

## WEDNESDAY WRINKLES.

Carl T. Seely was in from Madison yesterday.

P. Z. Pell was in the city today from Humphrey.

Judge and Mrs. Powers went to Omaha today.

G. R. Seiler has gone to Hot Springs, S. D., on business.

No paper will be issued from The News office tomorrow.

Mack Harding is expected here from Omaha to spend the Fourth.

Dr. R. A. Mittelstadt went to Omaha today and will return Friday.

C. H. Vail and H. H. Patterson went to Sioux City yesterday on business.

D. F. Chambers of Stanton was a business visitor in Norfolk yesterday.

Mr. and Mrs. Henry Hollyfield have welcomed a new daughter to their home.

Mrs. S. F. Dunn and Mrs. Davis went to Omaha today to spend the Fourth.

Mrs. Guy Cooley and Miss Mabel Cooley went to Scribner today for the Fourth.

Everybody will have a hot time tomorrow unless the weather changes pretty much.

Mrs. O. R. Eller, Miss Mamie Matran and Miss Kate Stafford went to Omaha this morning.

Mrs. Morris Mayer and children went to Omaha this morning to visit her parents for a month.

Mr. and Mrs. V. Brainard will go to Oakdale this evening to spend the Fourth with friends.

Miss Opal Madsen went to Columbus this morning to visit Miss Florence Cramer over the Fourth.

Mrs. J. C. Aid went to her old home in Iowa yesterday to spend the Fourth and visit for a few weeks.

Miss Kruger, Mr. and Mrs. H. J. Backes, Miss May Billerbeck and Chas. Herbes of Lindsay were in the city today.

Dr. F. F. Teal returned from a business trip to Lincoln Monday evening and Steward Walker returned last night.

A new stone crossing is being put in across Main street between the Mast block and the Durland Trust company building.

Rev. L. W. Sonder arrived from Shelton yesterday to take up the pastorate of the Presbyterian church here and at Winslow.

Misses Helen and Ella Gliseman returned this morning from Lyons where they have been visiting their aunt, Mrs. Paul Karo.

The Western Union Telegraph office has been reshelving and the Dudley livery barn is taking a dose of the same sort of improvement.

Deputy F. F. Miller of the A. O. U. W. went to West Point yesterday to assist at the installation ceremonies of the West Point lodge. His son Louis accompanied him.

The Norfolk peace officers have at last succeeded in ridding the town of the female tramp who has caused them so much worry during the past week or two. Her fare was paid out of town yesterday.

The Norfolk Shoe company has a window display that attracts attention, at least that of the small boy. It is a monster fire cracker six feet in length and about a foot and a half in diameter with a half-inch rope to represent the fuse.

Pierce Call: Mr. and Mrs. Bert Amarine returned Wednesday from Columbus, where Bert has been at work for several weeks past. He began work at once for Chas. McDonald who has the contract for putting up the Upton and Idholder buildings and also the foundation for the new churches.

Battle Creek Enterprise: The shirt waist man will be very much in evidence in Battle Creek on the Fourth. The band boys will be attired in neat striped waists and a number of others have signified their intention of following suit and discarding the "boiled" shirt for more comfortable apparel.

Oakland Independent: Wm. Selling, overseer for the Hygeia Creamery Co., of Omaha, with headquarters in this city, returned Saturday from a business trip to Norfolk. He reports the creamery business improved over last year's. Most of the cream is now gathered by farmers with separators of their own, instead of by stations as was the rule formerly.

Exceedingly Low Rate Excursions to the Black Hills.

Dates sale: July 1st to 9th, inclusive.

Rates: To Hot Springs from Sioux City and Missouri Valley, Iowa, and Omaha, Neb., \$15 for round trip.

From Lincoln and Superior, Neb., \$14 for the round trip. Proportionate rates from intermediate points east of Long Pine.

Minimum round trip rate \$10.

To Deadwood and Lead, S. D., \$4.00 higher than to Hot Springs.

Transit limit: Going trip, fifteen days; return trip, continuous passage.

Final limit: October 31st.

Stop-over: Stop-over will be allowed at any point on the F., E. & M. V. R. R. west of Stanton, Neb., within the going transit limit of fifteen days from date of sale.

Don't miss this opportunity to visit the wonderful Black Hills. Proportionate rates based on the above will be on sale at stations east of the Missouri river.

Ask your nearest agent for full information and be sure your tickets read via the Northwestern line.

A Match Trick.

