The Weather.

Forecast for Nebraska: Showers this afternoon and in east portion tonight. Cooler west portion tonight. Saturday fair.

FRIDAY FACTS.

The county fair will have its big day tomorrow. Today's rain made the track heavy and the good events are postponed. Exhibits will be kept.

There will be a rehearsal Saturday evening at 7:30 at the Congregational church of the Sunday school exercises that are to be held Sunday morning.

The people of York are now engaged in pearl fishing, pearls having been discovered in clam shells in Beaver creek. Some of them are very good quality and are bought by the local jewelers, who pay as high as \$2.50 apiece.

The ladies of the M. E. Aid society were probably more successful, or unsuccessful, than they knew in choosing a day for their "unlucky social" to be given tonight at the home of Mr. and Mrs. C. S. Hayes. Friday, the 13th, is a combination that might well daunt the bravest. The rain is the most unlucky thing for the social that has yet developed.

The Monroe Republican says the farmers with irrigated corn in that vicinity are now through their season's work until the time for picking the crop arrives. All those using water are pleased with the results, the only drawback being in understanding how to handle it properly. This difficulty will be overcome in a few years and irrigation reduced to a system.

Wayne Republican: A story is told on President Pile of the college that fully illustrates the potato situation in this town: A few evenings since the gentleman telephoned his grocer: "Send up ten bushels of potatoes." "Ten bushels of potatoes! Why, there ain't that many in the county!" replied the astounded grocer. "Well then send up a bushel," said Mr. Pile. "The fact of the matter is, professor," replied the grocer, "that there ain't a bushel of potatoes in the city." At this the now thoroughly alarmed school man said: "Well, for humanity's sake send me up a quart for supper!" But the students went without potato sauce.

About fifty Norfolk people went to Wayne yesterday to take in the county fair. They were particularly attracted by the announcement that there would be a swift horse race but bring back the report that it was a decided frost and they were sorely disappointed. The track was in good condition and a horse that did a mile in 2:14 at Lincoln was given the race, the best time made being 2:30. The opinion formed was that it was all fixed beforehand. One of the gentlemen who went over said he could find more genuine enjoyment in the speed put up by Norfolk colts under training. He was of the opinion that there were not more than 250 people on the grounds.

With Sunday the conference year of North Nebraska Methodists closes and after the session at Neligh a new year will be entered upon. The Norfolk Methodists are closing a very pleasant and harmonious year under the pastorate of Rev. G. H. Main, who has served them five years in that capacity. This was at one time the limit, but a recent session of general conference has extended the time and he may return to Norfolk if the bishop sees fit to appoint him for another year. Mr. Main has many warm personal friends both in and out of the church and it is hoped by them that he will again be stationed here. He has given excellent satisfaction and "wears" well, as is attested by his long service.

Another pretty ball game was played at Creighton yesterday between the Norfolk and Creighton teams, the score resulting 7 to 3 in favor of Norfolk. The batteries were: Norfolk, Bucklin and Wilkins. Creighton, F. Fosberg and Carroll. Time of game 1:30. Un-

pire, Elmer Finson. Struck out: By Bucklin 6, by Fosberg 5. Bases on balls: Off Bucklin 2, off Fosberg 2. Wild throws: Fosberg 2 Hit by pitched ball: By Bucklin. Passed balls: Carroll 2. There were but three safe hits: Rowe, Turner and F. Fosberg. The attendance was but 189. The game at Verdigris Sunday is for \$25 and gate receipts. Tonight the Creighton people will entertain the Norfolk boys at a dance, given in their honor.

Nebraska City society is also devoted to the enjoyment of bowling and the enthusiasts of that town are producing some very good scores. Mr. Randall of that place recently made the score of 247. Of his achievement the Tribune says: "It is the story of seven successive strikes. More than that, the crossbucks were followed by a spare, a strike and the only break in the ten frames, which came in the last inning. Randall did not get less than nine pins on any first ball rolled. With 150 in the first half, he was urged on to a 300 gut and kept it up until the seventh, when he bowled down only nine on the first ball but spared on the second. Then followed a clean out strike and then a miss, which told the tale of the most sensational game in Nebraska City. Randall has an almost faultless delivery and a speedy ball, although he has lacked accuracy and steadiness. Last evening's exhibition demonstrated the value of practice. Garver has held the city record at 245 previously and George W. Leidigh thought his 237 was good for a monthly prize, but Randall will undoubtedly feel secure for a few days at least."

