ANOTHER WARSHIP READY

Navy Department Decides West Coast Needs Attention.

ORDERS GIVEN TO WISCONSIN.

If Machias Isn't Protection Enough Battleship Will Follow—Government Officials Fear Revolt In Columbia Endangers Property.

Washington, Aug. 9.—Just before the navy department closed yesterday an order was sent to Captain George C. Reiter of the battleship Wisconsin, now at Anacortes, near the Puget sound naval station, to proceed to San Francisco, from which point the battleship will be dispatched to Panama in case the state department requests the presence of a war vessel on the Pacific side of the isthmus.

This action was taken after Acting Secretary Hackett had received a communication from J. E. Simmons, president of the Panama Railway company, setting forth the seriousness of the situation on the isthmus and suggesting that warships be sent both to the Atlantic and the Pacific side.

MALVAR FIGHTS FIVE HOURS.

His Insurgent Force Manages to Kill Two Cavalrymen.

Manila, Aug. 9.—Captain Brown of the First United States cavalry, with troops L and M of that regiment and a company of the Twenty-first infantry, held a five-hours' fight in Batangas province yesterday with an insurgent force commanded by Malvar. Two cavalrymen were killed. The insurgents escaped. The insurgents were in considerable force and allowed the advance guard to pass. Before attacking, Captain Brown ordered the cavalry to dismount. The troops drove the enemy from several positions and burned a number of quarters.

Three Buildings at Alma Burn.

Alma, Neb., Aug. 9.—Fire destroyed the two-story brick building belonging to A. C. Shallenbarger, the one-story brick building belonging to J. M. Davis and a frame building belonging to the Bank of Alma last night. McKenzie's stock of clothing was almost totally destroyed and the entire stock of furniture of Stewart & Davis was lost. There were many other small losses, including the dental outfit of Dr. Culver. The total loss is estimated as follows: Buildings, $4,000; stocks of goods, $5,000.

Charged With Manslaughter.

Hamilton, O., Aug. 9.—Humane Officer Smith yesterday swore out warrants for the arrest of Sylva and Leora Bishop, charging them with manslaughter. The Bishops are believers in faith healing and when their little daughter Esther was burned by a gasoline explosion July 31 they did not call a physician and the child died. Bishop was committed to jail in default of bond. Mrs. Bishop is at Greenville, O., and a constable has gone there to secure the warrant for her.

Diamond Thief Confesses to Priest.

Anderson, Ind., Aug. 9.—Three weeks ago the jewelry store of J. A. Washburn was robbed of $1,500 of diamonds. The stones were in the show window and the thief entered the store at noon and took them out. The thief went to a Chicago priest a few days ago and while in the confessional told the story of the robbery and turned over the stolen property to the priest, who immediately notified Mr. Washburn, who recovered the stolen property.

Temperance Worker Mulcted for Costs

Fort Scott, Kan., Aug. 9.—A jury of prominent men in a justice court here yesterday found Rev. Price, presiding elder of the Methodist church in this district, guilty of malicious prosecution in a liquor case. The defendant was acquitted and the costs were assessed against the clergyman. The defendant was the keeper of a saloon that has been running wide open and several witnesses readily admitted having bought liquor at the place.

I. T. U. Law Committee at Work.

Birmingham, Ala., Aug. 9.—The laws committee of the International Typographical union met here yesterday preparatory to the annual meeting of the union in this city on Monday next. The committee has in charge the matter of changing the laws with regard to district organizers, sentiments seeming to favor longer terms of office and fewer changes in the office as well as enlarged jurisdiction. The eight-hour law will probably come up.

Fine Ice Trust Manager.

Topeka, Aug. 9.—Judge Lindsay of the police court yesterday fined W. L. Dickey, manager of the People's Ice company, $200 for maintaining a trust contrary to the city ordinance. Mr. Dickey appealed from the decision to the district court. A great deal of feeling has been aroused over the ice company's action in raising prices, and the trial was largely attended.

Malsters Elect Officers.

Buffalo, Aug. 9.—The United States Malsters' association closed its annual session yesterday. John Noth of Davenport, Ia., was elected president; John Finck of Chicago, vice president; John Reamer of Kenosha, Wis., treasurer, and J. H. Panko of Chicago, secretary.

Woman Suicides at Papillion.

Papillion, Neb., Aug. 9.—Mrs. Chris Evers took a dose of carbolic acid yesterday and died from the effects. She was an old resident here and leaves a husband and several children.

TO INVESTIGATE MARKETS.