A feat which any one can perform with little or no practice is that of placing 14 matches upon a table and lifting them all up upon one of the matches. This is how it is done: Pick out one match—the one that has the flattest surface—and then place six of the other matches about one-fourth each across the first one, each of the six being parallel to each other and the thickness of a match distant from each other. Next place six other matches one-fourth each across the first match, but from the other side, all parallel and in the spaces left by the arrangement of the first six matches. Now take the fourteenth match, lay it over the 12 matches where they intersect, and by carefully lifting match No. 1 and holding match No. 14 in place you will accomplish without difficulty the feat—Adelaide Herrmann in Woman's Home Companion.

England's Boy Choir.

Julian Ralph, writing of "The Choir Boys of England," in "The Ladies' Home Journal," says: "Small boys are much preferred, for the reason that they develop into manhood later than big, stalwart children, for it is at the coming of manhood that their voices break and they are obliged to stop singing until their adult tones are reached—a matter of years. A boy's treble is as delicate as the bloom on a peach, and its possessor must lead an orderly and innocent life, which is why so many choir boys are made up of boys taken from their homes and boarded and taught in church institutions. These, sometimes, are able to sing until they are 17 or 18 years of age, though between 14 and 15 is the usual period when their voices break."

Gold Lined Geese.

According to the United States consul at Chung-King, China, in the department called Yung-pai, Chih-I Ting, gold is found in abundance by washing in the valley near the city. The inhabitants of the neighborhood keep large flocks of geese to work the gold fields for them. When the geese are found to be very heavy, they are killed and their maws emptied of the gold contained therein. A flock of geese is sometimes worth a good deal of money, but geese dressed ready for eating are very cheap indeed—from 15 to 20 cents each.

Deserved Tribute.

Chicago's chief of police says he would rather have a good, well trained newspaper man for detective service than the usual police officers who act as detectives. As a matter of fact the newspaper reporter does more good detective work every day in the year than the average member of a city detective force, but the public does not as a rule recognize the obligation.—Omaha Bee.

Leon Cusson and Gordon Pound were drowned in the Ocmulgee river, at Macon, Ga., Tuesday, while bathing. Pound was the son of Jerome B. Pound, proprietor of the Chattanooga News. Pound lost his life trying to save Cusson.

Pan-American Exposition Excursion Rates.

Excursion tickets will be sold by the F., E. & M. V. (Northwestern line) on May 6, 13, 20, 27 and 34 with a return limit of 7 days at \$30.55 via standard and \$29.01 via differential lines.

Every day until September 30 with return limit of 15 days, at \$38.30 via standard and \$36.30 via differential lines.

Every day from May 15 to September 30 good for return until October 31, at \$47.75 via standard and \$45.35 via differential lines.

Full particulars will be cheerfully furnished all inquirers.

H. C. MATRAU, Agent.

The Favorite Line

To the Epworth League convention San Francisco, Cal., July, 1901, will be the Union Pacific. All competition distanced. The fast trains of the Union Pacific reach San Francisco fifteen hours ahead of all competitors. If you are in no hurry take a slow train by one of the slower routes, but if you want to get there without delay take the historic and only direct route, the Union Pacific. Full information cheerfully furnished upon application.

F. W. JUSEMAN, Agent.

Career and Character of Abraham Lincoln.

An address by Joseph Choate, Ambassador to Great Britain, on the career and character of Abraham Lincoln—his early life—his early struggles with the world—his character as developed in the later years of his life and his administration, which placed his name so high on the world's roll of honor and fame, has been published by the Chicago, Milwaukee & St. Paul Railway and may be had by sending six (6) cents in postage to F. A. Miller, General Passenger Agent, Chicago, Ill.

Jell-O, The New Dessert.

pleases all the family. Four flavors—Lemon, orange, raspberry and strawberry. At your grocers. 10 cents try it today.

The News keeps its job department up-to-date with the latest faces of type and does its work in approved style.

When the plate is furnished The News will supply engraved cards at 75 cents for 50, or \$1.00 for 100.

Photographs 1 cent each at the new Penny gallery, west of Fair store.

## HOW TO CATCH A COLD.

The Various Ways in Which It May Be Accomplished.

The various ways in which a cold may be brought on are thus described by Dr. J. H. Kellogg: "A little knife blade of air blowing in through a crack in a window upon some part of the body will chill that part, and the blood vessels of that region will become contracted, affecting somewhere in the interior of the body an area in reflex relation with this portion of the surface of the body.

"For instance, the blood vessels of the skin of the top of the shoulders and the chest are associated with the blood vessels of the lungs, so that whatever happens to the blood vessels of the skin of the shoulders and chest happens also to the blood vessels of the lungs. If there is a contraction of the blood vessels of the back of the neck, there will be a contraction of the blood vessels of the nose and throat, and if there is a contraction of the blood vessels of the top of the shoulders and the shoulder blades there will also be a contraction of the blood vessels of the lungs. When the influence of the cold is continued, this contraction is followed by congestion.

