

GROWERS OF PRIZE BEETS.

Farmers Tributary to Norfolk Secure Four of Five Prizes.

WILLIAM RIGGERT TAKES FIRST.

Over 30,000 Pounds of Beets Grown on One Acre in an Off Year, Making a Profit of \$36.92 to the Grower. What the Other Men Raised.

The prizes awarded in the contest for prize beets by the Orange Judd Farmer of Chicago furnish a striking argument for the territory surrounding Norfolk as to its adaptability for sugar beet growing, farmers in the vicinity of and tributary to the Norfolk factory carrying off all the prizes but one in the state of Nebraska while as compared with the growers at large who entered the contest, a very excellent showing is made considering that the season was unfavorable in many respects for the best results to be obtained.

Proof is likewise furnished that beets can be grown here at a good profit by one who understands the proper culture of the root.

Three hundred dollars of the prize money was given to Nebraska and all but \$75 of it was paid to farmers tributary to the Norfolk factory.

The first prize of \$100 was paid to William Riggert of this city, who raised on the test acre 30,423 pounds of beets. There was a sugar per cent of 15.7 and purity co-efficient of 85.1 shown and the gross sugar produced by the acre 4,776 pounds. For his one acre of beets Mr. Riggert received \$68.53 from the factory. It was grown at a cost of \$31.60, leaving him a profit of \$36.92, which is certainly a profit seldom realized from any other crop that might be grown.

J. J. Jensen of this city took a prize of \$25 from the contest. He produced 16,480 pounds of beets from which 2,192 pounds of sugar were produced, a per cent of 13.3 and purity co-efficient of 79.9. He received for his crop \$36.65 which was raised at a cost of \$29.05, leaving him a profit of \$7.06.

The averages for the five contestants were: Pounds of beets per acre 25,162; per cent of sugar 13; gross pounds of sugar 3,478; refined granulated sugar per acre 2,609 pounds; purity co-efficient 80.5; receipts for crop \$37.24; cost of production \$35.68; profit per acre \$21.56.

Inasmuch as there were four of the five prize winners in this territory it would be an easy matter for the farmers here to approach the average and secure the profit shown, besides receiving pay for their work of planting, cultivating and harvesting the crop. The showing made should furnish an incentive to every farmer to contract for what beets he is able to raise.

The second prize of \$75 was taken by A. S. Grigereit of Fremont whose acre produced 29,302 pounds of beets, per cent of sugar 14, purity co-efficient 85. His crop produced 4,103 pounds of sugar. He received \$56.60 and the cost of raising the crop was \$40.67, leaving a profit of \$17.93 from the acre.

Henry Raasch of this city took the \$50 prize producing 23,848 pounds of beets, which were worked into 3,343 gross pounds of sugar. His beets showed a purity co-efficient of 82.8. He received for the crop on his test acre \$50.69.

The third prize of \$50 went to C. L. Carpenter of Creighton who raises beets for the Norfolk factory. His tonnage was larger than any other of the contestants but had a low per cent of sugar and low purity co-efficient. He raised on his acre 35,757 pounds of beets from which was produced 3,075 pounds of sugar the per cent being 8.6 and 69.9 purity. He received for his crop \$71.75, which was grown at a cost of \$41.60 leaving him a profit of \$30.15.

PATRIOTIC LECTURE.

Chaplain Jesse Cole of Iowa Tells of Civil War Experiences.

From Saturday's Daily:

Chaplain Jesse Cole spoke at the M. E. church last night, the subject of his lecture being "Four Years at the Front." It was a patriotic discourse and the experience of "the boys" during the civil war was delineated by one who had personal knowledge. During the course of his talk the speaker took occasion to define his position on the woman's suffrage question and recommended the adoption of such an amendment.

Tonight Dr. Guy P. Benton, president of Upper Iowa University will lecture, his subject being "Samuel Adams, Patriot." He will also occupy the pulpit at the M. E. church tomorrow morning and evening.

