

OFFICERS WRECK BANK

City Savings Institution of Detroit Forced to Close.

WAS ALLOWED TO OVERDRAW.

Vice President Ties Up Over Million Dollars of Deposits—Money Advanced by Cashier Without Knowledge of Directors.

Detroit, Feb. 11.—Vice President Frank C. Andrews of the City Savings bank, which is now in the hands of State Banking Commissioner George L. Maltz, was arrested late yesterday afternoon and arraigned at 9:30 o'clock last night on the charge of fraudulently securing from the bank without security and without knowledge of the other directors a sum exceeding \$1,000,000. He was released on \$10,000 bail and his examination was set for Feb. 21. Cashier Henry C. Andrews, through whom F. C. Andrews is said to have secured the money by means of overdrafts and certified checks, is ill at his home with nervous prostration. In addition to a total indebtedness to the City Savings bank of \$1,158,000, to secure which Mr. Andrews has signed over to the institution all his real estate holdings and stock, bonds and other securities, which, it is estimated, will total about \$1,000,000, four local banks and a trust company hold his checks, certified to by Cashier Andrews, to the amount of \$662,000.

Unfortunate speculations, especially purchases of Amalgamated Copper stocks, are believed to be responsible for Mr. Andrews' ruin.

There was nothing like a panic at any of the other banks in the city and comparatively few deposits were withdrawn as a result of the excitement.

At the Gratiot avenue branch of the City Savings bank, which drew its deposits largely from the laboring people, there were many pathetic scenes as the depositors learned that the bank had suspended. Officers were in the vicinity to quell any disorder, but their services were not necessary at any time.

Closes Utah Mines.

Salt Lake, Feb. 11.—The suspension of the City Savings bank of Detroit has resulted in the temporary closing of operations at two prominent Utah mines—the Ophir at Statlin and the Tewaunee at Bingham. F. C. Andrews, vice president of the suspended Detroit bank, was heavily interested in these properties, both of which are considered valuable.

SOLDIERS HANGED AT MANILA.

Men Who Deserted American Army for Insurgent Band Executed.

Manila, Feb. 11.—Edmund A. Dubose and Lewis Russell, deserters from company E, Ninth cavalry, and who stole arms belonging to the regiment and joined the insurgents in August last, for which they were tried and sentenced by a military court were hanged yesterday at Guloban, in the presence of 3,000 people. The execution was orderly. It was supervised by Captain Henry H. Wright of the Ninth cavalry, commanding the post.

Several native petitions were received urging clemency, but the authorities failed to see any reason to delay the execution, the men committing a flagrant breach of the military code in the time of war.

Patrick Trial Resumed.

New York, Feb. 11.—The trial of Albert T. Patrick, charged with the death of William M. Rice, was resumed yesterday after a lapse of six days, owing to the illness of a juror. The most interesting part of the trial was the move of the state in placing in the witness box John R. Potts, a lawyer and banker, and at one time, at least, a friend of the accused. Mr. Potts said among other things that Patrick a few days before his arrest, but after Mr. Rice's death, had retained him as counsel and that the tie had not been severed. The defense confined itself to asking Potts if Patrick had told him he was to receive the estate as trustee, and the answer was that he had.

Mayor Shilling on Trial.

Decatur, Ill., Feb. 11.—The trial of Mayor Charles F. Shilling, under indictment for malfeasance in office, began yesterday. No case in years has attracted as much attention. The penalty is removal from office. A hundred witnesses have been summoned.

Robbers Tunnel into Bank.

Muskegon, Mich., Feb. 11.—Robbers tunneled under the Muskegon Savings bank to the vault and bored a hole through its floor large enough for a boy or small man to pass through. HOT FIGHTING IN SOUTH AFRICA.

Last Week a Lively One, With Heavy Losses on Both Sides.

London, Feb. 11.—A report received from Lord Kitchener at Pretoria, shows last week to have been the liveliest week, with the heaviest losses on both sides, for several months past. Lord Kitchener gives the Boer casualties a total of 69 killed, 17 wounded, 57 surrendered and 574 taken prisoners.

