NATURE'S ICEHOUSE. Food For Birds That is Preserved in the Arctic Regions.

The number of birds that go to the arctic regions to breed is vast beyond conception. They go not by thousands, but by tens and hundreds of thousands, and because nowhere else in the world does nature provide at the same time and in the same place such a lavish prodigality of food.

But each year the snow descends on an immense crop of ripe fruit before the birds have time to gather it. It is thus preserved perfectly fresh and pure, and the melting of the snow discloses the bushes, with the unconsumed last year's crop hanging on them or lying, ready to be eaten, on the ground.

The frozen meal stretches across the breadth of northern Asia. It never decays and is accessible the moment the snow melts. The same heat which thaws the fruit brings into being the most prolific insect life in the world—the mosquito swarms on the tundra. No European can live there without a veil after the snow melts. The gun barrels are black with them, and clouds of them often obscure the sight.

THE RIGHT TO VOTE. In England it is Withheld From Many Full Fledged Citizens.

There are many full fledged English citizens who are disqualified from membership in parliament and from taking any part in parliamentary elections. Thus all peers of the realm, except those Irish peers who do not happen to have been elected for life to represent their order in the house of lords, are barred from the exercise of franchise. So, too, are police officials, high and low. They neither have a vote nor are they eligible.

Ineligibility to parliament extends to the Anglican clergy, to Scottish Presbyterian ministers and to the Roman Catholic priesthood. Undischarged bankrupts and those convicted of felony and who have not completed their sentences and are merely freed on tickets of leave are likewise disqualified from election to parliament. So, too, are young men under the age of twenty-one and persons who, having been judicially declared insane, have not been legally restored to their civic rights and privileges.

Insanity, however, does not constitute any disqualification in the case of the upper house of parliament. Lunatics are permitted to take part in the divisions in the gilded chamber, and at the time when the Irish home rule bill, enacted by the house of commons, was defeated by the house of lords no less than three crazy peers were brought down to Westminster by their keepers from the insane asylums in which they were held under restraint and voted as hereditary legislators against home rule being granted to Erin.

Something New In Mechanics. Great is the humor of woman when she doesn't mean it, great is the nerve of woman when she doesn't need it, and great are the nerves of woman when it so pleases her. This combination is blamable for the following: A very pretty girl sat in a Long Island railroad train. Suddenly the whistle blew. It is perhaps not necessary to say that a Long Island railroad whistle is more efficacious than otherwise. It is tuned to the key of W and is operated with a great diapason, giving out a brand of yelping shrill different from anything known to nature. To repeat, the whistle whistled. "O-o-ow!" cried the pretty girl. "Isn't that awful? I should think the railroad company would have these things oiled. It is an outrage." Her companion had often heard of wetting whistles, but never before of oiling them. Think it over.—Brooklyn Times.

Quaint Plea For a Pension. All sorts of special pleas have been made in applications for pensions. One of the most ludicrous was made in Portland. When the applicant was asked is he ever served in the army or navy, he said, "No." Asked as to what grounds he based his application on, he said that he was in eastern Oregon when the Indians went on the warpath; that in making for a point of safety he and some other men were attacked by the Indians, one of the other men being killed and another wounded. He escaped on account of the fitness of his horse, but the encounter caused him such excitement that he had had occasional fits ever since, and on account of the fits he thought he was entitled to a pension.—Portland Oregonian.

Webster and Disraeli. Disraeli once met Daniel Webster at a time when American statesmen were rarer visitors in England than they now are. "He seemed to me," "Dizzy" reported, "a complete Brother Jonathan—a remarkable twang and all that. He also goes to the lay-ee," added Disraeli, strongly accentuating the last syllable. "Dizzy" nevertheless noted the American orator's "fine brow and bearded, deep set eyes," but it was Sydney Smith who declared of him that no man could be so wise as Daniel Webster looked.

Scrofula THE OFFSPRING OF HEREDITARY BLOOD TAIN.

Scrofula is but a modified form of Blood Poison and Consumption. The parent who is tainted by either will see in the child the same disease manifesting itself in the form of swollen glands of the neck and throat, catarrh, weak eyes, offensive sores and abscesses and oftentimes white swelling—sure signs of Scrofula. There may be no external signs for a long time, but the disease develops slowly in some cases, but the poison is in the blood and will break out at the first favorable opportunity. S. S. S. cures this wasting, destructive disease by first purifying and building up the blood and stimulating and invigorating the whole system.

J. M. Seal, 115 Public Square, Nashville, Tenn., says: "Ten years ago my daughter fell and cut her forehead. From this wound the glands on the side of her face became swollen and burst. Some of the best doctors here and elsewhere attended her without any benefit. We decided to try S. S. S., and a few bottles cured her entirely."

SSS makes new and pure blood to nourish and strengthen the body, and is a positive and safe cure for Scrofula. It overcomes all forms of blood poison, whether inherited or acquired, and no remedy so thoroughly and effectively cleanses the blood. If you have any blood trouble, or your child has inherited some blood taint, take S. S. S. and get the blood in good condition and prevent the disease doing further damage.
