

HALE OBSTRUCTS PLAN

Retards Senator Mason's Resolution of Thanks to Schley.

IT GOES TO NAVAL COMMITTEE.

Resolution is Practically Identical With That Adopted in the Case of Admiral Dewey—House Raises Pay of Rural Mail Carriers.

Washington, Jan. 24.—An effort was made in the senate yesterday by Mason (Ill.) to obtain consideration for a joint resolution, which he introduced, extending the thanks of congress to Rear Admiral Winfield Scott Schley "for his brave and able conduct while in command of the American fleet at the victorious battle of Santiago." The effort, however, was not successful.

Mason's resolution, in addition to the thanks of congress provided that Admiral Schley should be presented a sword, that bronze medals commemorating the battle of Santiago should be distributed to the officers and men "under the command of Schley during said battle and that \$10,000 be appropriated to meet the requirements of the resolution."

On motion of Hale the resolution was referred to the committee on naval affairs.

The resolution introduced Wednesday by Teller, providing for intervention on the part of this government in behalf of the Boer commandant, Scheepers, sentenced to death by the British South African authorities, was postponed indefinitely, as Scheepers already has been executed. Teller made a brief, but caustic, speech on the actions of Great Britain in the Boer war, and declared that if the facts of this case were as he understood them "Great Britain in putting Scheepers to death is guilty of a vile assassination."

The department of commerce bill was under consideration the greater part of the session.

NATIONAL CONTROL OF TRUSTS.

Recommendation Made by Industrial Commission.

Industrial Board Suggests Reforms.

Washington, Jan. 24.—The industrial commission after several years spent in investigating the industrial condition of the country, with the view of making recommendations calculated to assist in the solution of the problem of the times has completed and sent to the printer its final report. On the subject of trusts, supervision by the national government is recommended. The most radical specific step suggested in that direction by the report is that the books of all corporations should be subject at all times to inspection as are the books of national banks. This, it is claimed, would go far toward protecting the public against impositions in the way of over-capitalization and other devices. The commission discusses government ownership of railroads and telegraph lines, but does not recommend such a departure from present methods. There are some recommendations concerning taxation that will attract attention. One of these looks to imposition of certain taxes on private property by states direct.

RURAL CARRIERS GET RAISE.

House Votes Favorably on Amendment to Urgent Deficiency Bill.

Washington, Jan. 24.—The consideration of the urgent deficiency bill, which has been under debate in the house since Monday, was completed yesterday, but owing to the lateness of the hour passage of the bill was postponed until today. A successful effort was made to increase the pay of rural free delivery carriers from \$500 to \$600 per annum. Hill (Conn.) made the motion to increase the appropriation for this purpose. It was resisted by Cannon and Loud, chairman of the postoffice committee, on the ground that the method was irregular, but the members with rural constituencies supported it and it was adopted—109 to 78.

Representative Clark of Missouri introduced a joint resolution expressing sympathy for the two South African republics and regret over the suffering caused by the war. The resolution expresses the hope that this declaration by congress will influence Great Britain to consider favorably a settlement of the troubles.

FINISHES ANTI-ANARCHY BILL.

House Committee Determines on a Measure to Punish Assassins.

Washington, Jan. 24.—The details of a bill restricting anarchy and anarchism was practically determined on yesterday by the special committee of members of the house judiciary committee, appointed to consider this subject. The measure will provide the death penalty for an attempt to kill or assault the president or any one in line of succession for the presidency. An accessory before the fact is to be treated as a principal and an accessory after the fact is punished in a less degree than a principal. Any person who counsels, advises or advocates the assaulting or killing of any officer of the United States shall be fined or imprisoned. No alien who advocates an overthrow of organized government, or who is affiliated with an organization holding such views is to be admitted to this country.

Keane Denies Report.

Dubuque, Jan. 24.—Archbishop Keane denies the report from Sioux City that the late Bishop Lenihan was appointed to that see before his death.

AGAINST TARIFF REVISION.

Speaker Henderson Sees Danger in Opening Up the Subject.

Waterloo, Ia., Jan. 24.—In a letter received here yesterday, Speaker Henderson puts himself on record as against any revision of the tariff by the present congress. The letter is in response to a petition signed by 70 Republican business men of Waterloo and Cedar Falls. Speaker Henderson admits that some changes might wisely be made in the present tariff, but sees so much danger in opening up the subject of tariff revision that he would leave it as it is. He says: "My judgment is that it is more important at this time in the interest of this country to reduce taxation upon ourselves and stop to a proper degree the influx of the people's money into the public treasury. With the country in an unparalleled prosperous condition, I cannot believe it wise to begin a reduction which inevitably will open up the whole field of revision and thus put a serious check upon the business of the country. The moment the country understands that there is to be a revision of the tariff jobbers will suspend large purchases, hoping to buy at lower prices. This will compel the manufacturer to reduce his business and this will compel a reduction of the pay rolls, and serious business calamity might ensue."

ELECT NEW SET OF OFFICERS.

Peace is Restored in the Bowling Convention at Buffalo.

Buffalo, Jan. 24.—The warring factions in the American Bowling congress came together last night and settled their differences. The election of officers held Wednesday was reconsidered and a new set of officials elected. Charles A. Bookwalter of Indianapolis is the president of the congress for the ensuing year. The convention and tournament of 1903 also goes to Indianapolis.

The clause in the constitution regarding the admission of proxy votes at the annual convention, which caused all the friction, was eliminated. A substitute offered by Bernard J. York of New York, providing that no delegate shall have more than one vote, was adopted unanimously. Other officers elected are: Secretary, Samuel Karpe of Dayton, O.; treasurer, George M. Stearns of Iowa.

