THE CHICKERING.

"I quite realize that the tone of the Chickering piano is finer and more beautiful than can be found in the pianos of any other maker, but I cannot see why this should be; I cannot understand why the Chickering should be alone in this delightful quality," said a recent purchaser.

Unconsciously this lady repeated the old question of the whole piano industry, for every manufacturer in America, for many decades past has been trying to discover the secret of the wonderful Chickering tone. Small fortunes have been expended on experiments with the idea of "equaling the Chickering," but no manufacturer has been successful in the attempt. It has now come to be almost a recognized conclusion by thoughtful piano men that it is a hopeless task.

They cost a little more money than other makes yet are so popular that the great factories in Boston are unable to supply the demand, having on their books orders for over 1,000 of their new style A and others which they will not be able to ship before next December, yet the purchasers are willing to wait for them.

We sell them direct from the factory at prices you cannot obtain elsewhere.

JOHNSON'S FURNITURE STORE.

FRIDAY FACTS.

C. E. Dougherty and E. A. Amerine are the latest to add cement walks to the improvements of their residence property.

H. L. Snyder received a message this morning informing him of the death of Mrs. Snyder's mother at Piqua, Ohio,

which occurred yesterday. Mrs. Snyder was at her old home, having been summoned by a message announcing the serious illness of her mother.

The parochial school of Christ Lutheran church left this morning for an all-day picnic at Hille's grove, a mile north of the city.

Mr and Mrs. Robert Utter moved yesterday into one of the handsome new cottages just completed by Col. S. S. Cotton on Koenigstein avenue.

Tracy & Durland negotiated the sale of 720 acres of Pierce county land, comprising two improved farms. The consideration was \$23,300 and purchasers were prominent German farmers of Johnson county. They will take possession of their newly acquired property the first of next March and it is probable that they will be followed to this section of the state by several more of their neighbors.

Many small boys have formed the habit of throwing clods at people as they pass, and so frequently is this done that it is becoming a good deal of a nuisance. As an instance of what might come of this practice, Millie Bridge was walking down Fourth street this morning, and when near the Baptist church a band ofurchins commenced throwing clods at her, one of them striking her in the chest. The blow hurt her quite badly, although it was not at all serious. Children should be taught better manners.

The Petersons finally succeeded in securing a good attendance to their vaudeville entertainment at the Auditorium last night and filled the house by reducing the admission fee to a flat rate of ten cents to all to any part of the house. They presented a very creditable entertainment and it is probable that a large number of them will attend the performance tonight at an admission of 20 and 10 cents. The serpentine dance with colored light effect by the female impersonator last evening was one of the meritorious features.

Dr. F. M. Sisson returned last evening from Lincoln, where, as a trustee, he attended the commencement exercises of Wesleyan university. He reports this, one of the youngest Methodist institutions of the west, in a very prosperous condition. Dr. Sisson remained over a day in Lincoln to be present at the commencement of the state university. He states that there were, from the several departments, 203 graduates. Norfolk has its share, not only in numbers, but in distinguished positions of honor as well. Among these was the commission, at the hands of the governor, of captaincy in the state militia organization upon A. Kimball Barnes. The Lincoln auditorium was crowded to its full on commencement day to listen to Booker T. Washington, L. L. D., deliver the oration, the subject being, "The Race Problem." None were disappointed but all were inspired to higher ideals of intellectuality, morality and patriotism. One of the most sublimely pathetic scenes was the closing act. Ex Governor Thayer was presented to the chancellor who, in the name of the university, conferred on him as a scholar, soldier, statesman and patriot, the degree of doctor of laws. This was greeted with a round of applause as the old veteran sank into his chair, and will be commended by every Nebraskan.

House for rent. Inquire of C. S. Bridge.

Mrs. Robert Utter, who is considered an excellent judge of quality and tone in a musical instrument, today purchased from J. D. Sturgeon a fine Behr Bros. piano, that will go toward beautifying her new home in the cottage just completed by Col. Cotton.

