

MORE MUSIC FOR FOURTH.

Fourth Iowa Regiment Band Engaged.

ORGANIZATION OF 20 PIECES.

Will be Here From Sioux City to Delight Lovers of Music—Two of the Best Bands of the West Will Play in Norfolk—Other Attractions.

The hustlers for the Norfolk Fourth of July celebration have added new honors to themselves and another splendid feature to the program for the day. The new feature is in music and is a further guarantee that the quality day will be of the best afforded in the west and a continuous concert of high grade band music during the day. The latest acquisition is Reed's Fourth Iowa Regiment Military band of Sioux City. This band is composed of twenty pieces and every man is a thorough musician. It has a deserving fame in Sioux City and throughout Iowa for the quality of music furnished. With this band and the Twenty-second infantry band of twenty five pieces Norfolk is in a position to promise those who will be her guests on the nation's birthday the finest to be had in the music line and lots of it. Many who come here will undoubtedly consider the band first alone worth coming for, but there will be a good measure of enjoyment in all lines and those who do not care for band music will have plenty of other attractions to claim their attention. The field of sports will be broad and complete and the speaking and singing will be of a high order while the parade, the battalion drill and other features promise to be of an order that will gratify those who want to see sights.

Norfolk has entered into the spirit of the occasion with a zeal that promises a day of thorough enjoyment to those who will be here and it is considered that there will be no room for disappointment. As illustrating the spirit that prevails here the committees finding that they could use more funds to advantage went among the business men and citizens Friday and Saturday and succeeded in getting contributions amounting to a couple of hundred dollars. The fund provided is now probably the largest ever raised in north Nebraska for a similar purpose and is a guaranty not only that the committees will be able to do business on practically a cash basis, but that the features will be on the order of excellence that a large fund will allow.

Sidewalks on the Fourth.

To the Public: Numerous inquiries having been made regarding the use of sidewalks and streets on the Fourth of July, will say that there is no law which permits the use of the sidewalks by anyone. Allowing business men to use a portion of the sidewalks for display purposes is merely a matter of courtesy and no great objection is raised to such use during ordinary times. On the Fourth of July however, we will insist that the sidewalks be kept free from everything, as it will be necessary to use all sidewalk space for the accommodation of the public.

The right to the use of the street has been granted to the Fourth of July Concession committee so that they can raise some little money to help to defray the Fourth of July expenses.

Anybody wishing to have a stand in the street will have to consult the Concession committee.

DANIEL J. KOENIGSTEIN, Mayor.

A box of the largest Nebraska grown strawberries the writer has ever seen was brought to this office this morning by A. N. McGinnis, who lives in Warnerville precinct. One of the berries

measured 5 1/2 inches in circumference, and many of the others are nearly as large. The berries brought to town by Mr. McGinnis were eagerly taken by dealers.

Mrs. H. E. Owen entertained a large company of lady friends last evening at a lawn party at her home on North Twelfth street. Long tables were spread on the lawn at which the ladies were seated and served with a dainty supper.

W. R. Hoffman, who has undertaken to get up a boys' brigade to take part in the celebration here on the Fourth desires all boys between the ages of 12 and 15 years who will take part in the parade, with and without ponies, to meet with him at the store of Hoffman & Smith Monday afternoon at 5 o'clock sharp, to organize and arrange the details of the boys' section.

E. J. Schoregge, Frank Davenport, W. H. Johnson and Emil Moeller have been appointed an auditing committee to audit the receipts and expenditures of the Fourth of July committee. After the celebration a statement will be published showing the receipts and expenditures in detail, and it will be the duty of the auditing committee to examine and verify that report, and if found correct to approve it. In this way all contributors will be informed of the disposition of funds entrusted to the executive committee of the Commercial club.

The Creighton base ball enthusiasts have provided for an excursion to bring them to Norfolk tomorrow to witness the game of ball between the team of that city and the Norfolk team. It is expected that besides the Creighton fans there will be a large number from towns between here and there who will take advantage of the excursion to come down and see the game, which promises to be highly interesting. The Creighton team arrived in the city today and this afternoon the first game of the series is on with a large number of interested spectators in attendance.

On call of President W. L. Kern the Norfolk fire department met last evening to consider the invitation of the executive committee, having in charge the Fourth of July celebration, to participate in the observance of the day. A communication from the Madison fire department was read asking the Norfolk department to participate in the celebration there. The compliment was acknowledged and the secretary was instructed to reply, requesting the Madison department to take part with the Norfolk department in the celebration in this city. A motion to prepare a float for the parade did not meet with favor and it was decided that the firemen should appear in uniform with the hook and ladder truck and a couple of the hose carts, suitably decorated, to participate in the parade. Chief Hartford desired that the secretaries of the different companies should urge the members to take part in the parade and it was decided that all active members be requested to take part or furnish a substitute. In case of failure to do either on the part of the members a fine of \$1.00 will be imposed. It was decided to appoint an executive committee of three members from each company to have in charge the arrangements for the day. The following were appointed on such committee: Lerman, Powell and Bothke of the Queen City company; McFarland, Kern, Sandford of the Mast company, and Smith, Ahlman and Vail of the Pioneer hook and ladder company. The bill of L. Buckendorf for flowers used to decorate the graves of deceased firemen was allowed.

