Republican County Convention.

The republican electors of Madison county, Nebraska, are requested to send delegates from the several voting precincts to meet in convention at Battle Creek, Nebraska, Sept. 21, 1901, at 11 o'clock a. m. for the purpose of placing in nomination one candidate for each of the following offices:

County treasurer, county clerk, county judge, county superintendent, county sheriff, county surveyor, county coroner, county commissioner of the Second district. Also for the transaction of such other business as may be in order.

The several precincts are entitled to representation as follows: The apportionment being based on the vote cast for William McKinley for president at the election of November 6th, 1900, being considered at large for each voting precinct, and one delegate for each twenty votes or major fraction thereof:

Norfolk—Battle Creek, 6; First ward, 6; Second ward, 6; Third ward, 6; Fourth ward, 6; Outside, 6; Valley, 6; Deer Creek, 6; Jefferson, 6; Grove, 6; Highland, 6; Madison City, 6.

It is recommended that proxies be held on Saturday, Sept. 14; that no proxies be allowed and that delegates present cast the full vote of the delegation.

J. L. KNESEL, Secretary; DAVID WHITLA, Chairman.

The rain will favor those who contemplate planting trees this fall.

Perhaps it would not be safe to state this early in the game that next season's crop is assured.

The county fair opens at Madison Tuesday and will afford the people of the county a fine opportunity to form new acquaintances and renew old ones. Everybody should be there at least one day.

The United States continues to furnish proof that it is in the real estate business. The government has disposed of 200,000 acres during the past fiscal year. Its transactions are at such prices and so enormous that individual dealers cannot hope to successfully compete.

The prohibitionists nominated for judge of the supreme court, W. Bert Clark of Ashland and for regents Mrs. S. M. Walker of Lincoln and A. M. Dilworth of Johnson county. What kind of a campaign the party contemplates is not stated but the leaders will probably endeavor to see that the votes polled for the candidates exceed in number the delegates attending the convention.

An exchange contains a lengthy article on "the curse of prosperity." There is a cue for the fusion papers that have found it impossible to deny that there is prosperity. They should now proceed to show that republican good times are a curse to the people and therefore undesirable. At the same time they should be careful that such arguments are not convertible to the use of the trusts and corporations as an excuse for bearing down a little harder on the people.

Ancient Protection Argument. The following mixed argument for protection, sound money and temperance has been discovered by the American Economist which says that English statesmen were pretty sound protectionists two or three and even four centuries ago and that is why England became the richest country in the world. The document from which this was taken was published in London 188 years ago and is an argument against French competition. With the "I" changed to an "S" the argument is not unlike protectionists sometimes use nowadays:

"The French did always outdo us in price of Labour: Their common People live upon Roots, Cabbage, and other Herbage; four of the large Provinces furnish entirely upon Cheftnuts; and the best of them eat Bread made of Barley, Millet, Turkey and black Corn: so that their Wages used to be small in Comparison with ours.

"But of late Years their Crown Pieces being made of the same Value as ours, and raised from fifty to one hundred Sols; and the Manufacturers, Servants, Soldiers, Day-Labourers, and other working people, earning no more Sols or Pence by the day than they did formerly, the Price of Labour is thereby so much lessened that one may affirm for Truth, they have generally their Work done for half the Price we pay for ours. For although Provisions be as dear at Paris as they are at London, 'tis certain that in most of their Provinces they are very cheap; and that they buy Beef and Mutton for half the Price we pay for it here.

"But the Price of Meat and Wheat doth little concern the poor Manufacturers; as they generally drink nothing but Water, and at best a fort a Liquor they call Beuergae (which is Water pafs'd through the Husks of Grapes after

the wine is drawn off) they have a great deal upon that account; For 'tis well known that our People spend Half of their Money in Drink."

GREAT DAY AT BUFFALO

Chief Executive Visits Pan-American Exposition.

Views Sights of Interest.

His Speech in the Esplanade is Heartily Applauded—President's Day Draws Record-Breaking Attendance at the Big Show.

Buffalo, Sept. 6.—President's day at the Pan-American exposition ran its course under every auspicious condition and was attended with every circumstance in keeping with its high import. President McKinley, with Mrs. McKinley by his side and surrounded by eminent persons of his official rank in the service of this and foreign countries, faced a vast throng of people in the Esplanade at noon yesterday and delivered an address that brought forth the thunderous applause of the multitude. Never before has such a crowd gathered within the exposition grounds. The people were packed in the Esplanade to the point of suffocation. The president's references to the name of Blaine as the man inseparably associated with the Pan-American movement, the statements that reciprocity treaties and trade arrangements which will not interrupt our home production are in harmony with the spirit of the times, that the American people must build the isthmian canal and the Pacific cable and encourage our merchant marine service and that isolation is no longer possible or desirable were particularly well received. The president's progress through the grounds to the Stadium, and thence to the various exhibits of Canada and the South American exhibits was one continuous ovation.

The president visited the grounds again in the evening to witness the fireworks, returning to the home of Mr. Millburn at 9 o'clock. Today the president and about 100 invited guests will visit Niagara Falls.

CANADIAN MARKSMEN WIN.

Defeat American Team at Sea Girl by Twenty-eight Points.

