Pittsburg, July 17 .- The second strike day closed with the Amalgamated officials in a satisfied mood and claiming to have made good every promise as to results. On the other hand the manufacturers will not say a word concerning the strike and refuse to be quoted in any way. The Amalgamated people say that nothing has been said to them of any plan for mediation or arbitration and that they will continue to carry out their program as originally announced. The closing down of the Clark mill and of the Monessen sheet mill is looked upon as teiling victories, and an almost complete tie up of the three companies in the district. But one tin mill, that at Monessen, and one sheet mill, at Duncanville, remain at work. The fact that the National Tube mill received a substantial advance in wages has caused discontent among the men employed by the National SOUND STEAMERS IN COLLISION Tuke company at their Second avenue plant and at the Republic mill on the South side. The men here think they are entitled to a similar increase.

The announcement that the Wellsville rolling mill will be started today and started nonunion has given rise to no little speculation and uneasiness among the citizens. Many of the strikers, expecting prolonged idleness, have left the city for hunting and fishing camps. No new men have been brought in and how Manager Smith expects to start is a matter for conjecture.

He said that for picketing an injunction would be granted, but that acts of violence and even boycotting were not to be met by injunction.

Stationary Firemen Strike. Wilkesbarre, Pa., July 17 .- The strike of stationary firemen began yesterday morning. About 7,000 men are idle in this region. Many of the mines had to close down, throwing out of work, it is estimated, 15,000 men.

KANSAS IS STILL PARCHED. ports of Blighted Crops Continue to Come In. Topelia, July 17 .- While rain has fallen during the past 24 hours in various parts of Kansas, the drought is not yet broken and little benefit has been experienced by the crops. The rains have been small local affairs and their only effect has been to cool the atmosphere and freshen vegetation to a certain extent. Yesterday's refreshing breeze from the south made the weather more bearable than any during the past month. Two places in the state report a temperature of 107, but the average has been about 99. Reports of blighted crops continue to come in. A hopeful tone pervades most of the reports, however, and the determination is generally expressed to make the best of the situation.

#### More Rain In Nebraska.

Lincoln, July 17 .- A fall of two de grees in temperature in the absence of rain brought little relief to heat sufferers yesterday and put another nail in the coffin of the corn crop, a part of which is now severely damaged. The maximum temperature was 102. George Kleutsch, a prominent young man, died as a result of sunstroke. Rain reports were more general last night. There was a heavy fall at Holdrege and lighter rains at Hastings, Grand Island, Kenesaw and Harvard The storm is moving eastward.

## No Decisive Change In Weather.

Chicago, July 17 .- The reports to the government weather bureau from points over the west indicated no decisive changes. Kansas, Missouri, Ne braska, lowa and the Dakotas report no rains of sufficient volume to affect the crops. Nor did the official forecasters discover any indications to warrant a belief that the general drought would soon be broken.