A Tornado in Norfolk would cause everybody to take out insurance at once. Why wait until we have one. No time to lock the stable after the horse is stolen. We have four good insurance companies.

W. J. Gow & Bro.

D. W. Forbes, manager of the Forbes Locating agency, Bonesteel, So. Dakota, was in the city last Saturday and left Sunday for Iowa. He will return to Norfolk and can be found at the Norfolk Shoe Co. store next Saturday. Those wishing information in regard to free homes will do well to call and see Mr. Forbes who will be pleased to give you information in regard to lands on the Rosebud reservation.

The Weather.
Forecast for Nebraska: Partly cloudy tonight and Saturday, with probably local showers and thunderstorms. Warmer tonight.

Dr. H. O. Munson, room 16, Bishop block. Telephone 150.

Ice cream delivered to all parts of the city; fine cream for parties a specialty. Try our confectionery, staple groceries and canned goods. We make a specialty of cheese and Milwaukee sausages.

JOHN FREYTHALER.

Go to Kauffmann for ice cream bricks put up in neat packages. Three flavors or plain, 40 cents a quart. Bricks may be kept for two hours after leaving the store. The best and purest quality of materials used in these creams.

FOR SALE—2 tracts of 10 acres each in edge of town. **GARDNER & SEILER.**

Strawberries at Schorregge's.

OMAHA WILL CALL ON NORFOLK.

Commercial Club and Band Will be in this City on Friday Evening.

According to a letter received by C. P. Parish Norfolk people are to enjoy the pleasure of hearing the Twenty-Second Infantry U. S. band before the Fourth of July, as it is to accompany the Omaha Commercial club on a visit to this city on Friday, June 20. On that trip Bandmaster Reichardt will be accompanied by 20 men, whereas he will have 25 men with him here on the Fourth.

The Commercial club has planned an itinerary that will take them through the towns along the Elkhorn and Omaha roads in northeast Nebraska during the 19th and 20th of this month. They will leave Omaha over the M. & O. Thursday morning, going north through Blair to Emerson, east to Jackson, up the branch to Hartington, where they will spend the night, and on Friday will come back through Laurel and Wakefield to Wayne, through Randolph, up the Bloomfield branch and back through Wayne to Norfolk. Here they will stop for supper, remaining in the city an hour and a half, from 5 o'clock to 6:30. From here they will go east to Fremont and then back to their homes in Omaha. The committee in charge of arrangements, Charles T. Kountz, W. M. Burgess, T. C. Byrne, Euclid Martin, George M. Ribbell, and E. E. Bruce, threaten that if this is not the biggest success in the way of trade excursions ever attempted they will go on the war path.

The Norfolk Commercial club will no doubt undertake the task of properly receiving and entertaining the Commercial club of the state's metropolis on the occasion of their visit to this city. The visitors should carry away the impression that Norfolk is one of the most wide-awake, progressive, energetic, cordial cities in the state and they have had a wide experience that will qualify them to be critical judges of such characteristics. For that hour and a half the city can afford to suspend business and meet with the business representatives of Omaha and show them that the hearts of Norfolk people are active and located in the right place. They will sincerely appreciate an evidence of neighborly, if not brotherly, feeling on the part of the people of this city.

We have a house and five acres to rent for \$8 per month.
GARDNER & SEILER.

ORATOR OF THE DAY.

H. C. Brome of Omaha Has Consented to Speak in Norfolk on the Fourth.

The committee on speaker for the Norfolk Fourth of July celebration, of which John R. Hays is chairman, has extended an invitation to Hon. H. C. Brome of Omaha to speak on that day and he has accepted. Mr. Brome is one of the foremost platform speakers in the state and those who admire a fine address will assuredly hear one on the Fourth if they will listen to Mr. Brome. His forensic ability is well known to the people of Norfolk and surrounding country and there will be many who will come to hear him who would not be attracted by the other events of the day. It is assured that the speaking will be on the high plane of the other features of the day and enough pleasure and entertainment is now in sight to insure those who become the guests of Norfolk one of the most enjoyable occasions in the history of the state. Mr. Brome was formerly a resident of Norfolk where he started in a successful career as an attorney. He removed to Omaha with a view to enlarging his sphere and has attained a reputation as an attorney and an orator that is state wide. Those who enjoy an enthusiastically patriotic Fourth of July address will not miss it by coming to Norfolk and hearing Mr. Brome.