The most serious British loss during the week was the capture of 60 donkey wagons, conveyed by 150 troops. At a point 30 miles from Beaufort West, Cape Colony, the enemy swept down on the donkey wagons and cut up the convoy before assistance arrived. They were able to remove only 12 of the wagons and burned the rest. In this engagement the British lost two officers and 11 men killed and one officer and 47 men wounded, while the Boers lost 24 killed and 47 wounded. The Boers also rushed a detachment of 100 men of Colonel Doran's column, which lost three officers and seven men killed and 17 men wounded. Von Donop surprised Potgieter's laager near Wolmorstad, Feb. 7, killing three Boers and capturing 36.

UNKNOWN SHIP BURNS AT SEA.

Attempts Made to Rescue Crew Who Are Floating About.

Cape May, N. J., Feb. 11.—A three-masted schooner, the name of which has not been learned, was burned at sea last night. The fire, which was plainly visible from here, started about 5 o'clock yesterday afternoon and burned until after 9 o'clock. The schooner came to a point about six miles off shore in a northeast direction from Cape May lighthouse during Sunday night and was caught in the icefields flowing out of Delaware bay. As soon as the crews of the lifesaving stations saw the fire they manned their yaws and attempted to go to the rescue of the sailors on the schooner, but it is believed from what can be seen through glasses that the men are in their small boats, floating around in the ice, waiting for assistance.

No big craft which could have rendered assistance was seen within two miles of the burning vessel. The vessel seems to be burned to the water line.

Gomez Given an Ovation.

Santiago, Cuba, Feb. 11.—General Gomez arrived here yesterday on his way to San Domingo. He was given a great demonstration. A large crowd was assembled with bands. The police and the firemen also turned out to welcome him. General Gomez was averse to discussing the political situation. He said, however, he believed the United States would fulfill their pledges to establish a stable government in Cuba. This he considered impossible without close commercial relations between the two countries. He felt that a reduction of 50 per cent on Cuban sugar and tobacco imported into the United States would be granted.

Steamer Abandoned at Sea.

London, Feb. 11.—The Dutch tank steamer Bremer Haven, from Philadelphia for Antwerp, was abandoned at sea with her stern tube leaking. Her crew were rescued and have been landed at Liverpool by the British steamer Anselma de Larings, from Galveston for Manchester. The Bremer Haven was a steel vessel. She was owned by the American Petroleum company.

TAKE TURN FOR WORSE

Condition of President's Son Reported Less Favorable.

NOW HAS DOUBLE PNEUMONIA.

New York Physician is Summoned and Confirms Diagnosis of the Local Doctors—Temperature Rises While Respiration Declines.

Groton, Mass., Feb. 11.—Theodore Roosevelt, Jr., the oldest son of President Roosevelt, has double pneumonia. Otherwise his condition is unchanged. The boy is seriously sick, but it is too early to say what the chances are for his recovery. This was the statement issued by George B. Cortelyou, secretary to the president, and was made after a careful examination by Dr. Lambert, the Roosevelt family physician. President and Mrs. Roosevelt spent an anxious day in the infirmary, awaiting the crisis of the disease, which appeared to have taken such a strong hold on their son. The change

THEODORE ROOSEVELT, JR.

for the worse in the boy's condition occurred during the night and showed itself when the regular morning examination was made by Dr. Shattuck and Dr. Warren. Secretary Cortelyou made the announcement of the patient's serious condition, although he said it was not alarming. "His temperature is higher," said Mr. Cortelyou, "and his respiration is weaker, but his pulse is better." He also said there was no immediate change, only the natural progress of the disease. He announced that the disease had spread and involved both lungs. This sudden and unfavorable turn warned the president that the most skillful medical treatment was necessary, so he called to the aid of Drs. Shattuck and Warren his family physician, Dr. Alex Lambert of New York.

DEBATE ON OLEO BILL CLOSED.

Friends of the Measure Have Decided to Offer an Amendment.