"When one puts his hands into cold water for a few minutes, they are first pale and then red. This is reaction. The longer the application and the more intense the degree of cold the greater will be the contraction and the congestion. So if the back of the neck is exposed for a long time to the influence of cold one is likely to have a cold in the nose and throat. If the shoulder blades and the tops of the shoulders are exposed, one is likely to take cold in the lungs and suffer from congestion of the lungs. If the cold is long continued, it may cause not only a congestion, but an inflammation of the nose or the lungs.

"So if the bottoms of the feet become wet or chilled a weakness of the bladder may result if there has ever been a trouble there or a weakness of the stomach if there has been a catarrh of that organ.—Good Health.

Suicides and Crossroads.

It has been suggested that suicides were buried at crossroads because it was usual to erect a cross at such places. Those who were excluded from holy rites were buried there as the place next in sanctity to consecrated ground. It was an old superstition that the devil danced at crossroads and that the erection of a cross there would prevent such unseemly practices. From this or some other superstition, such as the fear that his ghost might walk the earth, arose the custom of driving a stake through the suicide's body.

These plausible theories have gained many advocates, but it is more likely that burial at crossroads was intended as a mark of indignity. The temples, or rather altars, of the heathen Teutons were mostly at the junction of crossroads. The place of execution was there, and criminals were sacrificed to the gods; hence suicides were buried at the crossroads to give as strong an impression as possible of heathen burial. Probably, too, the publicity of such a spot, which insured the fact that a great number of people would become directly aware of the degrading consequences of the crime, had a good deal to do with its selection.

A curious fact in this connection is to be found in Plato's Laws (book ix, chapter 12). The murderer of any of his near kin, after being put to death, was "cast out of the city, naked, in an appointed place where three roads meet, and let all the magistrates, in behalf of the whole state, carry each a stone and hurl it at the head of the dead body."

In "Sketches of Life in the Golden State," Colonel Albert S. Evans narrates the rash exploit of an over-sanguine bear hunter:

A venturesome Yankee came to Santa Barbara some years ago and soon became an adept at throwing the lasso. Hearing the Mexican cowboys talk of lassoing the grizzly bear, he decided to show them what he could do in that line if he ever got a chance.

One day he came upon a grizzly in a favorable locality. He threw the lasso with skillful aim and reined back his trembling horse to give the bear an astonished, when the reata—which is always attached to the pommel of the saddle—came up taut.

Judge of the man's astonishment when that bear quietly assumed a sitting posture, took hold of the lasso and began to draw it in hand over hand!

The hapless descendant of the pilgrim fathers stuck to the horse and saddle until he saw the slack all drawn in and the bear and the horse coming rapidly together. Then, in a panic, he descended and ran for a tree, abandoning the horse to its fate.

Two skillful men, operating from opposite sides, can master a bear and choke him between them, but with only one man, one horse and one bear, it is another story.

Ancient Sundials.

It is probable that the earliest sundial was simply the spear of some nomad chief stuck upright in the ground before his tent. Among those desert wanderers, keen to observe their surroundings, it would not be a difficult thing to notice that the shadow shortened as the sun rose higher in the sky and that the shortened shadow always pointed in the same direction—north.

The recognition would have followed very soon that this noonday shadow changed in its length from day to day. A six foot spear would give a shadow at noonday in latitude 40 degrees of 12 feet at one time of the year, of less than two feet at another.

This instrument, so simple, so easily carried, so easily set up, may well have begun the scientific study of astron-

omy, for it lent itself to measurement, and science is measurement, and probably we see it expressed in permanent form in the obelisks of Egyptian solar temples, though these no doubt were retained merely as solar emblems ages after their use as actual instruments of observation had ceased. An upright stick carefully plumbed standing on some level surface may therefore well make the first advance upon the natural horizon. A knob at the top of the stick will be found to render the shadow more easily observed.—E. Walker Maunders in Knowledge.

Mighty Bad Luck.

The colored gentleman who collects paper scraps has a disabled "right." Only the thumb is of much service. Asked how it happened he looked sad and replied, "Dat ar wuz a piece of bad luck, boss; yes, sah, mighty bad luck."

"How was that?"

"Ah doan' like tuh tell, but 'twuz mighty bad luck."