Cost of Lighting.

A good many people who contemplate using electric lights for their residences have wished to know what it was costing other people on the meter basis for that purpose.

To answer this inquiry we have tabulated our charges for this class of service for the last four months, viz: February, March, April and May. These four months have the average amount of darkness occurring during the year and therefore their average shows average for the whole year.

We had for those four months 10 residences using light, each having an average of 21.4 16-candle power lamp. Most of these consumers own their own

meters and are paying 10 cents per thousand watts, so the tabulation is made on this basis:

Month of February, average bill \$2.49, or 11 1/2 cents per light.

Month of March, average bill \$2.10, or 10 cents per light.

Month of April, average bill \$1.76, or 8 1/2 cents per light.

Month of May, average bill \$1.30, or 6 cents per light.

Total four months per consumer, \$7.65, or \$1.90 per month, a little less than 9 cents per lamp.

An attempt is being made to secure enough additional business to justify an all-night service by November 1, next. If you would like an estimate on the cost of wiring, which we are doing at absolute cost, drop us a card or call at our office at the plant.

We will have about July 1 a line of sample fixtures at our office which will be sold as low as possible.

Yours very truly,
NORFOLK ELECTRIC LIGHT AND POWER CO.

FOR SALE OR PART TRADE—Thirty head of registered shorthorns, both sexes. All at Norfolk—Good ones too.
A. J. DURLAND.

CUT-WORM MOTHS

Prof. Bruner of the Nebraska University Writes of the Insects.

A. J. Durland recently wrote to Lawrence Bruner, professor of entomology at the experiment station, state university, Lincoln, regarding the moth that has been so common in Norfolk and vicinity this spring. Replying to his inquiries the professor writes:

"The insect which you mention is a species of cut-worm moth, probably the same as that which was so plentiful several weeks ago in portions of central Nebraska in alfalfa, wheat and other fields. There seems to be no special method by which these moths can be destroyed other than to depend upon birds and other natural enemies. The probability is that they will deposit eggs within the next week or ten days and then die. Whether or not the eggs will produce extensive broods of cut-worms remains to be seen, though it is not necessary that such should be the case since quite frequently these insects appear in large numbers and for some reason or other even the next generation is smaller than ordinarily. The natural enemies of cut-worms and their relatives are different kinds of flesh flies, Ichneumon flies, predacious beetles, frogs, lizards, mice, shrews, and other small mammals. Disease sometimes breaks out among them and takes off large numbers. Unfavorable climatic conditions form a prominent factor in regulating the numbers of these insects. They do not seem to have any particular food plant which they prefer to others to such an extent as to make it necessary to cease growing such plants."

Excursion tickets will be sold over the F. E. & M. V. on June 17 and 18 to Lincoln and return at one fare for the round trip, good to return until June 21, account of the republican state convention.

Fourth of July Excursion.

Tickets will be sold on the F. E. & M. V. railroad (the Northwestern line) to points on this line within a distance of 200 miles at one and one-third fare for the round trip, on July 3 and 4, good returning until July 7.

H. C. MATRAU,
Agent.

Low Fare Excursions

To Hot Springs, South Dakota and the Black Hills, via the F. E. & M. V. railroad. Excursion tickets will be sold every day until September 15, good to return until October 31, to Hot Springs, Deadwood and Lead, South Dakota.

Full particulars will be cheerfully furnished as to rates, etc.

H. C. MATRAU,
Agent.
