butterfield returned from their visit to Creighton Saturday evening. The family of W. A. Witzgman of Meadow Grove visited with Mr. and Mrs. G. A. Luikart yesterday. Mrs. Garlinger and Miss Garlinger expect to leave tomorrow for a visit with friends in Iowa and Missouri. Mrs. C. D. Jenkins and daughter, Gladys went to Dorchester Saturday evening for a short visit with friends. Misses Nettie Nenow and Minnie Verges returned yesterday noon from their trip to Hot Springs, South Dakota. Mr. and Mrs. C. F. Shaw and children are preparing to leave tomorrow for Illinois, to visit relatives and friends. Mr. and Mrs. Adolph Mittelstadt returned to their home in Laurel today after a week's visit with Norfolk relatives. Mr. and Mrs. F. W. Juneman visited in Sioux City yesterday with friends of Mrs. Juneman who formerly lived in the east. The mother and sister of J. N. Bundick arrived from Washington, D. C., Saturday night to make their home with him. Mr. Weeks and family of Long Pine are moving into the house on South Fourth street recently vacated by Myron Collamer. Harry Luecke and Martin Raasch, who have been attending school at Watertown, Wis., came home for the summer vacation Saturday night. A son of Rev. Carl Toenje of Fremont was drowned in the Platte river while bathing Friday evening and the body was recovered Saturday afternoon. A. J. Durland is home from Knox county to visit and look after his business interests here until Wednesday, when he will return to that county. H. L. McCormick won the box of cigars offered by Seeler & Daniel for the highest bowling score made in their alley up to 10 o'clock Saturday evening. It is expected that the Hight Bros' bowling alley in the Marquardt block will be opened to the public in two weeks, instead of four, as suggested Saturday. George Richardson and daughter, Alice, of Denver, Col., are guests at the home of W. H. Bridge. Mr. Richardson is a banker, and is a brother-in-law of Mr. Bridge. The warm south wind has almost succeeded in raising a dust and the street sprinkler was out for the first time in several weeks, laying the anticipated rise of real estate. Mrs. J. A. Read and son left yesterday for North Carolina to visit relatives about two months. They will stop a week in Chicago to visit Tom, Roy and John, who are now there. Mrs. J. D. Sturgeon departed last evening for Deadwood and other points in the Black Hills. If she is benefited by the change of climate she will probably remain during the summer. C. E. Doughty left yesterday for Council Bluffs, Iowa, to put one of his furnaces in a house belonging to H. E. Owen of this city. This makes four furnaces he has placed for Mr. Owen during the past eight months. Norfolk dealers have excellent assortments of pyrotechnics, firecrackers and other noisemaking and fire-displaying contrivances and the young boy who hasn't a nicker, nor sees an opportunity of earning one is on the anxious seat. The ball game yesterday between a team from the Junction and one from