According to program the chautauqua course would be completed with tomorrow, but owing to the failure of Prof. Phil W. Gould to arrive on the night assigned him, he will give his musical monologue Monday evening.

Death of G. W. Wolf.

From Tuesday's Daily:

G. W. Wolf, who was yesterday announced to be very low with a combined attack of appendicitis and pneumonia, died at his home in South Norfolk this morning at 6 o'clock, lacking but 15 days of being 44 years of age. The funeral will be held from the family home tomorrow afternoon at 2 o'clock

and will be under the auspices of the A. O. U. W. to which he belonged. The deceased was raised a Virginian, but the greater part of his experience as a railroad man was received in Norfolk as an employee of the F. E. & M. V. He was an engineer with a run out of Norfolk until two years ago when he went to Missouri Valley and from there to Virginia where he secured a position as engineer. He returned to Norfolk last June and took a position as switchman with the F. E. & M. V. which he held to the time of his last and fatal sickness.

Mr. Wolf leaves a family of a wife and four children to mourn his loss, his wife being a sister of Fred Hollingsworth of this city. Mr. and Mrs. Hollingsworth, parents of Mrs. Wolf, are here from Missouri Valley, Iowa. Mrs. Hollingsworth arrived Sunday night and her husband came this morning, just too late to see his son-in-law alive.

The deceased became a member of the A. O. U. W. just a month preceding his death, joining the order on the 11th day of February with the class of candidates organized by Deputy F. G. Simmons. His policy calls for \$3,000 which will go toward the support of the widow and children.

PRICE OF LIGHTS REDUCED.

Drop from 15 to 10 Cents, With Promise of an All Night Service.

In view of the fact that Norfolk is a city of sufficient size to require an all night electric light service, it is the aim and purpose of the Norfolk Electric Light and Power Co. to render this service as soon as business will justify it.

To be able to give an all night service it will be necessary to abandon all flat rates and sell current only on meter rates. Our present meter rates are 15 cents per thousand watts, or three-fourths of a cent per hour for a 16-candle power lamp.

The company proposes as a special inducement to consumers to buy current on meter rates to reduce this rate to 10 cents per thousand watts, or one-half cent per hour, provided consumers buy their own meters, which for ordinary residence will cost \$15. The minimum charge for any residence will be \$1 per month. This rate is as low or lower than any city known to us that operates its own plant where coal is used for fuel.

The company believes it will be justified in giving an all night service as soon as 100 residences are wired and using current, and hereby agrees to do so. Consumers may employ anyone competent to do their wiring or this company will do same at cost. Consumers already using meters may receive reduced rate by buying meter already installed.

Hoping that this reduction in price will increase our business sufficiently to enable us to give an all night service by September 1 next, we are

Yours truly,

NORFOLK ELECTRIC LIGHT AND POWER COMPANY.

A Big Wild Cat.

The largest species of wild cat ever seen in this part of the country was killed on the West Table by a son of John Wehling. It weighs thirty-six pounds and stands as high as a good sized wolf. It was brought to Broken Bow, where Judge Sullivan bought it and has had it mounted. Dr. Day did the taxidermist work on it and it is now a fine specimen and is as lifelike as can be. The animal was caught in a wolf trap by both front feet and on being found was shot. It is thought that an animal of this size could easily get away with a good sized calf.—Broken Bow Chief.

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and your grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of appendicitis, nervous prostration or heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac. Asa K. Leonard.

REPUBLICAN CITY TICKET.

Jack Koenigstein Nominated for Mayor.

S. R. McFarland FOR CLERK.

Good Attendance of Representative Republicans at the Mass Convention Held at the City Hall Last Evening—Candidates for all Offices.

From Wednesday's Daily.

There was a good crowd of representative republicans at the mass convention held in the city hall last evening for the purpose of placing in nomination city and school officers. Outside of the mayoralty and city treasurerhip, candidates were quickly found, but some difficulty was experienced in inducing men to allow the use of their names in connection with those two positions.

