To Regulate Hens.

The price of eggs goes up and down with the thermometer. What is needed is a brand of hens that will keep warm in winter and cool in summer, Frank McGinnis, who appreciates the rare qualities of a virtuous and industrious hen is working on some patent appliances to regulate her output, thus to steady the egg market and furnish housewives at living rates the ingredients for flapjacks at the time when the flapjacks are ripe and eggs are abnormally high.

Who Your Friends Are.

Who sympathized with you when your little girl was sick? asks an exchange. Was it your home merchant or was it Sears & Roebuck? Who was it carried you last winter when you were out of a job? Was it Montgomery Ward & Co. or was it your home merchant? When you want to raise money for the church or for some needy person in town do you write to the Fair store in Chicago or do you go to your home merchant? How much does Seigle Cooper & Co. give towards keeping up the sidewalks of the town or paying the minister's salary? When you were sick how many nights did Hibbert, Spencer & Co. sit up with you? When your loved one was buried was it your home paper which shed the tears of sympathy and uttered the cheering words or was it some Chicago or New York paper?

Large Sale of Land.

Hansen & Saxton secured a buyer a few days ago for Henry Hertz's farm, the price paid being \$6,500. The purchaser is a Mr. Taylor, from Shelby County, Iowa. Mr. Hertz at once telegraphed to Alberta, securing another half section of land adjoining the 320 acres he recently bought near Ponoka, and, as soon as he can sell off his personal property and close up his business in this locality, will remove with his family to his Canadian quarters.—Tilden Citizen.

The Children's Friend.

There is no use trying to persuade American mothers that substitute exists for Perry Davis' Painkiller. They know how it relieves the troubles of childhood, from sprained arms and legs to stomachache. Other preparations may do good, Painkiller is certain to. A big difference, and one that has been recognized for sixty years. There is but one Painkiller, Perry Davis'. Sturgeon is the piano man.

Harry Matrau is expected home tonight from Ellsworth, this state, for a short visit at the home of his parents. Miss Grace Matrau returned to Mankato, Kansas, at noon to resume her duties with the Wood Commission company. The shoe stores have entered into an agreement to close at 6:30 in the evening and will do so this evening for the first time. Miss Emma Braasch, who is attending the university at Lincoln, came home today to attend the wedding of her sister. Miss Emma Bowers who has been the guest of her sister, Mrs. Nimmer, left on the noon train for her home in Oshkosh, Wisconsin. K. J. McKain arrived from Seward Saturday morning to take the place of local inspector of the telephone exchange made vacant by the resignation of R. C. Gardner.

A number of exchanges are appropriately advertising the valentines kept by their local merchants. It would not be known that valentines were for sale in Norfolk by reading the papers. The millinery store of Miss E. J. Bender will soon be moved to the Jonas building across the street which is being vacated by Amarine's shooting gallery. The work of putting the room in shape for the millinery stock is now under way. Another operator has been added to the local telephone exchange to take care of increasing business. Miss May Barrett has been advanced from night operator to the day force and Miss Mary Horriksky has been placed in charge of the night work. A gang of telephone line men have arrived to begin the work of connecting the Battle Creek subscribers with the Norfolk exchange, the material being all on hand. The work will be done under the foremanship of E. J. Denny, district inspector. Mr. Edwin Stephen Trainer and Miss Josephine Hardinger, both of Battle Creek, were united in marriage today at the M. E. parsonage by Rev. J. F. Poucher. The young folks will go to the state of Washington to make their future home. Letters have been received by Norfolk people from Hon. W. M. Robertson who is in Washington in the interest of a public building for this city. He states that he is getting acquainted with the law makers at the capitol, but had not yet met with the committee. Mrs. Mary Roach, who had reached the age of 108 years, died at the home of her son near Stratton last Friday. Previous to her death Mrs. Roach had enjoyed the best of health, never having had a serious illness in her life. She was the oldest woman in the state if not in the country. W. W. Roberts, representing the Continental, settled and paid the loss of C. E. Adams occasioned by the recent Junction fire in which Mr. Adams' household goods were destroyed. The amount of the insurance was \$500, but was not paid in full. Mr. Adams, however, expressed himself as well satisfied with the adjustment of his loss. Another consignment of sugar beet seed has been received in Omaha and placed in the bonded warehouse, from which it will be distributed to the various factories. It came from Germany. The shipments this year are larger than usual, which indicates that a greater acreage of the saccharine root will be planted than during former years. The committee of business men authorized by the last meeting of citizens to prepare a plan of mutual advertising are arranging to report on a scheme that will undoubtedly bring a large number of people to Norfolk and be of much benefit to the merchants of the city. All interested should make it a point to be at the meeting Friday night and hear the report. The Uplike Grain company which is

just completing the office, scales, and repairs to the elevator recently purchased of C. W. Braasch, is an important addition to the business interests of Norfolk. The company is represented in Chicago by the Uplike Commission company. It has a large elevator at Missouri Valley, where much of the grain taken up through the state is shipped for cleaning and classifying and has a number of elevators throughout the state along the line of the F. E. & M. V. Five or six of them are in the north Platte country and the balance are south of that river. D. J. Cleland, one of the old and respected citizens of Pierce died at his home in that city Saturday morning, being nearly 73 years of age. He had been sick with pneumonia but apparently recovered when his heart's action began to fail and he steadily declined. He was one of the pioneer merchants of Pierce, having been in business more than 20 years. He was candidate for county judge on the republican ticket in 1895. The remains were taken to Rock Island, Ill., near which place they will be interred beside the grave of his wife who died in 1894. A little the smoothest thing Kansas has ever known in the way of a 'card of thanks,' says the Kansas City Journal, 'recently appeared in a Topeka paper. 'We extend our heartfelt thanks,' said the sorrowing family, 'to the pastor who officiated, to the choir which sang, to the friends who sent flowers, to the undertaker who so delicately performed his sad mission, to the friends and relatives who mingled their tears with ours above the bier.' Yet as nearly perfect as this is, it is convicted of a fatal omission. The colored man who drove the coffin box ahead of the hearse to the cemetery seems to have been entirely forgotten. A prominent magazine gives the following directions for stopping nose bleeding, that might prove valuable: 'To cure nose bleeding in children, have the child sit up straight, and hold the nostrils tightly together. Wrap a small piece of ice in a little cotton wool and gently rub the outside of the nose, with it. If this does not stop it you may have the child raise his arms above his head, and put a wad of tissue paper under his upper lip, holding it there firmly. Do not allow the child to blow his nose for some time after the bleeding has stopped. If the attacks are frequent consult a good physician, as there may be some disease of the blood or blood vessels which should be treated before things have gone too far.

