

GOLDEN ADMITS HIS PART

Testifies He Entered Into Conspiracy to Kill Goebel.

YOUTSEY MAY TAKE THE STAND.

Rumored He Will Do So in Hope of Possibly Escaping His Life Sentence.

Georgetown, Ky., Oct. 18.—In the Caleb Powers case Mrs. Anderson, telegraph operator at Barboursville, Ky., identified several telegrams sent by Powers to men in the locality, instructing them how many men to bring to Frankfort.

The state's star witness, J. Wharton Golden, was then placed on the stand. Golden testified that it was generally understood among the mountain men that Goebel was to be killed and of a conversation he had with Governor Taylor, in which Taylor said: "What an awful thing it is to think of taking human life, but it looks like Goebel must die or we will be robbed."

Golden admitted that he entered into an agreement to procure the murder of Goebel. That he had offered \$500 to any man who would kill him and that he was under indictment under the charge of having entered into a conspiracy in murder Goebel.

It is rumored that Henry E. Youtsey will be put on the stand to tell all he knows about the affair as his only hope of escaping his life sentence. Arthur Goebel, however, says Youtsey will not be called by the commonwealth.

GIVES ADMIRAL SCHLEY A PLACE.

Navy Department Counteracts Effect of His Being Placed on Retired List.

Washington, Oct. 18.—The presentation of Admiral Schley's side of the controversy was continued before the court of inquiry, eight witnesses being examined. Of these five were ensigns and the entire eight had served on board the Brooklyn with Schley.

The first witness of the day was Lieutenant Charles Winslow. He was followed by Lieutenant Commander T. D. Griffin, who had charge of the powder division on the Brooklyn during the fight off Santiago, and he was succeeded by Ensigns C. A. Abele, John Halligan, Jr., Ulysses S. Grey, James M. Hand and Ralph N. Marble.

The last witness of the day was Medical Director Paul Fitzsimmons, who was chief surgeon of the flying squadron. While Ensign Halligan was on the stand, Mr. Rayner sought to bring out information as to the American ships in sight at the beginning of the battle of July 3, but Judge Advocate Lemly objected on the ground that the question was intended to show the absence of the New York and the Interrogatory was withdrawn.

Ensign Marble stated that he had heard Captain Sigbee tell Commodore Schley on May 26 that the Spaniards were not at Santiago.

There has been some inquiry as to Admiral Schley's standing in the navy since he was placed on the retired list because of age, but it appears that all question on this point has been settled by the department having assigned the admiral to "active duty at the court of inquiry" while it is in progress. This action was taken to prevent any question as to the effect the admiral's retirement would have on the action of the court.

London Girl Gives Testimony of a Revolting Character.

London, Oct. 18.—The hearing of the charges against Theodore and Laura Jackson (Ann Odella Diss De Bar) was continued yesterday. The police court was crowded, a number of women being among those present, while the police found it necessary to clear the sidewalk of those who were anxious to obtain admission and hear the most noisome testimony ever given publicly in a London court. The witness examined yesterday was Daisy Adams, a mere child, wearing a red Tam O'Shanter cap and with her hair in curls hanging down her shoulders. She testified that she was enticed to London under the promise of being taught music. The testimony was of the vilest character.

On one occasion Mrs. Jackson held the girl's hand while the misconduct occurred. Mrs. Jackson interrupted the witness, saying: "Did I ever give you immoral advice?" "Yes, many times," replied the witness.

John A. Kasson of Iowa, who practically had charge of the negotiations of these treaties, had a conference with the president yesterday upon the subject. He says that all the treaties have been renewed except with Trinidad, which that island declined to renew upon the advice of Great Britain. The failure to renew this treaty is regarded by Mr. Kasson as unfortunate because of its bearing upon South American trade.

BURGLARS THROW ACID

Grand Island Couple Badly Burned by Carbolic Fluid.

MILES AWAKENED BY ROEBERS.

When He Rouses They Deluge Both Him and His Wife—Firea Revolver After Fleeing Thieves and One Man Staggers as Though Hit.

Grand Island, Neb., Oct. 18.—The most desperate attempt at robbery that has been committed in this community for years was at the home of Frank W. Miles, a railroad man, early yesterday morning. Mr. and Mrs. Miles had attended the annual ball of the Fraternal Aid association in the evening and did not retire until 1 o'clock. Two hours later Mr. Miles was awakened by a noise in the room. He raised up in bed and was struck a blow on the head, which dazed him for a moment. He made further attempts to get up, intending to go after his revolver, when he felt something thrown in his face. When the two burglars dashed out of the door Mr. Miles, having found his revolver, followed them and fired several shots. The men ran down the alley, one of them yelling at his partner as they did so: "We will have to drop it. We can't make it." Later it was found that "it" referred to a wash sack, containing clothing, jewelry and silverware. The sack was recovered. Aside from this the men secured a pocketbook with \$33 and some change which was not recovered.

Mr. Miles thinks that one of his shots, fired in the alley, struck one of the men, as he jumped in the air and was assisted along by his companion, who in turn shot at Mr. Miles.

Upon returning to the house he found his wife in hysterics. When Mr. Miles felt the liquid thrown in his face he paid little attention to it in the excitement, but upon returning he found that carbolic acid had been thrown all over Mrs. Miles' face. He then realized what the prickling, burning sensation on his neck was. A doctor was called and it is believed there will be no serious results aside from the intense pain. Fortunately Mrs. Miles had not awakened until after her husband had got out of bed after the burglars and thus the acid thrown in her face did not affect the eyes.

Insurance Company Sets Precedent by Securing Judgment Against McNall.

Topeka, Kan., Oct. 18.—The Metropolitan Life Insurance company of New York was yesterday given a judgment against former Insurance Commissioner McNall for \$1,515 in the Shawnee county district court. In 1899 the legislature passed a law taxing foreign insurance companies 2 per cent on the gross premiums received on Kansas business. McNall ruled that the law required insurance companies to pay tax for 1898. The Metropolitan Life Insurance company sued McNall and his bondsmen for the return of the 1898 tax. McNall paid the money into the treasury and if the supreme court affirms the judgment of the district court the legislature will be asked to return the money. It is expected that other insurance companies will file other similar suits.
