

BIG STAKE GOES TO GEERS

Transylvania at Lexington Won by Onward Silver.

GREAT DRIVE IN THE STRETCH.

Last Heat Was a Magnificent Battle, Only a Short Neck Measuring the Victory—Improbable Wins the Two-Year-Old Futurity for Pacers.

Lexington, Ky., Oct. 11.—After trying for seven years, Ed Geera yesterday landed a Transylvania stake, urging Onward Silver, tired from several fast heats, to his top speed, following one of the most sensational drives through the stretch in the recollection of veterans, he captured the first money in the \$6,000 event. The last finish was thrilling, only a short neck measuring the victory. After the fifth heat, all save Onward Silver and Chain Shot, with two heats each to their credit, and Susie J. with one heat, had retired to their stables.

When the three champions were driven onto the track for the final test, twilight was settling. Onward Silver was still favorite at \$50, field at \$25. They were sent off to a good start on the second attempt, Chain Shot leading by half a length. Susie J. took the lead at the turn, with Chain Shot and Onward Silver closely following. At the quarter Susie J. had increased her lead to a length and a half, Chain Shot two lengths ahead of Onward Silver. The distance had been covered in 34 seconds. Two lengths separated them at the half, reached in 1:06. Onward Silver began to gain. He was three lengths to the good of Chain Shot at the three-quarters pole, which was passed in 1:40. Then began the race home. Chain Shot spurred and the space between all three decreased. Susie J. maintained the lead, but Onward Silver was going slightly faster as they passed the distance flag. Then came a furious drive to the wire, all three of the pilots whipping. Twenty yards from the wire Onward Silver was on even terms with the roan mare and as he reached the wire her nose was at his throat latch. Chain Shot was three lengths behind. The time was 2:13, the same as in the previous heat.

The 2-year-old pacer futurity was won by improbable, a long shot, Miss McClintock being the heavily played favorite.

The Abbot made an unsuccessful attempt to break the world's wagon record, covering the mile in 2:06 1/2.

DEMOCRATIC PILGRIMAGE.

St. Louis Club on Excursion to Jefferson's Tomb in West Virginia.

St. Louis, Oct. 11.—The Jefferson club, a local political organization, began an extraordinary pilgrimage to the tomb of Thomas Jefferson, at Charlottesville, W. Va., when its special train of 11 coaches drew out of Union station last night to the inspiring strains of the national anthem. The excursionists numbered 250, all ardent believers in the Jeffersonian principles of government by the people and they go to the old dominion to lay their tributes of devotion at the shrine of Democracy. They carry with them a monument of Missouri granite, which will be erected at Monticello to commemorate the visit of the organization. Among those who took passage on the special were former Governor Stone, Mayor Wells and Lieutenant Governor Lee.

Miss Anthony Defeated.

New York, Oct. 11.—Only four players now remain of the four score of women golfers who entered for this year's national golf championship. The four players are Miss Margaret Curtis, Miss Lucy Herron, Miss E. A. Manice and Miss Genevieve Hecker. The feature of the day's play was the defeat of Miss Bessie Anthony of Chicago by Miss Margaret Curtis of Oakley, Mass. They are respectively the champions of the Western and Boston Golf associations. It was a close match and the players had to go on for an extra hole before the game was won.

Marquis Ito Ill in Chicago.

Chicago, Oct. 11.—Stricken by recurrent retraction of the heart, a malady to which he has long been subject, Marquis Ito, formerly premier of Japan, is confined to his room at the Auditorium Annex. His condition is such that his attendants are much distressed concerning him. All plans for the visit in Chicago were laid aside and no arrangements were made for the continuance of the journey. F. Koyama, the marquis' physician, announced last night that the nobleman's condition was less hopeful than during the early part of the journey.

Important Mining Suit Settled.

