PYTHIANS CELEBRATE.

Fifty Thousand Participate in Chicago Ceremonies.

Chicago, March 21.—Knighthood flowered in Chicago yesterday with all the pomp that marks the brotherhood of chivalry and secret vows. It was the day that had been set apart as one of jubilee for all Knights of Pythias in the supreme domain, and 50,000 members of the order were in attendance. They poured into the city from dawn until dusk, adorned with badges, or resplendent in trappings of gold lace, plumes and awards. Prudigal of handshakes and cheery greetings, they thronged the corridors of every appointed rendezvous, marched through the streets and finally assembled at the Coliseum in such numbers that thousands were turned away. Those that were barred from the hall of conclave gathered elsewhere. All supreme and grand officers who had been able to reach town in time were entertained at luncheon by Grand Chancellor Charles E. Cushman in the Grand Central hotel.

In the evening there was a parade of many lodges, the marching route lying between the Masonic temple and the Coliseum. The formal program of exercises at the Coliseum began with the ritualistic bestowal of new honors upon the candidate of the Milwaukee lodge team, Governor La Follette, who was escorted into the crowded hall amid cheers.

The spectacle at the Coliseum did not come to an end until far into the night. Today the visiting Knights will attend various informal entertainments planned for them by many of the local lodges and will return to their homes Sunday.

M'NAMARA MYSTERY DEEPENS.

Search Fails to Account for Missing Iowa College Freshman.

Grinnell, Ia., March 21.—The mystery surrounding the disappearance of Roy McNamara, the Iowa college freshman, is deepening and the college faculty has invoked the aid of the entire police force of the state in the search for the missing student. The search so far has been unsuccessful. The boy's father, Rev. J. E. McNamara of Onawa, arrived here yesterday and expresses his belief that his son has become deranged and that he is now wandering about the country.

Declines the Call to Tabor. Bridgeport, Conn., March 21.—Rev. William H. Sallmon, pastor of the South Congregational church of this city, has declined the call to the presidency of Tabor college, Iowa, extended to him last week. It is said that the presidency of another college in the west is likely to be offered to him soon.

South Dakota Republicans. Sioux Falls, March 21.—At a meeting here last night the Republican state committee selected Sioux Falls as the place and June 4 as the date for holding the state convention.

CHICAGO GRAIN AND PROVISIONS.

Features of the Day's Trading and Closing Quotations.

Chicago, March 20.—Grain markets followed a nervous and erratic course today. TO HELP SUPPRESS SMALLPOX.

Expert from Marine Hospital Service Ordered to Nebraska.

Washington, March 21.—The marine hospital service has decided to co-operate with the Nebraska state authorities in fighting the spread of smallpox in that state. In response to a telegram from the state board of health at Lincoln, announcing that a large number of cases of smallpox existed in Nebraska and asking that an expert be sent to advise with the state officials in the work of eradicating the epidemic, Hon. Werten Baker, who has made a record for such service in Virginia, Georgia and elsewhere, has been ordered to Nebraska. Dr. Werten Baker is already en route.

Russo-Persian Agreement.

London, March 21.—The Times understands that Persia has concluded an agreement with Russia, under the terms of which Persia is to get a loan of 10,000,000 roubles and is to give Russia a concession for a new road from Tabriz to Teheran.

Attorney Stricken in Court.

Quincy, Ill., March 21.—General E. B. Hamilton, prominent attorney and politician and a leader in Grand Army circles, died suddenly yesterday, aged 64 years. While presenting an argument before the circuit court, General Hamilton suddenly staggered and sank into his chair dead.

New High Can a Balloon Rise?

The altitude that may be attained by a balloon depends, first, upon its size; secondly, upon the filling of gas, and, thirdly, upon the weight being carried. A balloon of ordinary size, 43,000 cubic feet, carrying the smallest weight—that is, one person—when filled with illuminating gas may reach 20,000 feet, but when filled with hydrogen 27,000 feet. In order to ascend higher we first of all need a bigger balloon.

One may say it was a happy chance that the Royal Meteorological institute of Berlin was provided with a balloon of the unusual dimensions of 300,000 cubic feet. The German emperor furnished £500 for making experiments with it, and the Meteorological institute decided to make use of this opportunity for studying the highest regions of atmosphere.—Harper's Magazine.

A Bad Way to Feed Birds.

It is quite a common practice for persons owning pet birds to teach them to take bits of sugar or other food held by the bird from the lips. It has been discovered that the trainers of young birds in Europe frequently contract in this way a peculiar parasitic growth on the throat and lungs that is frequently fatal, and a warning has been issued by French physicians which may well be heeded by any one feeding birds from mouth to beak.

It All Depends.

A student long ago asked the president of Oberlin college if he could not be permitted to take a shorter course of study.

"Oh, yes," replied the president, "but that depends upon what you want to make of yourself. When God wants to make an oak, he takes a hundred years, but when he wants to make a squash he takes six months."—Instructor.

A Psychological Deduction.

"My dear," said the wife of the eminent professor, "the hens have scratched up all that eggplant seed you sowed."

"Ah, jealousy," mused the professor. And he sat down and wrote a twenty page article on "The Development of Envy in the Minds of the Lower Grade of Biped."—Baltimore American.

Emotion Wasted.

"It was terrible even to see the villain die," said the emotional girl at the melodrama.

"Oh, well," consoled the old lady, "he would have died anyway. Did you notice how many cigarettes he smoked?"—Exchange.

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of appendicitis, nervous prostration or heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac. A. H. Kiegan.