Agricultural Department Will Guarantee European Sales to Dealers.

Washington, Aug. 9.—Mr. Tracewell, the comptroller of the treasury, in a letter to the secretary of agriculture, held that the agricultural department may as suggested enter into comparative estimates with dealers of fruit, whereby the government shall guarantee to them a definite net return per acreage on fruit packed and shipped and sold under the direction of the pomologist of the department through the ordinary channels of trade.

The purpose of the department is to investigate the foreign market condition with the view of increasing the American sales in Europe. Under the proposed arrangement the exporter would receive the net proceeds of sales, that is all proceeds after deducting freight and other charges. If the net return should be less than the guaranteed amount the difference between the net proceeds realized and the guaranteed return would be paid the exporter out of the appropriation for "pomological investigations."

AFTER REMAINDER OF LAND.

Settlers Think Cattlemen Can Easily Get Out of the Reserve by Spring.

Lawton, O. T., Aug. 9.—A movement has been started here among the homeseekers who lost to have the government open up the three reserves in the land lottery which it set aside in the Lawton district before the opening. At a meeting of 100 or more of them it was decided to petition the interior department at once to take such action. These reserves embrace 532,500 acres, or about 3,300 quarter sections. The land was held in reserve, it is believed, because the government anticipated that the cattlemen, who had all of the Kiowa-Comanche country leased for pastures, would not be able to find pastures in Texas and other cattle grazing sections readily. If the cattlemen can round up their cattle and get them to the government reservations this fall, the homeseekers argue, they can find pastures somewhere else by next spring. The homeseekers are willing to buy the land outright from the government.

Sawdust Graduates.

Most of the circus acrobats and not a few of the rough and tumble comedians of the stage who have graduated from the ring were reared and learned the rudiments of their business in the lumber towns of the northwest. In the "business" these are known as "sawdust towns" on account of the sawmills, which are their chief industry. There are many of these in Wisconsin and Michigan and several in Iowa that have turned out the bulk of the acrobats and tumblers in the business.

In the "sawdust towns" the small boys have exceptional facilities for learning to turn somersaults and handsprings in the great beds of sawdust that surround the mills. Soon they begin to try the more difficult feats they see done in the shows that visit the towns. After school hours they tumble until it is time to go home and do the "chores." From out of them all there generally rise two or three boys who get the knack of the acrobatic feats, and these work in constant rivalry, each trying to excel the other.

One day along comes a circus, and the best boy tumbler applies for a job and shows what he can do. Perhaps he is given a chance as a "top mounter," or the top man in a pyramid act, because he is light and active. When he gets older, heavier and stronger, he may become an "understander," or the man who holds a mountain of men on his shoulders. And thus he gets to the show business.—Exchange.

Do You Eat Out or In?

The number and variety of knives and forks that now grace a well equipped and formal dinner table may well dismay one unused to such a variegated display of cutlery and silver. There are forks for the oysters, for the fish and for the roast and forks as well for anything else that may be served. There are also knives to correspond to the forks that may be needed. These implements that social convention decrees to be necessary to convey food to the mouth are usually laid out in formidable rows on either side of the plate.

The other evening a simple western maiden at her first eastern dinner surveyed her supply of knives and forks with growing trepidation. Her common sense told her that they were laid out in the regular order in which it was intended that they should be used, but nothing in her experience had taught her which was the right end of the row to start in with. Finally, in despair, she sought help from her next door neighbor, a prominent physician.

"Say, doc," she questioned anxiously as she pointed at the offending objects, "do you eat out or in?"—New York Tribune.

Wanted to Warn Him.

Sir Algernon West tells this story in his "Recollections:" One day the late Sir George Campbell, who had a very strident, loud, rasping voice, called on Sir Algernon, who was then secretary to Mr. Gladstone, to talk over the land question.

After he had been in conversation about three minutes the office keeper appeared, bearing the card of an M. P. who, he said, was very anxious to see Sir Algernon. The latter said he was sorry to be engaged. In another minute he appeared with the card of a well known peer who was most desirous to have a word with him. Again the latter said he was too busy to see him just then. In another minute the man again came in with a huge card saying the lord mayor and sheriffs of London wanted to speak to Sir Algernon West very urgently in the next room.

Sir Algernon apologized to Sir George and went out to such great dignitaries. When he got out of the room, the office keeper startled him by saying, "There ain't nobody here, sir, but I was afraid a madman had been shown in to you by mistake, and I wanted to warn you, sir."

A Spree on Sixpence.

