Therefore while the people of this section suffered quite a serious drouth this year it is probable that the rainfall was in excess of the average, contradictory as it may appear.

The people of Norfolk should go away from home to learn all the news regarding the asylum fire. The audience that greeted Madame Mrs. Fred Lundberg also welcomed an de Tourney and her company at the Auditorium last night was quite small owing largely no doubt to the disagreeable and rainy weather. Those who were there were sincerely sorry that the performance could not have met with a better reception, as it was excellent in many particulars. The play presented was "Mary Stuart, Queen of Scots," Madame de Tourney taking the leading role in a most impressive and satisfactory manner. She is undoubtedly the best actress that has appeared in Norfolk, and her presentation of the character was most perfect. The costuming of the company was fine and the stage settings very good. Eugenie Whipple, as Queen Elizabeth, also took a very good part. It is probable that A number of friends assisted Mr. and no more impressive scene has been enacted here than the interview between the two queens in the third act, where the proud queen of Scots humbled herself repeatedly before her arrogant kinswoman and received naught but ridicule and abuse until her temper gave way, when she replied with a biting sporn and irony that made her successful rival writhe in anger. The doomed spring. neen's farewell to her servants wa also very affecting. The play is repeated tonight and the building should be crowded. The company's honest playing before the scant audience of last night certainly deserves its reward in a crowded house tonight.

Don't tilve Up the Ship.

Somewhat more than 50 years ago it happened to me to meet at the house of a mutual friend a daughter of the late Major Benjamin Russell, for many years editor of the Boston Centinel She was a bright, interesting woman and a brilliant raconteur, and she told me a number of ancedotes of her father, who was a strongly individualized and notable character for a good many years. Among them was the follow

It was in the night, and he went straight to The Centinel office, where he found Major Rus sell, to whom he told the story, includ ing the death of Lawrence.

"What were his last words?" said the major.

"Don't know," said the man, "Didn't he say, 'Don't give up the ng a term of school in the district near ship?

Memories of a Waltz. "Did you ever try to dance with a foreigner?" asked a Louisville gentleman who had been traveling abroad. "I did once," he continued, "and that experience was more than enough for me. It happened at a hall at Musta pha, at the Hotel St. Georges. I asked an Austrian countess to waltz, and when we started I supposed we would

dance in the leisurely American fash ion. The countess had a different idea in her head. She preferred to whirl madly like a dervish on a space that could be covered with a parasol, and on account of her superior strength I clung to her, and we began to spin. "Finally, when it seemed to me that

we were performing our antics on the ceiling with our heads hanging down I could stand it no longer and, gasp ing for breath, suggested that we sit down. I saw two chairs galloping around the room and prepared to catch to Ponca last Thursday evening to spend them on the next lap. We steered for them, I clinging helplessly to the athletic lady and then we sank down. sat dazed and almost insensible until I was aroused by the countess saying: "'Excuse me, but we are sitting on the same chair." - Detroit Free Press

Our First Postal Rates.

The first law of congress fixing rates of postage went into effect on June 1 792, with rates as follows:

Not exceeding 30 miles, 6 cents. Over 30 and not exceeding 60 miles cents. Over 60 and not exceeding 100 miles,

10 cents. Over 100 and not exceeding 150 miles, 12% cents.

Over 150 and not exceeding 200 miles, 15 cents. Over 200 and not exceeding 250 niles, 17 cents.

Over 250 and miles, 20 cents. Over 350 and not exceeding 450

miles, 22 cents. Over 450 miles, 25 cents.

It would seem that postmasters of that day must have been greatly per plexed in adjusting the rates on each letter under such a diversified schedule as the above. The weight limit was one ounce (single), but a single letter was a single sheet, two sheets double three sheets triple, four sheets a quadruple letter, even if the whole four did not exceed an ounce.

A Shock For Carlyle. Thackeray once told Sir John Millau

this amusing story of Carlyle: He had spent a day in the reading room of the British museum and had given a great deal of trouble to one of the officials, sending him up and down ladders in search of books to satisfy his literary tastes, and on leaving the room he had gone up to the man and told him that it might be some satisfaction to him to know that he had obliged Thomas Carlyle. The official hesitatingly answered him, with a bland smile and the usual washing of bands in the air, that the gentleman had the advantage of him, but that probably they might have met at some mutual friend's house. He had never beard of Thomas Carlyle.

Elephant and Train.

A big and ugly elephant which had long been an object of pursuit to the sportsmen of the Straits Settlements one day wandered on to the railway line and tried conclusions with the engine of a goods train, charging it repeatedly and keeping up the contest for nearly an hour. The engine was reversed in the hope that the beast would allow the train to proceed, but as soon as there was any attempt to renew the journey the elephant returned to the encounter and resumed its obstructive tactics. The driver was afraid to charge the brute, lest the train should be thrown off the rails, and the contest might have gone on much longer had not the elephant backed into the engine and, setting its fore feet firmly between the rails, endeavored to shove the train backward with its hind quar
