When a Man Can See 200 Miles. About 200 miles in every direction is the distance a man can see when standing on a clear day, on the peak of the highest mountain—say, at a height of 26,668 feet, or a little over five miles above the level of the sea. An observer must be at a height of 6,667 feet above sea level to see objects at a distance of 100 miles. The distance in miles at which an object upon the surface of the earth is visible is equal to the square root of one and a half times the height of the observer in feet above the sea level.

Some allowance has to be made for the effect of atmospheric refraction, but as the refraction varies at different heights and is affected by the various states of the weather no precisely accurate figures for general purposes can be given. Probably one-fourteenth to one-tenth of the distance given by the formula would have to be deducted, owing to the refraction of the atmosphere.

What to Read. Read the good old books that have lived and held their own by the vitality of matter and style that makes them standards. Don't read a lot of new books about the Bible. Read the Bible, and then you will understand what you may afterward read about the Bible. Read Shakespeare, not controversies on Shakespeare; read Scott and Thackeray and Dickens and George Elliot. Do not be content with a short history of literature that tells you their best works and makes a few disconnected extracts and tells you their standing and what you should think of them.

Read intelligently and with interest, and every book you read will guide you to the next that is good for you personally far better than a strange mentor can do, who is often full of theories and prejudices or perhaps has got up a course of study as a "spot boiler" and has no real love of his subject.

Horses' Sunbonnets. The wearing of sunbonnets by horses in hot weather is by no means a modern invention. In an old Italian print, dated 1542, a gentleman is shown riding on horseback with an umbrella fixed over his own head and another over that of his horse. In Mexico horses are often protected by a small parasol fixed over the head, and a horse similarly accommodated has lately been seen in Regent street. Unfortunately the headress annoyed the conventional horse in the street, and it came very near causing more than one disaster on the way to Langham place.—London Chronicle.

Emma Goldman Attends Services. Chicago, Sept. 20.—Emma Goldman attended memorial services held in honor of the memory of the late president yesterday. It was not of her own will that she was present at the demonstration of sorrow, and her course appeared to show lack of sympathy. The ceremonies at which Miss Goldman was present were held in the woman's ward of the county jail. Rev. E. A. Larrabee of the Church of the Ascension conducted the services, and 200 prisoners participated in them. Many of the prisoners manifested great grief as the services proceeded.

Thousands Attend the Memorial Meetings in Lincoln. Lincoln, Sept. 20.—Memorial services for the dead president were held at the Lindell auditorium, into which over 5,000 people crowded, while nearly as many more clamored for admission. Overflow meetings were held at two nearby churches and practically the whole of yesterday afternoon was occupied in the exercises. There was almost an entire cessation of business throughout the day. The Auditorium services consisted of music, prayer and eulogies. Governor Savage presided, speaking briefly, and was followed in turn by Rev. Fletcher Wharton, G. M. Lamberton, R. M. Bushnell, Rev. Lewis Marsh, Chancellor E. Benjamin Andrews and W. J. Bryan.

EXPULSION OF VETERAN FROM POST. Mitchell G. A. R. Takes Prompt Action on Member Who Maligns the Dead. Mitchell, S. D., Sept. 20.—At a special meeting of the Grand Army of the Republic last night C. F. Dutton, an old soldier, was expelled and dishonorably discharged from the post by a unanimous vote. Dutton, the day after President McKinley's death, said in substance that he was glad that the president was dead, and that the country would be better off if 30 or 40 more were drawn up in line and shot or taken on a boat into the middle of the ocean and drowned. His expression nearly brought him violence, but his age and infirmity saved him any personal damage. Dutton draws a pension of \$12 a month from the government.

SHELLSBURG BANK BLOWN UP. Four Dynamiters Fight Off Townspeople and Escape With \$2,700 in Cash. Shellsburg, Ia., Sept. 20.—The Shellsburg bank was robbed at 7 o'clock yesterday morning by four men, who effected an entrance through a window. Two charges of dynamite were used on the safe. The noise aroused the townspeople and the robbers fled with \$2,700 in cash, standing off the citizens with revolvers until they escaped on a handcar, going south. Two possees are in pursuit and it is thought will round up the gang in the woods, as the car was abandoned at Linn Junction. The men are well armed and a fight is expected.

Telegraph Silent at Funeral Hour. Chicago, Sept. 20.—One feature absolutely unique in history characterized the McKinley obsequies. It was the silencing of the telegraph. Never before has there taken place, it is said, anything paralleling even in a small way what was done yesterday on a scale that was gigantic. Upon orders from the officials of the different telegraph companies, or upon the common impulse of the operators where instructions were not received, the entire telegraph system of the United States was suddenly hushed for five minutes, at 2:30 p. m., the hour set for lowering the president's body into the grave at Canton.

Wheels at Des Moines Are Stopped. Des Moines, Sept. 20.—Every business house, every factory, all the railroad shops and the street car lines suspended operations a portion of yesterday in connection with the memorial exercises. A cold, drizzling rain to some extent prevented a large attendance at the various churches, halls and auditoriums where special exercises were held. The principal service was held in the new Auditorium, where Congressman J. A. T. Hull delivered an address on "McKinley, the Patriot." Each hour of the day was represented by a special service in different churches.

The Blood Healthy or Diseased

When there is a natural and healthy circulation of the blood, the entire quantity, estimated at one-eighth the weight of the body, passes through the heart every five minutes. This rapid flow of the blood through the system prevents the entrance of disease germs and impurities of every description. It filters out all that is not necessary or good for the growth and development of the body and nourishing and strengthening the muscles, tissues, nerves and bones. But, unfortunately, few persons can rightly claim an absolutely pure blood supply and perfect and unpolluted circulation, and in consequence are exposed to innumerable diseases. Contagious Blood Poison, the greatest enemy to mankind, enters the system through the blood, and Cancer, Scrofula, Rheumatism, Catarrh, Eczema, Salt Rheum, Psoriasis, Tetter—in fact the majority of human ailments—are caused by poisons or humors that are engendered and fostered in a sluggish and impoverished blood. Old sores, chronic ulcers and rheumatic pains are common, especially among old people, whose blood naturally grows thin and pale because of the lack of the red corpuscles that give color and strength to youthful blood. Sallow complexions and rough, oily skins evidence some constitutional or blood trouble, which salves, lotions, powders nor any external treatment can cure. Diseases that originate in the blood, whether they manifest themselves as ulcers, tumors, itching eruptions, muscular or bone pains, require a tonic and blood purifier such as S. S. S., which not only antitoxins and neutralizes blood poisons and humors, but possesses health-giving tonic properties that no other blood medicine does. It goes down to the very foundation of the disease and eliminates from the system everything of a poisonous character or that obstructs and clogs the circulation. It builds up and imparts new strength and vitality to the old inarticulate blood, and when the arteries and veins are once more filled with new rich blood, the general health begins to improve, muscles grow stronger, and sores and eruptions of every kind disappear. S. S. S. is the only guaranteed purely vegetable blood purifier, and the purest and most reliable in all blood diseases. It has been tested in thousands of cases during the past fifty years and is more popular today than ever. We will be glad to send you our book free, and if in need of medical advice write our physicians all about your case; this information will cost you nothing and comes from experienced and educated doctors. All correspondence is conducted in strictest confidence. THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.