The ticket nominated is as follows: For mayor, Jack Koenigstein; treasurer, L. M. Gaylord; clerk, S. R. McFarland; engineer, W. H. Lowe; police judge, S. W. Hayes; members of the board of education, Dr. P. H. Salter and W. M. Robertson; councilmen—First ward, C. P. Parish; Second ward, R. W. Mills; Third ward, M. D. Tyler; Fourth ward, J. C. Spellman.

The convention was called to order by L. M. Gaylord, chairman of the city central committee. J. L. Hershiser, secretary, read the call.

Judge Powers was elected chairman of the convention and W. N. Huse secretary.

The chair announced that nominations for mayor were now in order. As no one seemed to have a name that he cared to propose, a committee of five was appointed to present a name to the convention for its consideration as a candidate for mayor. The committee consisted of M. C. Hazen, E. J. Schoregge, H. G. Brueggemann, N. A. Rainbolt and J. L. Hershiser.

The committee retired and in a short time returned and reported the name of Judge Powers. The choice was unanimously ratified by the convention even before the judge could gain the attention of the convention and decline the honor. Then E. H. Tracy was nominated from the floor and was enthusiastically elected by acclamation.

A committee to wait upon Mr. Tracy and notify him that he had been nominated for mayor, was appointed, consisted of D. C. O'Connor, J. B. Maylord and M. D. Tyler.

For the office of city treasurer, M. C. Hazen was elected by acclamation, but declined. Then there was running fire of nominations but each man declined as his name was mentioned. Those named were J. S. McClary, C. C. Gow, S. L. Gardner, Robert Utter, W. H. Bucholz, F. E. Hardy, H. A. Pasewak and L. M. Gaylord. The chair held that the convention had a right to vote upon names presented and ordered a ballot taken. C. C. Gow and J. B. Barnes, jr., were appointed as tellers.

The vote taken resulted as follows: Gaylord 36, Gow 4, Bucholz 5, Utter 7, Hardy 5, Gardner 1, McClary 1. Mr. Gaylord was declared the nominee.

Only one name was mentioned for city clerk, and S. R. McFarland was nominated by acclamation.

W. H. Lowe was nominated by acclamation for city engineer.

Col. S. W. Hayes was unanimously chosen as candidate for police judge.

Ballot was taken for two members of the board of education to fill the places caused by the expiration of the terms of Dr. P. H. Salter and H. G. Brueggemann. Jack Koenigstein and M. C. Hazen acted as tellers.

The ballot resulted as follows: P. H. Salter 35, H. G. Brueggemann 7, J. B. Maylord 1, M. D. Tyler 12, W. H. Bridge 21, W. H. Johnson 14, R. R. Smith 6, W. M. Robertson 27, J. S. McClary 1, H. A. Pasewak 1. Messrs. Salter and Robertson were declared the nominees.

At this time the committee returned to the hall, escorting Mr. Tracy, who had been nominated for mayor. He thanked the convention for honoring him with the nomination; it is always an honor to be nominated by the republican party for any office, no matter how great or small. But he said that it would be absolutely impossible for him to give the attention to the duties of the office that they would require, and he declined to accept.

Then the convention went gunning for a candidate and successively nominated M. C. Hazen, C. C. Gow, F. E. Hardy, J. E. Simpson, E. A. Bullock and Jack Koenigstein, but each in turn more or less emphatically declined to stand as the candidate.

A new committee was appointed to attempt to find a candidate. This committee consisted of Messrs. Tracy, Widaman, Smith, Bucholz and Livingston. After being out some time the committee returned and reported that they were unable to present the name of a man who would consent to become a candidate.

Jack Koenigstein was then nominated from the floor and elected. He arose to again decline, but friends persuaded him to sit down and his declination was left unaided.

The convention then divided up into ward caucuses and nominated council-

men and members of the central committee. The candidates for councilmen selected are as follows:

First ward, C. P. Parish. Second ward, R. W. Mills. Third ward, M. D. Tyler. Fourth ward, J. C. Spellman.

The members of the central committee are as follows: First ward, Al. Johnson; Second ward, J. W. Ransom; Third ward, M. C. Hazen; Fourth ward, W. H. Livingston.