Finally he consented to explain: "Two fellows insulted me in a place across the street here, an Ah started in tuh frazzle dem out. De second fellow Ah tackled wuz stan' in 'tween me an an iron pilluh dat supported de roof. Jus' as Ah wuz about tuh hand him a smash on de nose dat niggah stepped one side an mah hand struck de pilluh instead. Hilt done broke ebery one of mah fingers, an dey've been stiff ebery since. Yes, sah, dat wuz suthin' bad luck."

"But what about the first fellow you went up against? You didn't say what became of him?"

"Oh, dat fellow? Yah, yah! Boss, Ah kin show you dat niggah any time. 'E work jus' a block from here. 'E ain't got no nose an only lilly piece one ear."

"How'd he lose 'em?"

"How'd 'e lose 'em? Boss, 'e didn't lose 'em. Dey wuz took from 'im, an Ah done hit him. Ah done bit 'em bofe off. Yes, sah, Ah bit 'em off while we're rollin round on de flo'."—Detroit News.

The Truthful Prince.

In his book about Persia, "The Land of the Lion and the Sun," Dr. Willis says that he was once conversing with the king's son, and a large circle of courtiers and priests filled the room. The prince narrated his exploits in hunting the antelope the previous day and gravely stated that while pursuing a pair of abu when riding a very restive horse his headstall broke.

"What should you have done, doctor?" asked the prince.

"I should have tried to stick on as long as the ground was good and, expecting an accident, have awaited it."

"Ah, that was because you were not a prince," he said. "I leaned forward, and, unclasping my belt, placed it in the horse's mouth as a bridle, and, thus directing him, pursued my game and killed both antelope."

All the circle applauded, as of course they were bound to do. Dr. Willis was silent.

"You don't mean to say you don't believe that?" said the prince. "Speak out if you don't. I shan't be offended in the least."

"Well, your highness, I don't believe it."

"Quite right, darogh bood" (it was a lie), unblushingly replied his royal highness and burst into a fit of laughter quite unabashed. The circle of courtiers, of course, were convulsed.

Was She Right?

A certain woman, says the Wichita Eagle, desired the arrest of the saloon keeper who had been selling whiskey to her drunken husband. Having conducted the officer to the saloon, she was told by him to pick out the proprietor. Seven men, all looking alike and dressed alike, were standing motionless around a whiskey barrel, and she could not tell which was the one, but she stepped to the barrel and turned the spigot, and the liquor began to pour out on the floor. One of the men sprang out of the circle and turned the spigot off. "Arrest that man!" she said.

But was she right? Was it more likely to be the proprietor who would thus plead guilty and go to jail or some innocent man with an unquenchable thirst who was horrified at seeing the awful waste?

A Curious Wood Carving.

Salem, Mass., is the home of the East India Marine hall, which contains collections of the Essex Institute and of the East India Marine society. The scientific cabinets of the Essex Institute are extensive and well arranged, and the collections of the Marine society include many curiosities from oriental countries and other distant nations.

Among the numerous curiosities is a piece of wood carving in the form of two hemispheres 1 1/2 inches in diameter, in the concavities of which are carved representations on the one hemisphere of heaven and on the other of hell. There are 110 full length figures in the carving, and the whole is very skillfully executed. It is said to be the work of an Indian monk of the fourteenth century.

Smart Alex.

A man being about to die summoned his four sons to his side and said: "My sons, I will leave to John one-third of my estate, to Alex one-fifth, to James one-half and to Thomas one-fourth, and thus you will all share equally."

John and James and Thomas took Paper and Pencil and began figuring, but Alex took his Hat and started out. "Where are you going?" the other three asked. "Do you not intend figuring out the Problem?"

"Not much," said Alex. "I am going for a Lawyer to break the Will."

Moral—Sometimes the Lawyer can Relieve the Heirs of Much of the Figuring.—Baltimore American.

## I. M. MACY.

Medical Opinion in regard to Dr. A. H. Keller's Sylvan-Ozone.

An editor of a medical journal writes as follows:

"Dr. A. H. Keller's Sylvan-Ozone offered by the Dr. A. H. Keller Chemical Company as a cure for Consumption, Asthma, Bronchitis, Hay Fever, Catarrh, Coughs, Colds and all diseases of the air passages. This we know to be a genuine specific for these complaints, and as such, entitled to our confidence and that of our readers.

"Close examination into the practical results which have been had from the use of this remedy has caused us to endorse it as being an undoubted cure for the above ailments, effectual in removing the exciting cause in a number of attacks which had been of the severest and most tedious character. Dr. A. H. Keller's Sylvan-Ozone permanently restored health, and in cases which were of a milder description its use immediately afforded relief."