Washington, Feb. 11.—General debate on the oleomargarine bill was closed yesterday. The friends of the bill have decided to offer an amendment to make the 10 cent tax apply to oleomargarine in imitation of butter, "of any shade of yellow." The amendment is designed to meet the charge of the opponents of the bill that without this amendment the language of the bill might be construed to absolutely prohibit the sale of oleomargarine. The speakers yesterday were: Hauger (Ia.), Thomas (Pa.), Shallenberger (Neb.), Dahle (Wis.), Gaines (Tenn.) and Lamb (Va.) for the bill, and Feely (Ill.), Slayden (Tex.), Mondell (Wyo.), Brantley (Ga.) and Wooten (Tex.) in opposition.

Crumpacker Caucus Again Adjourns.

Washington, Feb. 11.—The second caucus of the house Republicans to consider the question of action looking to reducing the congressional representation of the southern states which abridge the suffrage was held in the hall of representatives last night, but a quorum was not present and after two and a half hours of discussion the caucus adjourned until next Monday without action. Payne, Cannon and Dalsell were present and threw the weight of their influence in favor of a conservative course. Cannon was openly opposed to action on the ground that it could only result in agitation. In the only test of strength made the friends of action had a majority of 20 votes.

Senate Proceedings.

Washington, Feb. 11.—Throughout nearly the entire session of the senate yesterday the Philippine tariff bill was under consideration. Turner (Wash.) concluded his speech begun last Friday on the legal and constitutional phases of the Philippine question. He held in the main that as the Filipinos had established an independent government in the islands prior to the fall of Manila, under the principles of international law, the United States had no right in the islands.

Oxnard Submits Petition.

Washington, Feb. 11.—The American Beet Sugar association, by its president, Henry T. Oxnard, yesterday submitted to the house committee on ways and means a petition urging that a committee be sent to Cuba for the purpose of obtaining by actual inquiry on the ground and by an examination of the accounts of the Cuban sugar factories the facts in regard to the Cuban sugar industry.

Cannonading is Heard.

Willmestad, Island of Curacao, Feb. 11.—Cannonading has been heard here from early morning in the direction of the Venezuelan coast. It is believed that Libertador has been engaged with another Venezuelan gunboat. The report of the engagement between Libertador and Crespo appears to be confirmed. It is further asserted that Crespo sank in the road instead of Cumarebo.

JOHN BULL'S TROUBLES.

Government Attacked for Withdrawal of Troops from Wei Hai Wei.

London, Feb. 11.—Troubles seem to be accumulating around the government. The staunchest conservative organs this morning publish angrily satirical editorials on the poor figure the government cuts over Wei Hai Wei. The ministers are reminded of the flourish of trumpets which accompanied the acquisition of this colony as a set off to the Russian occupation of Port Arthur. It is now seen, as Lord Rosebery said during the debate in the house of lords yesterday, that "all we acquired is a second rate watering place."

Lord Selborne, first lord of the admiralty, denied in the house of lords that financial relations had anything to do with the government's decision to withdraw the British troops from Wei Hai Wei. But when he was asked to publish the papers in the matter, replied that some of the papers were confidential.

The greatest interest was manifested in the debate. There was a large attendance of peers. In spite of the government's assurances for the future, the belief prevails in political circles that the place will ultimately be abandoned, after costing the country £250,000 and will fall into the hands of Germany.

Early this morning the condition of the president's son was apparently very serious. The voice of the boy calling for water could be heard on the street. Nothing could be obtained from the house, but it is believed the patient is delirious.

Frank James Asks Injunction.

Kansas City, Feb. 11.—Frank James yesterday made application for an injunction against the management of a play called "The James Boys in Missouri," in which the members of Frank James' family are represented as being train robbers, bank looters and outlaws of the worst character. The suit was brought, Mr. James says, because the play glorifies outlawry, makes heroes of outlaws and is injurious to the youth of the country, and besides, he says, it revives a reputation that came to him in early life, which he has been trying to live down for 20 years. The suit raises the question of whether or not a private citizen can be portrayed on the stage without his consent, whether it be to his credit or discredit.