New York, Sept. 6.—The Canadian and American riflemen had a long session on the state rifle range at Sea Girl in the contest for the Centennial Palma trophy, emblematic of the championship, and the Canadians won by a margin of 28 points. The utmost good fellowship prevailed during the match, which was very close up to the last stage. The conditions of the contest called for the use of the national arm of the country represented by the teams, so that it was practically a duel between the American Krag-Jorgenson and the English Lee-Enfield weapons. The Canadians used orthodox sights, while the Americans had service sights. The shooting done by at least one of the American team was a revelation to their opponents. Many of the Ulster men who saw it had nothing but the highest praise for the exhibition given by Lieutenant Leizer of Washington, who made the highest collective and best individual score in the match, which was shot in three stages, 800, 900 and 1,000 yards. The total scores were: Canadians, 1,522; Americans, 1,494.

Threaten Injunction Proceedings.

New York, Sept. 6.—A special to the World from Boston says that Thomas W. Farnsworth, as chairman of 50 American citizens, has sent to the New York Yacht club a letter protesting against the right of that organization to exclude the Independence from entering the trial races, and threatening, in the event of the Shamrock II lifting the cup, to ask an injunction from the United States court to prevent the club from turning over the cup to Sir Thomas Lipton.

Think Constitution the Better Boat.

Bristol, R. I., Sept. 6.—The announcement of the selection of the Columbia to defend the cup was a great surprise to President H. B. Herreshoff of the Herreshoff company, but he declined to discuss the committee's action. The news was received with great regret in Bristol. It is the general feeling here that the Constitution is the better boat, and that ultimately she would prove herself to be all right.

As Viewed in London.

London, Sept. 6.—The selection of the Columbia to defend the America's cup is a matter of great satisfaction to the British press. The chances of the race are now regarded as even, but there is no disposition to express overconfidence in the result. It is generally conceded that the Constitution might still have proved the faster boat had there been sufficient time for further experiments and tuning up.

Lord Derby Defeats Boralmia.

Hartford, Conn., Sept. 6.—A big crowd at Charter Oak park yesterday witnessed the defeat of Thomas Lawson's celebrated gelding Boralmia by C. J. Hamlin's Lord Derby. The race between these two was one of the finest of the year and it was only after five heats had been trotted that the Boston favorite's colors were lowered. Best time, 2:06 1/2.

Jiminez Smashes Record.

Chicago, Sept. 6.—Two records were broken at Harlem yesterday, one of them a world's mark for a mile and 70 yards, which distance was covered by Jiminez, in the third race, in 1:42 4/5. In the fourth, Nellie Wadell covered four furlongs in the Sapling stakes in 47 1/5, beating the former track record of 47 1/2.

WABASH ROAD BREAKS AWAY.

Notifies Passenger Association It is No Longer Bound to Rate Schedule.

St. Louis, Sept. 6.—General Passenger Agent Crane of the Wabash has notified Chairman McLeod of the Western Passenger association that the Wabash no longer considers itself bound by the ruling of Arbitrator Martin in the matter of rates to be charged from Kansas City to Buffalo and points thereof by its fast mail train via Hannibal. The Wabash takes the ground that its competitors have not observed the spirit of that ruling and are not living up to the agreed basis for rates eastbound from Kansas City. In self-protection, therefore, the Wabash will charge the differential rate from Kansas City by its fast short line train to Buffalo and points beyond when circumstances justify it.

Song Rekindles Spark of Reason.

Denver, Sept. 6.—Miss Elizabeth Damme, the demented musician who, prior to her loss of reason, acquired fame on two continents, is on the road to recovery in the Arapahoe county hospital, through the chance visit of a musician, who, in an adjoining room, sang several airs from "The Bohemian Girl." From that time dated her recovery. The doctors are giving her close scrutiny, as they cannot understand that after a year's incarceration the spark of reason should be rekindled in such a strange manner.

Baseball Results Yesterday.

Milwaukee, 2; Boston, 4. Detroit, 9-2; Philadelphia, 11-9. Cleveland, 3; Baltimore, 1. Western League—Des Moines, 10; Omaha, 0. St. Joseph, 4; Kansas City, 5. St. Paul, 5; Minneapolis, 6. Colorado Springs, 3; Denver, 5.

Japan Anxious to Fight Russia.

Indianapolis, Sept. 6.—Bishop John McKim of Tokyo, Japan, bishop of the active foreign missions of the Episcopal church, is visiting his brother here. He said: "Japan is exceedingly anxious to fight Russia. Of the people of the mikado's realm nineteen-twentieths are eager to fight and if it were not for Japan's foolish pride about borrowing money she could win in a struggle with Russia."

Chicago Great Western Statement.

Chicago, Sept. 6.—At the annual meeting of the Chicago Great Western railway held here yesterday all the old officers were re-elected. The annual statement for the year ending June 30 shows: Gross receipts, \$7,013,861; operating expenses, \$4,831,515.

Strikers Use Winchesters.

Earlinton, Ky., Sept. 6.—The tipple of the Carbondale Coal company was fired into yesterday, some 30 shots being fired. The shooting was done with Winchesters. Two railroad treaties were burned last night, destroying the connection of the Crabtree and Carbondale mines with the main line of the Illinois Central. The mines are closed for want of men.

Several residents in the vicinity of Mound City, Ill., report having seen a wild man in the woods between that town and Beechwood. He flees at the sight of other human beings, and is said to have outrun fleet horses ridden by pursuers.
