Pawnee Bill's Wild West Exhibits in Norfolk Today.

BIG GROWDS IN ATTENDANCE.

The Street Parade a Lengthy and Very Attractive Feature of the Original American Show—A Big Institution.

From Saturday's Daily:

Pawnee Bill's Wild West show arrived early this morning from Wayne over the C. St. P. M. & O. The small boys were not slow in finding that the trains bearing the big aggregation had arrived, and they soon swarmed around the tracks, where the army of employees were engaged in unloading the wagons, animals and other parts of the show.

Then the Indians, Arabians and cowboys, and the herd of genuine Texas steers in the procession, gave the whole scene a genuine wild west appearance. This feature alone was inspiring and catchy, and created a desire in the mind of all who witnessed it to go out to the big show and see the whole performance.

In the procession were several bands of music which played catchy airs which added to the inspiration of the scene, and the only feature about the whole line of attractions which resembled the old time circus, was a steam calliope, which played at frequent intervals.

Quite a number of people from this vicinity were at Norfolk Saturday to see the show.

Now that the rain manipulator has returned from an extended summer vacation he is working overtime and in his energy may overdo the thing, as he did in June. Last night was another rainy night and the downpour continued at intervals all morning so that the streets are thoroughly muddy, and the water is beginning to stand in pools in hollow places.

Last evening a half-paralyzed stranger expressed a desire and a determination to commit suicide. Officers Conley and Kane were cognizant of his intentions and followed him to the union depot where they took two 2-ounce bottles of landannum from him and placed him in jail over night. This morning he was released after expressing a desire to leave town. He gave as a reason for wanting to suicide that he was practically helpless on account of paralysis and that his friends had deserted him.

John Quick has returned from Salt Lake, Utah, and will resume work in the round house at the Junction.

Misses Lillian and Stella Luikart departed yesterday noon for Oxford, Ohio, where they will enter Western college.

The ball team will play at Creighton on Wednesday and Thursday of this week and on Friday will play a game with Grand Island at Madison.

The rain kept right at work Saturday night and Sunday but the ground has absorbed all that fell, indicating that it was dry for a considerable depth below the surface.

A foot ball team has been organized in the High school with John Wellis as captain. The first game is scheduled to take place on the home grounds with Columbus on October 12.

If the weather does not clear up with a frost there will be some choice fall pasturing within a few days, and millet, cane and other fodder will make excellent feed for the winter.

N. A. Rainbolt came home yesterday from his trip to Wisconsin, where he had been to look over the country. He expressed himself as very favorably impressed with the land of that state and the prospects for development. He secured some fine fish during his trip.

Thomas Gibney, a painter at Hartington, fell from the roof of the High school building at that place Thursday morning. He fell to the ground, a distance of 30 feet, striking on his back and it is feared that he has received injuries from which he cannot recover.

Pierce Leader: Wm. Roberts, the young man brought over from Wayne last week to answer a charge brought against him by Minnie Niemann, compromised the suit by marrying the girl, the ceremony being performed by the county judge at his office last Saturday afternoon.

The annual business meeting of the Baptist church will be held tonight and arrangements for the entertainment of the northeast association of the B. Y. P. U. for the latter part of the week, at which eleven churches will be represented, are to be made. All members of the church are requested to be present.

A young man named Claude Cole was brought up before police court Saturday on the charge of drunk and disorderly conduct and was given a ten-days' sentence which he is now serving. He would probably have got off with a lighter sentence but indicated a disrespect for the majesty of the law and its officers that could not be brooked.

The officers stopped the only thing that might be termed a graft in connection with the Wild West show Saturday without making an arrest. A wagon near the entrance to the grounds was selling tickets at 60 and 30 cents whereas the main wagon was selling them at 50 and 25 cents. The officers requested the first mentioned wagon to go out of business but they refused and were somewhat defiant. The officers then posted themselves nearby and directed the people to the second wagon near the entrance to the tent. The man with the advanced price soon concluded that he might as well comply with the officers' request and shut up shop, which he did.