the city proper, resulted in a victory for the Junction players by a score of 16 to 2. The game was too one-sided to be highly interesting, but several good plays were made. Mr. and Mrs. Henry Schmode and son of Leavitt, visited L. C. Mittelstadt and his mother over Sunday. Mr. Schmode, who is master mechanic of the sugar factory at Leavitt, returned to his duties today but Mrs. Schmode will visit here several weeks. The number of people in Norfolk Saturday on business would seem to indicate that they no longer had any fear of catching the smallpox, which is perfectly proper. Norfolk is as safe to visit now as any town in the state, the smallpox situation being confined to a few houses. Art Reeves of Tilden got the contract for building the new Catholic church at that place, his bid being \$2,500. The bids ranged from \$2,480 to \$3,600, both of these being made by contractors. Building will begin as soon as the old building is removed from its present site. A telegram from Lusk, Wyoming, asking for music for their Fourth of July celebration has been received in Norfolk and five pieces of Bohner's orchestra will go to that place to play. Lusk is preparing to have the biggest celebration that ever happened in Wyoming. The Norfolk band had been practicing to entertain the people of Creighton and vicinity on the Fourth, but the members have been recently notified that on advice of the board of health the town would not celebrate on account of the smallpox situation. The boys are somewhat disappointed but may yet secure an engagement for the day. Warm weather has begun, the thermometer yesterday indicating a maximum temperature of 90 degrees in the shade. Stirred by a vigorous south wind it is resulting in a quick drying of the wet places and the farmers are making the best of it by ridding their fields of weeds. With a few days of like weather their crops will soon be rid of the weed pest. Wm. Spotted Crow of Pine Ridge agency was in the city Saturday evening enroute home. He is a member of the agency ball team which has been away for a period of four years, engaged in playing the national game. William is a "husky" Indian. His makeup indicates that he is well qualified to "spot" the ball and his name should be changed accordingly. Ferdinand Koch of West Point thinks he has discovered a certain clue to the fire bug who has been responsible for the incendiary practice in that town for the past few months and preparations are in progress to give the fellow a coat of tar and feathers. At the last fire Mr. Koch found a letter that had evidently been dropped by the person responsible for the blaze and recently he has received an anonymous threat on a postal card in the same handwriting. Mr. and Mrs. John Quick left on the 11 o'clock train this morning for Salt Lake City, Utah, where they expect to make their future home and the best wishes of a large number of Norfolk friends accompany them. Saturday evening members of the Degree of Honor and Tribe of Ben Hur lodges surprised them at the Junction and all participants enjoyed the occasion very thoroughly, the one disappointing feature being that it was a farewell to two popular members of the orders represented. A company of 29 Omaha Indian boys and girls were in the city today on their way home from the Genoa school, for their summer vacation. Those belonging to the Winnebago and Pine Ridge agencies will leave for their homes tomorrow. Dressed in their neat uniforms the boys and girls looked and acted very intelligent and could probably give some of their white brothers and sisters pointers on manners, morals and scholarly achievements. They were in charge of one of the officers of the school. Word was received at noon from J. B. Barnes, who is in attendance at the federal court in Omaha, that a decision has been rendered by that court in the case of the several material men and laborers on the Norfolk asylum against the United States Guaranty and Fidelity company. The decision is in favor of the various material men and laborers, who will now get their pay unless the case is carried to the court of appeals. This case has been pending in the federal court for something over three years, it having been commenced about the time of the completion of the wing at the asylum. The Elks had an interesting meeting Saturday night in their hall in the Marquardt block and a number of candidates and visitors from out of town attended the session. The following named candidates were inducted into the mysteries of the order: J. P. Mann, Dr. J. P. Guligan, J. B. Meller and H. H. Snyder of O'Neill; W. H. Green and Fred Hufsmith of Creighton; G. C. Maryott of Pender; John Hoar of West Point; Dr. J. L. McDonald of Atkinson and H. E. Owen of Norfolk. The out of town members present were: H. B. Strong, Pender; Willis McBride, Madison; W. P. Evans, A. F. Biglin and D. H. Cronin of O'Neill.

TUESDAY TOPICS.

George E. Pugh was up from Stanton yesterday. W. D. Mason was a city visitor today from Pierce. W. R. Claybaugh is a Norfolk visitor from Wayne. J. R. Williams of Cornlea was in the Sugar City yesterday. A. H. Allinson was in Meadow Grove today on creamery business. S. M. Mosher of Randolph transacted business in Norfolk yesterday. Thos. Dougherty, was a Norfolk guest yesterday from Newcastle. Dr. Frank Salter went to Verdigre yesterday on professional business. F. D. Case of Meadow Grove was a business visitor to Norfolk yesterday. The delivery wagon of Carl Asmus' grocery is resplendent in a new coat of paint. Dr. P. H. Salter and bride returned at noon from their trip to the east and north. Two carloads of machinery for Stanton's new mill have been received at that place. B. C. Gentle of the Norfolk National Bank has returned from a week's visit with his parents at Creston, Iowa. Mrs. O. R. Eller of Lincoln arrived last night for a five-weeks' visit with her parents, Mr. and Mrs. H. C. Matrau. Miss Gladys Mahaffy of the Johnson Dry Goods company, will leave tonight for a two-weeks' vacation at Ainsworth. Will McCune, who formerly drove the oil wagon here, now has charge of the Standard Oil company's station at Wayne. Dr. G. O. Remy, who at one time made Norfolk his home, has decided to leave Craig and re-locate in Ainsworth where he formerly practiced. The residence of Moses Kidder at the corner of Twelfth street and Elm avenue is undergoing repairs, of which a new roof is not the least important. The government thermometer gave the maximum temperature yesterday at 93 degrees and today promises little or no change, as the south wind is still vigorous. Some of the fishermen are catching small channel catfish in the water below the mill dam and hopes are entertained that large ones of the same species may be caught in the future. J. H. Vollrath, owner of the bowling alley in the Ahlman building, will leave tomorrow morning for Booneville, Mo., for a visit. When he returns from there he will move his alley to the southeastern part of the state. The Pierce Leader states that Mr. and Mrs. W. O. Toliver, formerly of this city but now of Laurel, are preparing to move to Riverside, Cal., where they will go into business with W. F. Enderly, a brother of Mrs. Toliver. People at the Oxnard hotel have been enjoying free music from the nickel-in-the-slot machine since Sunday morning. Someone dropped a penny in and clogged the shut-off machinery so that all it now requires is to be wound up and the music flows freely. W. N. Hase has purchased from Sol G. Mayer and R. B. Weller the lots on Main street east of the residence of C. S. Bridge, and tomorrow George Stalco will begin the work of moving his house from the near vicinity of Corporation gulch to the new location. The flood in Virginia and West Virginia should call for the particular sympathy of this locality. The press dispatches indicate that there is an Elkhorn valley concerned, also a North Fork river, a Norfolk, Norfolk Junction, and other names familiar to this portion of Nebraska are used in connection with Nebraska. A gang of several tramps struck Norfolk yesterday that did full credit to familiar tramp cartoons of some of the papers, so far as their appearance was concerned. Their rags and tatters and unkempt whiskers were fully equal to those of the average cartoon of the tramp. They were "Weary Willies" with a vengeance. The people at the Norfolk hospital for the insane are preparing to celebrate the glorious Fourth in a spirit truly patriotic. One of the features of the celebration will be a flag raising, when a beautiful banner of wool bunting, 11 by 22 feet in size, will be for the first time flung to the breeze from the loftiest point of the institution. The flag has just been received. The state board of public lands and buildings in session at Lincoln Monday afternoon awarded a contract for constructing a standpipe at the Norfolk hospital for the insane to Drake, Williams & Williams of Omaha. The appropriation by the legislature for this purpose was \$3,500 and the contract price is \$3,440. The work of construction will probably begin as soon as the materials can be got on the ground. Pierce Leader: The west side of Norfolk was flooded Wednesday morning, lawns, cellars and furnaces being submerged for an hour or two, the water doing considerable damage. Norfolk people will undoubtedly endorse the pastor of a negro church in a rural district in the south, who recently incorporated this petition in his prayer: "Lard, if you thinks we hez had rain enough, please tell de rain ter quit