CATTLEMAN CAUSE TROUBLE.

Kill Herd of Sheep and People Are Incensed Over Crimes.

Denver, Jan. 24.—The people of Costilla county are much aroused over the killing of 100 sheep and the wounding and driving away of 200 more belonging to Trujillo, 10 miles from Mosco, by 15 cattlemen of that neighborhood. The sheepmen were first warned to vacate the public domain. The cattlemen, it is said, also fired into the cabin of the owner about 10 o'clock on the night of Jan. 18, and very narrowly missed the occupants. Warrants have been issued for the cattlemen said to have been connected with the outrage. Trujillo is said to be an inoffensive old man who has lived in that vicinity for the past 40 years.

Mrs. Harrison Wants Pension.

Indianapolis, Jan. 24.—Friends of Mrs. Benjamin Harrison, widow of ex-President Harrison, have had their attention called to statements published in several papers to the effect that she had asked those in charge of the movement to grant her a pension not to present the bill to congress. This is incorrect. Mrs. Harrison has at no time made any objection to the presentation of such a bill and still believes the matter can with propriety be presented to congress, inasmuch as the surviving widows of other ex-presidents have been recipients of the same recognition by congress.

Hunter Shoots Brother.

Chillicothe, Mo., Jan. 24.—Elmer Moore, aged 22, was accidentally shot on Grand river, near Lock Springs, Daviess county, by his brother, Eugene, aged 20. They were hunting and became separated, and a shot intended for a rabbit wrought the fatal work.

FAVOR MORE RIGID BILL.

House Committee Places Further Restrictions on Oleomargarine.

Washington, Jan. 24.—The friends of the measure for rigid restrictions on oleomargarine and kindred products carried their point before the house committee on agriculture yesterday and by a vote of 12 to 5 ordered the report of a bill which is even more restrictive than the original Groat measure, reintroduced by Representative McCleary of Minnesota. The subject has been under consideration for the past ten days, all of the various interests having been granted hearings. The original bill placed a tax of 10 cents per pound on oleomargarine and butterine colored to imitate yellow butter. The word "yellow" was struck out, thus making the restriction apply to imitations of white or any other kind of butter. Another change makes those who take uncolored butter and color it subject to all the taxes and penalties of manufacturers. When the committee met these amendments were agreed to by the foregoing vote. The opposition to the bill proposed numerous amendments, all of which were rejected.

EXONERATE UNION OFFICIALS.

Committee Exculpates Mitchell and Wilson From Charges.

Indianapolis, Jan. 24.—The committee appointed by the United Mine Workers' convention to investigate charges preferred by Miss Millie Meredith against President John Mitchell and Secretary-Treasurer W. R. Wilson made its report yesterday. The report completely exonerates the two officers of the charges that they misrepresented to the miners the extent of ex-Secretary-Treasurer Pearce's financial errors. The report was adopted by a rising vote.

Seek to Merge Paper Firms.

Cincinnati, Jan. 24.—Representatives of 40 wrapping paper firms in this country have been in secret session here. Charles Penfield of Kansas City presided. It was stated that the formation of a combine was the object of the meeting. While it was stated that there was not likely to be any more cutting in schedule rates, the members had nothing to give out for publication.

CHICAGO GRAIN AND PROVISIONS.

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of appendicitis, nervous prostration or heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize almanac. A. H. Kiesau.

Fatal kidney and bladder troubles can always be prevented by the use of Foley's Kidney Cure. A. H. Kiesau.

Remarkable Cure of Croup.

A little boy's life saved.—I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I feel that I cannot praise it enough. I bought a bottle of it from A. E. Steere of Goodwin, S. D., and when I got home with it the poor baby could hardly breathe. I gave the medicine as directed every ten minutes until he "threw up," and then I thought sure he was going to choke to death. We had to pull the phlegm out of his mouth in great long strings. I am positive that if I had not got that bottle of cough medicine, my boy would not be on earth today.—Joel DeMont, Inwood, Iowa. For sale by Kiesau Drug Co.

An Attack of Pneumonia Warded Off.

"Some time ago my daughter caught a severe cold. She complained of pains in her chest and had a bad cough. I gave her Chamberlain's Cough Remedy according to directions and in two days she was well and able to go to school. I have used this remedy in my family for the past seven years and have never known it to fail," says James Prendergast, merchant, Anasco Bay, Jamaica, West India Islands. The pains in the chest indicated an approaching attack of pneumonia, which in this instance was undoubtedly warded off by Chamberlain's Cough Remedy. EGZEMA'S

ITCH IS TORTURE.

Eczema is caused by an acid humor in the blood coming in contact with the skin and producing great redness and inflammation; little pustular eruptions form and discharge a thin, sticky fluid, which dries and scales off; sometimes the skin is hard, dry and fissured. Eczema in any form is a tormenting, stubborn disease, and the itching and burning at times are almost unbearable; the acid burning humor seems to ooze out and set the skin on fire. Salves, washes nor other external applications do any real good, for as long as the poison remains in the blood it will keep the skin irritated.

BAD FORM OF TETTER.

"For three years I had tetter on my hands, which caused them to swell to twice their natural size. Part of the time the disease was in the form of running sores very painful, and causing me much discomfort. Four doctors said the Tetters had progressed too far to be cured, and they could do nothing for me. I took only three bottles of S. S. S. and was completely cured. This was fifteen years ago, and I have never since seen any sign of my old trouble."—Mrs. L. B. Jackson, 214 Moore St., Kansas City, Mo.

S. S. S. neutralizes this acid poison, cools the blood and restores it to a healthy, natural state, and the rough, unhealthy skin becomes soft, smooth and clear.