Northern Pacific Switchmen Strike.

Missoula, Mon., Feb. 11.—Fifteen Northern Pacific switchmen yesterday went on a strike and the trouble threatens to become general. The men refused to use a road engine for a switch engine. Superintendent Russell, it is said, promised to meet the men and adjust their grievances, but failed to put in an appearance at the time stipulated, and the switchmen walked out. It is rumored that non-union men are coming from Helena to take the places of the strikers and there is much excitement.

Babcock, president of the irrigation company, their mission being to contract for the financing of the power part of the enterprise. The \$70,000 mortgage indebtedness of the company has been paid off and all indications are favorable of the early completion of the power project.

Indians on Way to Washington.

St. Paul, Feb. 11.—A delegation of Sioux and Assiniboine Indians from Fort Peck (Mon.) reservation passed through St. Paul last night en route to Washington. Through an interpreter Chief Long Dog said: "We shall ask the government to take half of our reservation and open it for settlement. We want cattle in exchange for our land that we may improve our ranches and grow in wealth. We want no more government rations, except for our old men and squaws, and for the disabled."

The name of the man killed is not known, the monetary loss will be heavy.

PATERSON DECLINES AID

City is Badly Damaged, but Can Repair Its Own Losses.

MARTIAL LAW IS ESTABLISHED.

Estimate of Total Destruction by Sunday's Conflagration Now Cut to Eight Millions—Work of Clearing Up Burned District.

Paterson, N. J., Feb. 11.—A feeling of confidence in the future pervades the minds of citizens of Paterson. Mayor Hincliffe has the situation well in hand and to an offer of assistance which came from Mayor Low of New York an answer was returned containing thanks and the assurance that Paterson is managing to care for those in need.

Money and securities said to amount to \$3,000,000 were recovered from the two huge vaults under the ruins of the First National bank yesterday afternoon. Books, papers, bullion and paper money were found unharmed.

Mayor Hincliffe said that he thought the loss would reach at least \$8,000,000.

A well informed insurance man said that it would be safe to say that the real estate lost in the fire was insured at about two-thirds of its value, or perhaps a little more. It is understood that the insurance on public property will not figure more than 35 per cent.

The work of clearing up the burned district has not begun, but the firemen were busy with ropes and dynamite, tearing down the shaky walls that endangered those who had to be inside the burned area. So well did this work progress that after a conference with Major Ross, commanding the militia, the public was admitted to the ruins and sentries were posted at every important point, keeping the crowd moving briskly. Thousands passed about the choked streets and viewed the ruins during the two hours and a half allowed them. At the expiration of the time the sentries began moving outward and gathering up the extra men at each step, soon had the entire district cleared. The conduct of the soldiers was excellent. There has been no disorder and the authorities believe there will be none.

The building was bought by Senator Fairbanks of Indiana ten years ago. The loss is over \$750,000.

Death of Joseph A. Douglas.

Topeka, Kan., Feb. 11.—Joseph A. Douglas was killed last night at his home in London by falling from a load of corn. Mr. Douglas was the witness in the historical Armstrong murder trial in Illinois when William Armstrong was cleared by Abraham Lincoln. Douglas swore at the trial that he saw Young Armstrong strike the fatal blow, saying that the moon was very bright at the time. Mr. Lincoln then produced an old almanac as his only witness, from which he proved that there was no moon on the night in question.

Taxidermist Fined for Killing Quail.

Waterloo, Ia., Feb. 11.—Harry Fields was fined \$125 and costs by Justice Hildebrandt here yesterday for violating the state game law. Fields killed six quails and the penalty was the maximum of \$50 each. He admitted killing the birds, but as he is a taxidermist in the employ of the State Normal school at Cedar Falls he claimed he had a right to kill them for scientific purposes. Three of the birds were spotted in mounting, so that the three specimens will cost the school \$44 each if the justice's ruling is not set aside.

New York, Feb. 11.—The coroner's jury which has been investigating the recent explosion of dynamite in the excavation for the rapid transit tunnel returned a verdict yesterday, holding Ira A.