Parish Declines.

C. P. Parish, who was last evening nominated for councilman from the First ward, notified the republican central committee this morning that he declined the nomination, that under no circumstances could he be the candidate. The committee has not yet had a meeting to fill the vacancy.

TRAVELS OF SACK OF SUGAR

Letter Written by M. D. Smith Receives an Answer.

LANDS IN WILDS OF WYOMING.

Used to Sweeten the Coffee and Pies of Government Saw Mill Gang, Who are Anxious to Know How the Saccharine Matter is Extracted.

Milo D. Smith, weigher of sugar at the Norfolk factory during the last campaign, placed a letter in one of the sacks for the satisfaction of learning the destination of that sack, chosen at random, and requested an answer to his note from the receiver of the sack. His letter was dated November 25, and last week he received a reply postmarked at Dayton, Wyoming, and dated "Wolf Mountain, Crow reservation, government sawmill, January 27." The reply was signed "Saw Mill Crew" and contained a description of their life, pleasures and pursuits.

The saw mill is located fifty miles from the nearest postoffice and owing to a heavy fall of snow the writer stated that it would require a skilled traveler on snow shoes to deliver the letter to Uncle Sam. The route covered would be through an uninhabited country, dangerous for the traveler because of wild beasts and hostile Indians. The crew is composed of 50 men and they have plenty of wild game, including venison and bear meat. As the letter was being prepared the writer states that a female bear and her two cubs were seen not 50 yards from camp. The crew has a pet mountain lion which was recently captured and follows some of the boys like a dog. The lumber made by the crew is used in erecting buildings at the agency. The camp is located about 8,000 feet above sea level and the temperature registered about 60 degrees below zero at the time the letter was dated. It is stated that a member of the crew left the camp about a week previously for the mail and some mill supplies and had not been heard from since. He should have made the trip in three days and a party was started out to search for him. The writer states that a man can always get a job there and at good pay. The camp has been located ten years and during that time a number of men have lost their lives because of the dangers surrounding them. It is stated that because of wolves, bears and Indians who stampede them, it is difficult to keep horses. The writer is anxious to receive an answer to his letter and wishes the process of making sugar described.

The letter furnishes evidence of how the product of the Norfolk factory travels. This is but one sack. Others perhaps take longer journeys but it is probable that few get to more out of the way places than this one. Northern Wisconsin Railway Farm Lands For Sale. The Chicago, St. Paul, Minneapolis & Omaha railway has for sale in Northern Wisconsin, at low prices and easy terms of payment, about 350,000 acres of choice farm lands. Early buyers will secure the advantage of locations on the many beautiful streams and lakes, which abound with fish and furnish a never ending and most excellent water supply, both for family use and for stock. Land is generally well timbered, the soil fertile and easy of cultivation and this is rapidly developing into one of the greatest sheep and cattle raising regions in the northwest. Chicago, Milwaukee, St. Paul, Minneapolis, Duluth, Superior, Ashland and other towns on "The Northwestern Line" furnish good markets for stock and farm produce. For further particulars address: GEO. W. BELL, Land Commissioner, Hudson Wis., or G. H. MACRAE, Asst. Gen'l. Pass. Ag't, St. Paul, Minn.

While Wise Doctors are studying the bacillus of consumption, thoughtful laymen realize that a bad cold accompanied by coughing, sore throat and tightness across the chest is too serious a matter for delay or experiment. They also realize that Allen's Lung Balsam cures a common cold in a day or two. Obsolete cases take more time of course.

Does it Pay to Buy Cheap? A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles. "Roscoe's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. Get Green's Prize Almanac. Asa K. Leonard.

Worse Than a Blow from a hard fist is the buffet of cold wind upon a pair of unprotected lungs. A few minutes exposure to cold may be the beginning of consumption. Lose neither time nor courage. Fortify yourself against pulmonary troubles, including consumption, with Allen's Lung Balsam. A few doses will loosen the phlegm and enable you to get rid of the phlegm that produces it. Cure soon follows.
