The Danes deny positively that Christmas had any official connection with that island purchase deal. He made a grand stand play and created not a little excitement, nevertheless.

Senator Jones will better realize now whose cause he championed during the authorized. recent presidential campaign when the choice was not as he thought it should cation.

Those who have noted the benefit of American sanitation in the decrease of disease and death at Havana are predicting that the cholera will meet its Waterloo in Manila and the Philippines as soon as the sanitary Americans get action on themselves.

The Fremont Tribune is of the opinion lightning will strike in the neighborthat the one-time national leader will \$26.92. have his lightning rod adjusted to catch the full force and effect of the shock.

Nebraska City pretty nearly went republican on the head of the ticket in the recent municipal election. The republican candidate for mayor received 800 votes and his democratic opponent received a total of 255. Every ward went for the republican candidate by something better than two to one.

The supreme court finds no cause for interference in the case of William Rhea, sentenced to be hanged for the murder of Herman Zahn, the Snyder saloon keeper, a year ago. Governor Savage has something of a reputation for finding evidence that the courts have overlooked and he may find reason for commuting Rhea's sentence to imprisonment for life.

Governor Stanley of Kansas has proclaimed April 4 as the date to be observed in that state as Arbor day, when all good Kansans are supposed to go out and dig a hole and plant a tree. It would not be a bad idea for the people of Nebraska to observe the 4th as well as the 22nd as Arbor day. There is no danger of overdoing the tree planting question in this prairie state.

eneral Miles is in training all right When he says the pending army bill will "throw the doors wide open for a future autocrat or a military despot" it sounds enough like that anti-imperialistic bugaboo of the last campaign to deserve the suspicion of having emanated from Mr. Bryan, himself. Evidently that assertion that the general has a well-developed case of presidential bee buzzing in his bonnet was not altogether a chance guess.

· Mr. Bryan proposes to resist the reorganization of the democratic party, on the theory that such reorganization would alienate voters. Those who have been observing the returns of that party are of the opinion that the alienation of voters has been the principal hobby of democracy ever since Mr. Bryan arranged the party and its policies to conform with his way of thinking. As long as his care has been so unproductive of wished for results he should permit the other doctors a few experiments with the feeble old patient.

In an interview down in old Missouri Bartley intends to return the money or the votes cast at the city election held a little harsh language was used but a portion of it that was stolen from Nebraska when he was state treasurer. It is to be hoped that the governor speaks the truth. The least atonment that can now be made by the liberated defaulter is to reimburse the state for the loss it sustained by trusting Mr. Bartley with its treasury business.