Pawnee Bill's Wild West made a good impression in Norfolk Saturday night by carrying out its entire program in spite of the heavy downpour of rain that prevailed during the entire time of performance. The sympathy of the audience was with the performers who were compelled to give their acts in the disagreeable weather which quickly covered the ground with water that was soon churned into mud. The audience, which was a large one considering the weather, was quite well protected from the rain by the canopy, the front seats only being affected. When the audience had moved to the higher seats in the rear they were amply protected until the show was out, then there was a mad scramble through rain, mud and water for the protection the homes offered from the elements. The attaches of the show kindly directed the dispersing audience to the best paths to the sidewalks. The show loaded up that night and proceeded to Albion where the show will exhibit today.

Stanton Picket: When Jailor Edwards went to the county jail this morning he found it empty, whereas the night previous it contained a prisoner, Paul Adel, the young man from the south side of the county, arrested on the charge of stealing wheat, the doors to the corridor fasten with three pad locks. These were all in their proper places and securely locked when

the flight of the prisoner was discovered. It is certain that the prisoner must have escaped through the doors, and it is equally certain that he did not do so without the doors were first unlocked from the outside. The question then arises who unlocked them; who, aside from the sheriff and his deputy has keys to fit three different Yale patent locks? Then again why did they carefully replace bolts and fasten the locks in their proper places? Why did they not conceal the locks, leave fling or something to make it appear that the work might have been otherwise than with a perfect fitting key? The delivery is a mystery and all theories are merely conjecture. This much is certain, the man is gone, and if anyone knows where, they are not telling it.

BASE BALL TO CONTINUE.

Season Will Close With a Three-Days' Tournament.

At a meeting of the base ballists Saturday it was decided to continue the organization until the first of October and some good games are yet in prospect for the enthusiasts of Norfolk. Owing to some difficulty about the grounds and there not being money enough in the treasury to pay the players their salaries several of the leaders were in favor of disbanding the club and concluding the season. Manager Spear of the Auditorium didn't like the season to close in that manner, however, believing that it would look bad for Norfolk and would work against base ball games for future seasons. He therefore called into consultation Captain Wilkins and other members of the team and secured their agreement to his plans, which was that he and Mr. Wilkins would guarantee the board of members of the team and divide the gate receipts pro rata after the expenses of the games were paid, thus agreeing to waive their salary contracts, acting on the theory no doubt that it was better to accept what the amusement would warrant than to be under contract at salaries and not be paid.

This shows a desire on the part of the boys to do the right thing by Norfolk and it should be made the earnest endeavor of the citizens to see to it that the gate receipts will warrant a fair division among the players.

Messrs. Wilkins and Steele expect to engage in business here and are interested in having Norfolk's reputation as a ball town upheld for the benefit of future seasons.

Satisfactory arrangements have been made for grounds up to the close of the season and good ball will be given. Arrangements have been made for a three-days' base ball tournament during the last of the month when Kearney will be one of the teams to contest for the honors and other good teams from different parts of the state will enter.

Card of Thanks.

On behalf of Norfolk camp, No. 492, M. W. A., we desire to express our thanks to the business men and citizens of Norfolk who so liberally subscribed to defray the expenses of a picnic to be given by the Norfolk camp. Owing to the lateness of the season the Woodmen have decided to defer the holding of a picnic this fall but will possibly undertake it next summer.

TUESDAY TOPICS.

C. G. Dolan was over from Randolph yesterday renewing Norfolk acquaintances.

Miss Bender is home from Chicago, where she purchased fall and winter millinery.

Miss Esther Mason went to Creighton today and will give an elocutionary recital tonight.

Arthur Koeningstein has gone to Chicago to resume his studies, after spending his summer vacation with his parents in Norfolk.

The merry-go-round was taken down yesterday and this morning was removed to Wayne where it will remain during the Wayne county fair.

Dr. A. E. Scohee who recently went from here to California to practice osteopathy, didn't like the state and is now located in Maquoketa, Iowa.