Rapid City, S. D., Oct. 11.—The Holy Terror Mining company yesterday settled with P. B. McCarty of this city for a judgment of one-eighth interest in the Holy Terror and Keystone No. 4 mining claims, McCarty getting \$10,000 and the company's note for \$14,000. This has been the most important mining suit ever tried in the Black Hills. The question raised was whether or not a man could relocate his partner out of mining claims.

Green Gets Decision Over Ryan.

Kansas City, Oct. 11.—George Green of San Francisco got the decision over Tommy Ryan in the sixth round of a bout at a local club last night. Ryan was the aggressor and had slightly the better of the fight, which was hotly contested, until the sixth round, when the referee gave the decision to Green, disqualifying Ryan for striking Green while on his knees.

CONDITION OF CROPS.

Lowest October Average for Corn Ever Recorded.

Washington, Oct. 11.—Following is the monthly report of crop conditions issued by the statistician of the department of agriculture:
The monthly report of the statistician of the department of agriculture shows the average condition of corn on Oct. 1 to have been 52.01, as compared with 51.70 last month. The reports from Indiana, Illinois, Missouri, Kansas and Nebraska are more favorable by 2 points, those from Ohio by 3 points, and those from Iowa by 4 points than the reports received from these states last month. On the other hand, with the exception of Texas, where there is no appreciable change of conditions, the entire south reports somewhat lower averages than on Sept. 1. The average for the entire country is the lowest October average ever recorded.

No further report on wheat will be issued pending the receipt of the annual returns of individual producers and the final reports of the department's special agents.

BRIDEGROOM COURTS DEATH.

Albert Farris Shoots Himself at Omaha—W. N. Kenyon Ends His Life.

Omaha, Oct. 11.—Albert Farris, 23 years old, a bridegroom of three days, attempted suicide at his apartment, 2321 Leavenworth street, by shooting himself through the body with a pistol. The bullet entered just over the left nipple, penetrated the top of the left lung, passed within a fraction of an inch of the heart and made its exit under the left shoulder blade. The attending physician says his patient has rallied from the shock and unless some septic condition intervenes he will recover.

It is understood that Farris was impelled to suicide by remorse and fear of disgrace. Yesterday morning an officer arrived from Lincoln with a warrant for his arrest, charging irregularities in securing money on chattel mortgages. It was a few minutes after the document was served that Farris made the attempt upon his life.

W. N. Kenyon, a traveling man from Chicago, committed suicide in Hannam park.

The committee is composed of the presidents of the purity societies most prominent in the convention just closed. The members are: B. S. Steadwell, LaCrosse; Elizabeth S. Grannis, New York; O. Expect News From Miss Stone.

London, Oct. 11.—The Constantinople correspondent of the Times wiring yesterday, says: "The United States legation here confidently expects to receive news of Miss Stone today."

Dual Train Reaches Toronto.

Toronto, Oct. 11.—The Duke and Duchess of Cornwall and York reached Toronto yesterday and their entry into the city was marked by a great popular demonstration of welcome.

The battleship Wisconsin, which is to take Rear Admiral Casey to Tutuila, Samoa, to investigate the charges against Captain Tilly, has come out of the dock at Puget Sound and is practically in readiness for the long voyage.

Charges of misappropriation of funds of the American Home Finding association were filed against Rev. George K. Hoover, treasurer of the association, by the Rock River conference.

Curio Too Expensive.

Warts are curious things. They come and go mysteriously, although their going is frequently marked by expiring delays, and there are almost as many infallible cures as there are warts, the only trouble with these cures being that they are useless when applied to the particular wart you happen to have. They are only good for other people's.

"In my opinion," said a clubman, who was discussing the subject with a friend one day, "a wart is merely the outward correspondence of some mental exercise. Get rid of that, and it goes away."

"Let me give you a bit of my own experience," he continued. "Last year I went to Europe. For about three years I had had a wart on my little finger, on which I had tried everything I could hear of, but without effect. It only grew larger.

"Well, in the excitement of preparing for the trip and of the journey itself I forgot all about my wart, and when I looked for it about six weeks later it had vanished without leaving the slightest mark. I simply forgot it, and it had no mental condition to feed on. I see you have one on the back of your hand. Forget all about it for a few weeks, and it will go away of itself."

