

TRAIN JUMPS THE TRACK

Baltimore and Ohio Passenger Goes Over Embankment.

TWO DEAD, SEVENTEEN INJURED

Wrecked Cars Take Fire and Entire Train is Burned—Quick Aid to the Sufferers—Engineer and Fireman Horribly Mangled.

Pittsburg, Jan. 2.—As a result of a through passenger train on the Baltimore and Ohio railroad jumping the track yesterday two men are dead and 17 injured, five of whom are considered seriously hurt.

The dead: Engineer John Collins and Fireman McCune of Connellsville. Seriously injured: D. J. Partella, mail clerk; William Avery, engineer; G. W. Ryan, Baltimore; C. A. Young, mail clerk; R. R. Souser, Napier, Pa.

The train which was ditched was the through passenger, which left here at 8:40 a. m., bound for New York. It was a full vestibuled train.

In going down the steep grade near Glenoco, the engine for some reason not explained jumped the track at the curve and the train piled on top of it. Probably the only thing that prevented an appalling death list was the fact that the heavy vestibuled cars did not break up in going over the embankment. The work of rescue had to be done quickly, because the gas tanks in the cars exploded and set fire to the wreckage. The flames spread rapidly and in a short time the entire train was burned. The engine was completely demolished and the two dead men, when taken from the debris, were horribly mangled.

As soon after the accident as possible a relief train with physicians and nurses was sent to the scene from Cumberland and the injured were soon after taken to Meyerdale, Pa., where every attention is being paid to them.

General Superintendent Woodward says he has been unable as yet to ascertain the cause of the accident.

RACE HORSES KILLED IN WRECK

Disastrous Collision Between Freight Trains in Louisiana.

Keithville, La., Jan. 2.—One life was lost, two persons were seriously injured and several valuable race horses on route from the winter meeting at New Orleans were destroyed in a disastrous collision between a Texas Pacific fast freight train and a Houston, East and West Texas freight train on the siding at this place at 4 a. m. Twelve cars of the Houston, East and West Texas train caught fire and burned to the trucks. W. J. Daniels of Houston, fireman on the Houston, East and West Texas train, was caught under the wreck and either crushed or burned to death. Five hundred dollars in cash and several hundred dollars worth of rings were taken, evidently the work of experts.

Sac City, Ia., Jan. 3.—Moore's jewelry store was entered last evening. The safe was opened by robbers working the combination of the outside door and prying open the inside. Five hundred dollars in cash and several hundred dollars worth of rings were taken, evidently the work of experts.

RETIREES PREFERRED STOCK.

Northern Pacific Issues Formal Notice of Its Withdrawal.

New York, Jan. 3.—Formal notice was issued that in exercise of the power conferred upon it by the Northern Pacific Railway company retired its preferred stock in whole yesterday. Each and every dollar of a certificate for preferred stock not heretofore surrendered will upon presentation and surrender of his certificate at the office of the company, No. 49 Wall street, receive payment in cash at par. Except as to this claim all rights and claims of the preferred stockholders have ceased to exist. Notice was also given by the Northern Pacific Railway company that it had elected to require the holder of every 4 per cent convertible certificate of the company to convert the same into common stock of the company.

The belief in Wall street was general that the rapid retirement of the Northern Pacific preferred stock, followed by the redemption of the bonds issued for its retirement, had removed the obstacles in the way of the carrying out of the plan for the adjustment of the difficulties which grew out of the contest for the control of Northern Pacific last May.

He says that after the Philippine agency is established, other branches will be established in the principal cities of the new insular possessions of the United States. The ultimate purpose is that the entire Orient and South and Central America shall be comprehended by the operations of the bank.

The court will set a date for the hearing and Mr. Douglass will return to Minnesota. When he next goes to Washington he will be accompanied by George P. Wilson and M. D. Munn, his associates in the case. Then the great battle will be on in earnest.

Jewels, candy, flowers, man—that is the order of a woman's preferences.

Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, than let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. YEAR OF VAST PROGRESS

Phenomenal Activity in All Lines of Business.

OUTSTRIPS RECORD OF WORLD.

Greatest Evidence of Advancement is Found in Manufacturing—Resistance to Price Inflation—Produce Markets Share in the Gain.

New York, Jan. 1.—Dun's Review will say on Jan. 4:

Most marvelous of all phenomenal evidences of advancement in business during the year was the progress made in manufacturing. It is impossible to be too extravagant in delineating the movements of the industrial world. Never in the history of this or any other nation has such development occurred within the space of a twelve month. The expansion of productive capacity was enormous, the improved methods of work and organization were conspicuous, wise economies were introduced, but more than all other factors that made for permanent prosperity was the conservative resistance to price inflation.

While 1900 was the best year ever experienced by domestic agricultural interests, the opening year of the new century was in many ways more profitable and the two together have put the farming population in much the most satisfactory position in the nation's history. There is a steady tendency to enlarge the acreage sown in the large crops, but supplies do not increase owing to the better demand both for home consumption and export. Heat and drought caused a serious curtailment of the corn crop, which proved the most important event of the year. While this influence naturally induced an advance in price that practically prohibited exports and thus seriously affected the corn market, it was not an unmitigated evil, since the return to growers was even larger than in a year of normal production, while the enormous yield of wheat was absorbed by stock feeding and foreign consumers in place of corn. Hence, instead of a low price for wheat in proportion to the heavy crop, there was maintained an even higher average quotation than in the short crop year preceding. The crop year opened with a new record of wheat and flour exports, amounting to 34,130,380 bushels in August, far surpassing any previous month, while for five months ending Nov. 30 the aggregate was 126,928,162 bushels.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 56 Warren St., N. Y.

Remarkable Cure of Croup.

A little boy's life saved—I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I feel that I cannot praise it enough. I bought a bottle of it from A. E. Steers of Goodwin, S. D., and when I got home with it the poor baby could hardly breathe. I gave the medicine as directed every ten minutes until he "threw up" and then I thought sure he was going to choke to death. We had to pull the phlegm out of his mouth in great long strings. I am positive that if I had not got that bottle of cough medicine, my boy would not be on earth today—Joe DeMont, Inwood, Iowa. For sale by Kiesau Drug Co.

Gentlemen—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion. About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely. I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that an operation could help me, and even that only temporarily, that the head noises would cease, but the hearing in the affected ear would be lost forever. I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours, F. A. WERMAN, 730 S. Broadway, Baltimore, Md.