A Popular Preparation. One of the best advertised and most popular preparations for the cure of nasal catarrh, and similar troubles is Ely's Cream Balm. It was originated and placed on the market nearly twenty years ago by a firm of experienced druggists, Ely Brothers, and their business in this special article grew to such proportions that they were compelled to devote their entire attention to it. Ely Brothers emphasize the fact that it is to the interest of druggists to supply Ely's Cream Balm whenever a customer calls for it, or even when simply a good catarrh remedy is asked for. The test of time has proved that this preparation always gives satisfactory results. It is a uniform preparation, made according to a scientific formula from the very best quality of drugs. In supplying it to his trade the druggist does not run the risk of causing dissatisfaction, which might occur when the customer is induced to experiment with new preparations the merit of which has not been fully demonstrated.

Butterfield went to Sioux City yesterday and left for Omaha on the early train this morning. Chas. Ellington, who has been the guest of Warren Sisson a few days, returned to his home in Creighton yesterday. He hopes to have it grow back in place. G. D. Thomas of Seward has purchased the Hein opera house at Madison, the consideration being \$11,000. The opera house will be improved and will be under the management of the purchaser's brother-in-law, W. P. A. Schmidt. Spencer & Ovelman have not entered the agreement to close early and their store will be kept open until 9 o'clock in the evening, as heretofore. The statement made last night that the shoe stores would close at 6:30 should therefore be qualified. A gentleman who has returned from a trip to Omaha states that Mrs. D. R. Daniel, formerly of Norfolk, has moved to that city from Virginia, to be with her son, Herbert. Meredith accompanied her and Ruth will come west in the spring, being in Washington, D. C., at present. The Union Pacific freight which has been leaving Norfolk for the south at 4:15 p.m. has changed time and in the future will leave at 3. The same train has been arriving at 10:30 in the morning but in the future will arrive at 11:45. The new time card went into effect today. A. J. Motler, 75 years of age and an old and respected resident of Antelope county, died in a hospital at Portland, Oregon, on February 6. He was on his way to Winlock, Washington, to visit a brother and sister whom he had not seen for nearly 30 years. He was stricken by paralysis enroute. The minimum temperature last night was 15 degrees above zero, which is the highest minimum since January 23. The weather has certainly been making a successful effort to furnish a few weeks of genuine winter and this slight relaxation is certainly appreciated. The indications are that it will soon get down to its old gait. Tomorrow will be Lincoln's birthday and a number of the rooms of the city schools have prepared appropriate programs in observance of the day. It is planned to observe the various holidays of the month in a manner that will not interfere with the school work by having each grade prepare for the celebration of a different occasion. The city election this year comes on the first day of April, when a mayor, clerk, treasurer, engineer, police judge and two members of the board of education are to be elected. The campaign is already opening, the democrats having issued a call for a city convention and have also issued a call for ward caucuses and a primary election. Norfolk lodge No. 97, A. O. U. W., will meet in regular session at I. O. O. F. hall tonight. There is a class of about 30 candidates to be initiated and all members who possibly can should be present to assist in the work. This class consists of a number of the Simmons applicants who were not ready for initiation at the preceding meeting and a number whose applications have since been written. Deputy Grand Master Workman F. F. Miller will be present to assist in the work of conferring the degrees. Deputy F. G. Simmons also ar-

rived today from Randolph, where he is working at present, to attend the meeting. It is said that the F. E. & M. V. track where it passes the river bluff at Niobrara will be one of the most picturesque pieces of track on the entire Northwestern system when the work is completed. The bed of the road will be of solid rock. Contractor Larson has completed the quarters for his men near the scene of the cut and blasting operations will begin in earnest this week. A few experimental blasts were made with black powder but this proved unsatisfactory and dynamite will be used in the real work. Oliver Anderson, who lives near Bega, was declared insane by the Stanton county board last week. He is in jail at Stanton until he can be accommodated at the Lincoln hospital. During a quarrel three years ago Anderson killed his half-brother and was acquitted on the ground of self-defense. He went to South Dakota and resided there until a few weeks ago when he returned to the Bega neighborhood. Since being placed in jail he made an attempt to commit suicide by the use of a ball of a water pail, but made a failure. He has since been closely watched to prevent him from repeating the attempt. Buy your harness of Paul Nordwig, who sells the cheapest and best. Duffey's old stand. Does it Pay to Buy Cheap? A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, 'Boeche's German Syrup.' It not only heats and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. Get Green's Prize Almanac. Asa K. Leonard.

Fortify yourself against pulmonary troubles, including consumption, with Allen's Lung Balm. A few doses will loosen the cough and enable you to get rid of the phlegm that produces it. SCOTT'S EMULSION will do this when everything else fails. There is no doubt about it. It nourishes, strengthens, builds up and makes the body strong and healthy, not only to throw off this hard cough, but to fortify the system against further attacks.