A. O. U. W. RECEPTION.

Lodge Receives Visit From Grand Master Workman Jaskalek.

There was a good attendance of Workmen last night at the special meeting of the lodge to meet Grand Master Workman Jacob Jaskalek of Omaha and they were well repaid for attending. They found the grand master very congenial company and were the ready captives of his prepossessing ways. They only hope that the feeling was to some extent reciprocal and that their distinguished guest will carry home a good impression of Norfolk lodge No. 97.

Mr. Jaskalek, though not claiming to be an orator, early in the evening gave evidence that he was capable of making a heart to heart talk and left a more favorable impression with the members than could be accomplished by many flowery speakers. He is full of enthusiasm for the order and has a way of imparting this quality to his hearers that had a noticeable effect and his visit will undoubtedly materially benefit the local lodge.

He presented some arguments for membership in the A. O. U. W. that were easily comprehended and most powerful. He considers that the death benefit is of minor importance; that the cost of maintaining membership is fully repaid by the fraternal features of the lodge, and gave a very clear and concise statement of the slight cost of maintaining membership. He considered the proposition at the maximum. Taking the 15 years that Nebraska jurisdiction has been organized a man belonging during the entire 15 years would have paid out \$158 in assessments. Local lodge dues would have cost him at \$1 a year, \$60. In relief calls he would have paid \$17.45 and for per capita tax \$15.50 or a grand total of \$251. This is at the highest possible expense, which none of the original members have ever been called upon to pay. It makes quite a respectable sum but lacks a great deal of the \$2,000 the member's family would receive at his death and figured to a fine point is about 4 1/2 cents a day or less than the cost of a cigar. The fraternal features of the order are easily worth the cost of a cigar a day and with a good \$2,000 beneficiary certificate thrown in, is well worth many times that amount. The man who would not take advantage of such an opportunity to enjoy fraternity and protect his family is surely not much of a citizen or father or husband. The denial of a cigar a day will pay the expense and a man must be exceedingly selfish who would not do that.

When he had finished speaking and Deputy Grand Master Workman F. F. Miller and other members of the lodge had paid their respects to the order, refreshments of ice cream, cake and fruit were served and the cigars that followed were enjoyed in a social manner until adjournment.

It was an enjoyable and profitable evening for Norfolk Workmen and those present extend their sympathy to the absent members and those who do not enjoy the privileges of the order.

An Important Question Answered.

Are you asking the question—how can I at a reasonable expense get the most warmth, comfort and satisfaction in the heating of my home, my store or my office this winter? Any one of the long list named below will tell you they have found a satisfactory answer to this question in the use of a MARION RETORT OAK HEATER, sold to them by a former Norfolk dealer, O. D. Hamstreet, and now sold exclusively by G. E. Moore. Ask them further and they will tell you that with a Marion Retort Oak they get a steady fire NIGHT AND DAY THROUGHOUT the season—that they can regulate it perfectly to suit moderate weather or extremely cold weather. They will tell you that in point of ECONOMY IT CAN BE RUN FOR LESS THAN ANY OTHER STOVE they ever used—burning ANY KIND OF COAL, EVEN CHEAP SLACK, and they will further testify to its being the CLEANEST STOVE IN USE, for the reason that its combustion is so perfect that no dust or soot accumulates, it taking a week to make an ash pan full of ashes. DON'T BE DECEIVED into buying some "so called" Retort Oak of some other make. They are imitations lacking the important feature of the Marion Retort which is covered by a patent. No other stove is made like it. The following is a partial list of individuals and firms in and about Norfolk who are using the stove. Ask them about it.