An excellent Scotchman had for 37 years brought home his full wages every week, says the Newcastle (England) Chronicle. Once at the end of the period he gave his wife sixpence less than the full amount. This so distressed the thrifty woman that she went to consult the meenister on the subject. He tried to comfort her by saying that sixpence in 37 years was not a large amount.

"It's na the money a'm thinking of," she replied, "but a'm fearing that Mac has been taking to drink and betting, maybe, and other worldly pleasures."

Sheridan's Wit.

Richard Brinsley Sheridan was one day dining with Lord Thurlow when his lordship produced some fine Constantia which had been sent him from the Cape of Good Hope. Sheridan, who saw the bottle emptied with uncommon regret, set his wits to work to get another.

Failing in his attempt, however, he turned toward a gentleman seated farther down and said, "Sir, pass me up that decanter, for I must return to Madeira since I cannot double the Cape."—San Francisco Argonaut.

Hard Woods In Paraguay.

Quebracho is one of the profitable woods in Paraguay. It yields an extract used for tanning leather. The forests of Paraguay are full of it. The export of quebracho is very considerable, going principally to Europe, though much is sent to the United States as a product of the Argentine Republic, being shipped via that country.

An Ear Test.

A novel and curious test for deafness or approaching deafness has been described by a Paris specialist. If the handle of a vibrating tuning fork be applied to the knee or other bony portion of the human frame, the sound cannot be heard by the person who possesses an unimpaired ear, but if the ear be attacked by disease then the note can be heard distinctly.

Hardly Needed the Pension.

The following instance of what may be called illegitimate thrift comes on good authority. An old woman whose mother had been a servant in a well known family and who had received a monthly pension for some years past from the same family appealed to the family for a large contribution to help her to enter a home, she claiming she had $70 toward the admission fee. It was given to her, and she entered the home. Some time after her priest called upon the family and asked if they were aware that the woman had deceived them about having saved up some money. "Oh, no," was the reply; "she told us she had saved up $70 to aid in paying for her admission." The priest responded, "She has saved not only $70, but $7,000, and I have made her send back to you $500 to repay the sums she has procured from you during all these years by her deceitful statements." The restitution was made.—Charities.

An Old Friend

S. S. S. has been before the public for many years; from a small beginning, it has steadily worked its way to the front, and is now known in every city, town and hamlet in the country. Its staunchest friends are those who have known it longest and have witnessed its wonderful curative powers in their own families or among their friends and acquaintances. Grateful patients in all parts of the country tell of their restoration to health and happiness, and the testimony of these is the highest evidence of the medicine's worth. S. S. S. is more popular today than ever in its history—no other remedy stands so high, has ever given such perfect satisfaction or is so reliable in the cure of Cancer, Rheumatism, Catarrh, Contagious Blood Poison, Scrofula, Eczema, Psoriasis, Salt Rheum, Acne, or any disease that originates in the blood. Being strictly a vegetable preparation, you will find it agrees with you much better than a drug store concoction or any of the widely advertised potash and mercury remedies, which affect the bones, muscles and stomach, causing Rheumatism or Dyspepsia. If you have never tried S. S. S., you will be surprised at the immediate good effects,

Don't Experiment—Take S. S. S.

for no sooner does it get into the circulation than the appetite increases; you grow stronger, and gradually but surely it drives out the poisons and restores the blood to a healthy condition. If there is a sore or ulcer on the body, it begins to heal around the edges, the discharge finally ceases and the place gets well; muscular and bone pains vanish, and the skin is relieved of all itching, irritating eruptions. Nervous, run down and anaemic people will find S. S. S. just the medicine they need, for blood poverty and illy nourished nerves are responsible for their condition. For old people and children S. S. S. has no equal; being free from all minerals, it does not nauseate or have any injurious effect whatever, and keeps the blood in good condition, thus fortifying against disease. Experience teaches what is good and what is not good; this applies particularly to medicine, and S. S. S., a remedy that has retained the confidence of the people for nearly 50 years, must have merit—IT CURES, is the secret of its success. When you call for S. S. S. don't be persuaded to accept something else—there is no substitute for S. S. S. It is the only guaranteed purely vegetable blood purifier, and the safest and best for all blood and skin troubles. Do not let them force an inferior mineral remedy on you because there is a larger profit in it. If you have any blood or skin disease, don't hesitate to write us about it; our physicians will carefully consider your case and advise you without charge. Book on Blood and Skin Diseases free.

"My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He said his bowels were in a terrible fix, that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy and he said, 'No.' I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured."