The rainfall up to Sunday night, when the rain ceased, was 4.75 inches for the month. All but a fraction of an inch of this has fallen in five days, from the 4th to the 8th. The weather bureau promises more and it is likely that September will have fall as many honors as June for a wet month.

The county fair which opens at Madison today promises to be very entertaining and there will undoubtedly be a large attendance if there is no more rain to interfere with the program. The trials of speed will probably be very interesting if the track is not too heavy. Tomorrow's program includes a 2:30 trot or pace at 2 p. m. for a purse of \$100, mile heats to harness, best three in five; a walk, trot and running race at 2:45, half mile each gait, purse \$10; half-mile running race at 3:45 for a \$50 purse, free-for-all catch weights, best two in three.

Company L, N. N. G., Captain Alfred Gerecke, commanding, left this morning over the F. E. & M. V. for Old Fort Omaha where they will join the other companies of the two regiments and go into a camp of instruction for the next ten days. About 40 members of the company went and two special cars were provided by the railroad company for their accommodation. The company was regularly equipped for the ten-days' stay and the members were in a happy mood. Col. E. H. Tracy of the Second regiment also went down this morning to attend to his duties in connection with the camp.

Norfolk members of the Sons of Herman will perhaps be interested in knowing that their grand president, Fred Volpp of Wayne, is a candidate for reelection as county treasurer. He has served in that capacity during the past two years, and if reports from the county on the north are to be relied upon he has given the best of satisfaction and there is every probability that he will be re-elected. Besides being the grand president of the Sons of Herman of Nebraska he stands high in A. O. U. W. circles, where he has thousands of friends who would be glad if they could acquire a residence in Wayne county long enough to cast their ballots for Fred Volpp. He is one of nature's noblemen and it is probable that a more honest, conscientious officer never presided over the funds of a county than he.

Utah an Ideal Climate. The first white man to set foot on Utah soil, Father Silvestre Velez de Escalante, who reached the great Salt Lake on the 23rd day of September, 1776, wrote in his diary: "Here the climate is so delicious, the air so balmy, that it is a pleasure to breathe by day and by night." The climate of Utah is one of the richest endowments of nature. On the shores of the great Salt Lake especially—and for fifty miles therefrom in every direction—the climate of climates is found. Toenable persons to participate in these scenic and climatic attractions and to reach the famous health, bathing and pleasure resorts of Utah, the Union Pacific has made a rate to Ogden and Salt Lake City of one fare for round trip, plus \$2.00, from Missouri river, to be in effect June 18 to 30 inclusive, July 10 to August 30 inclusive. Return limit October 31, and \$20.00 for the round trip on July 1 to 9, inclusive, September 1 to 10 inclusive.

Proportionately low rates from intermediate points.

FAIR POSTPONED.

Madison County Exhibit Set Back One Day by the Weather.

A telephone message this morning from George R. Wyckoff of Madison, treasurer of the Madison County Agricultural society, is to the effect that the fair has been postponed for one day on account of the weather. Today's program will be carried out tomorrow, tomorrow's program Friday and Friday's program Saturday.

Entries will be received today, and tomorrow the association expects to make the finest exhibit ever shown in the county. Mr. Wyckoff states that there are more exhibitors than ever before in the history of the society and that there will be double the number of fine hogs on exhibition.

There were never better prospects for an excellent fair and those who attend will be amply repaid. The clearing weather today will undoubtedly place the grounds in fine condition by tomorrow and the officers feel warranted in promising those who attend a splendid entertainment.

Oil for the Children.

Give them oil—cod-liver oil. It's curious to see the result.

Give it to the peevish, fretful child, and he laughs. Give it to the pale, anemic child, and his face becomes rosy and full of health. Take a flat-chested child, or a child that has stopped growing, give him the oil, and he will grow big and strong like the rest.

This is not a new scheme. It has been done for years. Of course you must use the right oil. Scott's Emulsion is the one.

Scott's Emulsion neither looks nor tastes like oil because we are so careful in making it pleasant to take.

Send for free sample. SCOTT & BOWNE, Chemists, 409 East St., N. Y.