"Yes," said the other clubman, shrugging his shoulders, "but I can't afford to take a trip to Europe for the sake of erasing one wart."—Youth's Companion.

Giving Her a Lesson.

The habit of describing things as "awfully jolly" was amusingly satirized by a gentleman who came home prepared to chat on events of the day. An acquaintance had failed in business. He spoke of this incident as "deliciously sad." He had ridden in an omnibus with a friend whom he described as "horribly entertaining," and to crown all he spoke of the butler which had been sent before him at his restaurant as "divinely rancid."

"Why, dad, you are going off your head!" said his youngest and most impatient daughter.

"Not in the least, my dear," he said pleasantly. "I'm merely trying to follow the fashion. I worked out 'divinely rancid' with a good deal of labor. It seems to me rather more effective than 'awfully sweet.' I mean to keep up with the rest of you hereafter. And now," he continued, "let me help you to a piece of this exquisitely tough beef."—London Telegraph.

A Devoted Mother.

Although looked upon as vermin and destroyed accordingly, the weasel is a good mother and probably treats her young ones more kindly than many of her human enemies treat theirs. A weasel, carrying something in her mouth, was once seen to enter a hole in a straw, soon smoked her out. She then darted toward a stone wall, near which she was attacked by a terrier, which she vainly slew her. She fell an easier victim because of the burden she bore in her teeth. Anxious to see what this was, the onlooker went forward and found it was a baby weasel. The mother's nest in a hole close by had been plowed up, and she had been searching for another home. As her youngster could not run she carried it in her mouth rather than leave it to perish.

The Man Faced Crab.

One of the most singular looking creatures that ever walked the earth or "swam the water under the earth" is the world famous man faced crab of Japan. Its body is hardly an inch in length, yet the head is fitted with a face which is the perfect counterpart of that of a Chinese coolie, a veritable missing link, with eyes, nose and mouth all clearly defined. This curious and uncanny creature, besides the great likeness it bears to a human being in the matter of facial features, is provided with two legs which seem to grow from the top of its head and hang down over the sides of its face. Besides these legs, two "feelers," each about an inch in length, grow from the "chin" of the animal, looking for all the world like a colonel's forked beard. These man faced crabs fairly swarm in the inland seas of Japan.

A Sure Thing Sport.

A well known politician on setting out for a day's sport with a friend pointed to a large spaniel which lay apparently asleep in the hall and bet his friend a guinea he could not attract the dog's attention.

Red is a danger signal on the railroad on a fellow's nose and on a woman's face. Men and women use Rocky Mountain Tea and get genuine, rosy cheeks. 35c. Geo. B. Christoph.

Mrs. T. Bridgeman of Parshallville, Mich., was troubled with salt rheum for thirteen years and had tried a number of doctors without relief. After two applications of Banner Salve, her hands became better and in a short time she was entirely cured. Beware of substitutes.

Snider, of Crittenden, Ky., "it seemed it would strangle before we could get a doctor, so we gave it Dr. King's New Discovery, which gave quick relief and permanently cured it. People Believe In It.

It has been cynically said that anything can be sold by advertising nowadays. This is not so. Many liniments have been advertised but only one—Perry Davis' Painkiller—has stood the test of sixty years' use. Today its popularity is greater than ever and is based not upon what anybody says, but upon what the remedy does. There is but one Painkiller—Perry Davis'.

No External Symptoms.

The blood may be in bad condition, yet with no external signs, no skin eruption or sores to indicate it. The symptoms in such cases being a variable appetite, poor digestion, an indescribable weakness and nervousness, loss of flesh and a general run-down condition of the system—clearly showing the blood has lost its nutritive qualities, it has become thin and watery. It is in just such cases that S. S. S. has done some of its quickest and most effective work by building up the blood and supplying the elements lacking to make it strong and vigorous.