WILL CURE

NASAL, THROAT AND BRONCHIAL CATARRH AND CHRONIC BRONCHITIS

Consumption

WRITE TO DR. A. H. KELLER, CHEMICAL COMPANY AND MEDICAL INSTITUTE, SIOUX FALLS, S. D., FOR FULL INFORMATION.

Dr. Keller, Specialist in Nose, Throat, Lung and Kidney Diseases will correspond with you in regard to your condition.

## TATTLING DESIGN.

A Pretty Pattern For a Collar, Dolly or Other Article.

Commence with the largest wheel, says "The Ladies' World" in giving the following directions for tatting for a collar, etc.:

Twelve long picots with 1 double between, draw up. "Make 2 doubles, 1 picot, 2 doubles; fasten in first long picot, 2 doubles, 1 picot, 2 doubles, draw up. Turn work and make 5 doubles, 1 picot, 2 doubles, 5 picots, with 1 double between each, 2 doubles, 1 picot, 5 doubles, draw up."

Continue from \* to \* until there are 12 rounds, joined as in illustration. Before drawing up the twelfth round join to first one.

Second wheel, 1 double, 9 picots, separated by 1 double, draw up, 3 doubles, 1 picot, 2 doubles, 5 picots separated by 1 double between each, 2 doubles, 1 picot, 3 doubles, draw up. Join thread with slip stitch in picot of center.

## TATTLING FOR DOLLY OR COLLAR.

ter round. Continue until there are 9 rounds. Join to larger wheel while working.

Third wheel, 7 picots separated by 2 doubles, draw up. Continue same as second wheel and join.

Make desired number of wheel strips and join as follows:

With 1 thread make 2 doubles, 1 picot, 2 doubles, 1 picot, 4 doubles, draw up.

With 2 threads make 4 doubles, draw up slightly, join to picot of smallest wheel, as shown in illustration, 4 doubles, draw up slightly.

With 1 thread make 4 doubles, join to center of last round, 4 doubles, draw up.

With 1 thread make 4 doubles, 1 picot, 4 doubles, draw up.

With 2 threads make 4 doubles, draw up slightly, join to wheel, 4 doubles, draw slightly.

With 1 thread, 4 doubles, join to round, 4 doubles, draw up.

Next time 5 doubles between each joining.

Next time 6 doubles, next time 7, next time 8.

Sixteen doubles at the bottom where work turns to return toward top. Continue to decrease stitches in same order in which they were increased going down.

Reading, 2 doubles, 1 picot, 2 doubles, 1 picot, 2 doubles, 1 picot, 2 doubles, draw up.

Turn work, 4 doubles, 1 picot, 4 doubles, 1 picot, 4 doubles, draw up.

Continue and join according to illustration.

To be made with No. 10 or No. 20 thread, as preferred.

## Only a Misunderstanding.

Several years ago, in a well known wholesale house in a big manufacturing town, an old bachelor bookkeeper, who had been many years with the firm, suddenly announced that he was to be married.

The partners gave him a week's holiday, and his fellow clerks raised a little purse and presented it to pay the expenses of his wedding trip.

A couple of days after the wedding one of the members of the firm went down to a seaside resort, and there, lounging about the parade and apparently enjoying himself immensely, he saw his recently married old bookkeeper, but alone.

"Where's your wife?" asked the principal.

"She's at home," was the reply.

"But I thought you had money given you for a wedding trip?"

"So I had," was the reply, "but I didn't understand that it was intended to include her."—Pittsburgh Courier.

## Women are Like

## Flowers.

Healthy and strong they blossom and bloom. Sickly, they wither and die. Every woman ought to look well and feel well. It's her right and duty, but she might as well try to put out a fire with oil as to be healthy and attractive with disease corroding the organs that make her a woman. Upon their health depends her health. If there is inflammation or weakening drains or suffering at the monthly period, attend to it at once. Don't delay. You're one step nearer the grave every day you put it off. Women can stand a great deal, but they cannot live forever with disease dragging at the most delicate and vital organs in their body. You may have been deceived in so-called cures. We don't see how you could help it—there is so much worthless stuff on the market. But you won't be deceived in Bradfield's Female Regulator. We believe it is the one medicine on earth for womanly ills. There is as much difference between it and other so-called remedies as there is between right and wrong. Bradfield's Female Regulator soothes the pain, stops the drains, promotes regularity, strengthens, purifies and cleanses. It does all this quickly and easily and naturally. It is for women alone to decide whether they will be healthy or sick. Bradfield's Regulator lies at hand. \$1 per bottle at drug stores.

Send for our free booklet.

THE BRADFIELD REGULATOR CO., ATLANTA, GA.