DR. PARKER

DENTIST

Mast Block. CROWN AND BRIDGE WORK. raining; but if ye don't think we's had enough, please forgive us fer looking glum, en growling." Minden Gazette: Andy Christensen can tell some pretty good fish stories, but he bumped up against another good man the other day, and after Andy had worked up a good sweat with some of his best ones, the other fellow made fun of him and really knocked him out by saying that he had a friend who owned a bird dog which is especially good at fetching things out of the water. In order to show a friend what the dog would do, he threw a 50-cent piece into the water and told the dog to fetch it. The dog dived and brought back a two pound catfish and 35 cents in change. Business men are discussing the project of holding a harvest festival, street fair or some other sort of entertainment for Norfolk this summer or fall and the sentiment in favor of such an entertainment seems to be quite unanimous. Towns that held this sort of entertainment last year are quite generally providing something similar for this year and Norfolk could undoubtedly realize much pleasure and profit from an effort along the amusement line. If a success is to be made it is none too early to begin the preliminary work and it should be undertaken in a manner that will leave no room for such a word as "postponement" or "failure." Clarence Salter, assisted by Dr. and Mrs. Frank Salter, entertained about forty of his friends last evening at a lawn party, the enjoyable social function being given at the family home on North Tenth street. Prepared programs were so arranged that each gentleman was directed to some hammock, porch or cozy corner where a congenial companion was found with whom to while away the time between bells. The splendid moonlit evening proved ideal for the sort of entertainment provided and all enjoyed the occasion thoroughly with music as a pleasing feature of the evening. One object of the party was to dispose of some of the luscious home-grown strawberries picked at the Salter home and this was successfully accomplished, generous dishes of the popular fruit being served at tables arranged in the house. A Good Thing. German Syrup is the special prescription of Dr. A. Boschee, a celebrated German physician, and is acknowledged to be one of the most fortunate discoveries in medicine. It quickly cures coughs, colds and all lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Boschee's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cents. Get Green's prize almanac. Asa J. Leonard. The fast trains of the Union Pacific reach San Francisco fifteen hours ahead of all competitors. If you are in no hurry take a slow train by one of the detour routes, but if you want to get there without suffering any of the inconveniences of winter travel, take the only direct route, the Union Pacific. Detailed information furnished on application. F. W. JUNKMAN, Agent. LOSING FLESH In summer can be prevented by taking Scott's Emulsion Its as beneficial in summer as in winter. If you are weak or run down, it will build you up. Send for free sample. SCOTT & BOWNE, Chemists, 409-415 Pearl Street, New York. See and get it - all druggists. For 14 Cents We mail the following pure cod liver oil: 1 lb. Pure Blood Tonic, 14c. 1 lb. Pure Cod Liver Oil, 14c. 1 lb. Pure Fish Liver Oil, 14c. 1 lb. Pure Seal Liver Oil, 14c. 1 lb. Pure Shark Liver Oil, 14c. 1 lb. Pure Haddock Liver Oil, 14c. 1 lb. Pure Mackerel Liver Oil, 14c. 1 lb. Pure Salmon Liver Oil, 14c. 1 lb. Pure Tuna Liver Oil, 14c. 1 lb.