Miss Irma G. Allen, general worker for the Nebraska Children's Home society yesterday afternoon took to the home of Mr. and Mrs. Ed. Wilkin a boy 13 years of age who had been given in charge of the society. Miss Allen is well pleased with the results of her efforts in this case, believing that the boy has secured a nice home and that Mr. and Mrs. Wilkin will have a boy of whom they can be proud and who will be a great help to them. Mr. and Mrs. Wilkin are to be commended for opening their home to this boy, who they are doubtless removing from a life that would lead to pauperism or crime. Statistics are that it costs an average of \$2,000 for sending a man to the penitentiary. Miss Allen's society aims to save the state much of such expense by taking children from homes that tend to instruct for the penitentiary and placing them where they will develop into men and women of credit to the state and society. Children cared for by the society have developed into creditable young men and women, while brothers and sisters whom they could not get have become paupers or criminals. Many a child has been kept from the reform school by Miss Allen's society. She is endeavoring to secure the children of a Norfolk family who are being reared in filth and poverty. When her attention was called to the family it was found that the children were suffering for food, having had nothing but a loaf of bread to eat from one evening until up into the next day. The neighbors fed them and their condition was found to be deplorable. They will certainly be benefited by being placed with the Children's Home society.

Battle Creek Republican: Last Friday President Roosevelt signed the bill carrying an appropriation of \$100,000 for a public building at Norfolk. The people of that city are jubilant and will make this an excuse for making the eagle scream a little louder on the Fourth.

The Peterson vaudeville company completed its engagement in this city with a performance in the Auditorium last evening before the largest audience they had entertained during their stay. The voting contest for the diamond ring was decided, the ring going to Miss Maud Clark, who received 2,680 votes. Mrs. Burnett received 2,560 votes and Miss Nettie Allbery 1,930.

Winside Tribune: Three weeks from tomorrow is the Fourth. It would have been a great year for Winside to celebrate, but as it will not, it is in order for our people to figure out where they will spend the day. Norfolk will have a big time, but unless excursion trains are run no one can go from here in that direction. The trains run all right for the east but not the other way.

The Illustrated Bee of yesterday devoted considerable space to explaining what the Nebraska Federation of Woman's clubs are doing toward solving the race problem in the south. They are raising a fund for the purpose of educating Miss Anna R. Vanderzee, in kindergarten work and she promises to spend three years or more in the south at the work. Miss Vanderzee is a graduate of the Lincoln high school and formerly lived in Norfolk, her father, who is blind, having been pastor of the colored mission here. The girl's picture was also published.

C. A. Blakely left yesterday for Omaha to enter upon his duties as traveling salesman for the grocery firm of Paxton & Gallagher. His territory will be west over the Union Pacific, and his family will continue to make Norfolk their home. Mr. Blakely has made Norfolk his home for many years and has a host of friends in this city who will unite in wishing him unqualified success in his new field of work. For a

number of years Mr. Blakely has been chief clerk in the grocery department of the Fair store and through his uniform courtesy and able efforts added much to the popularity of that house and it is safe to say that he will be very much missed by Messrs. Shurtz and Jenkins.

Charles H. Johnson has received further particulars regarding the decision of the inter state commerce commission in the case brought by him against the C. St. P. M. & O. for discriminating against Norfolk in freight rates. The decision is practically as given in the dispatches. There was a dissenting opinion by Commissioner Prouty, not, however, in favor of the railroad. The following was his reason for dissenting: "While I concur in the order that the defendant cease and desist from charging the present rates to Norfolk I do not concur in the recommendation stating what those rates should be, for the reason that, in my opinion, if the tariff recommended by the commission were put in effect such rates would still be unjust, unreasonable and discriminating as to Norfolk."

Hon. W. M. Robertson left today for Lincoln to open headquarters and get ready to interest the delegates to the republican state convention in his candidacy for governor. It is generally considered that he is a leading candidate for the nomination and his friends believe that if the delegates form his acquaintance there is no question as to the outcome. Others who went to the capital city today were: John R. Hays, W. H. Bucholz, J. N. Bandick and W. N. Hase. Mrs. Norfolk people will go down tomorrow to see to it that their candidate is treated with consideration and it is probable that the Norfolk headquarters will be among the liveliest in the city. Mr. Robertson will be pleased to have as many of his neighbors and friends as possible attend the convention and take an interest in the efforts that are being made to have Norfolk furnish the candidate for governor.

Many of the towns tributary to Norfolk are acting neighborly in regard to Norfolk's celebration of the Fourth. Realizing that this city has not attempted to celebrate for the past six years while others have been observing the natal day and receiving additions to their crowds from Norfolk and vicinity, they give evidence that they feel in a reciprocal mood and will give up celebrating this year and permit their people to come here. Newman Grove, Winside, Stanton and Battle Creek are among the towns that have signified an intention of celebrating in Norfolk and Norfolk hopes to entertain in a manner that will leave them no cause for regret at the course they have taken. The last week's issue of the Tilden Citizen indicates that the people of that place will likewise spend the day here. It says: "The outlook for a Fourth of July celebration at Tilden is not very favorable as we go to press. Although upwards of \$200 was subscribed, there seems to be a disposition to forego any demonstration at home in deference to Norfolk people who appear to be making arrangements to celebrate on a grand scale. Nothing definite has yet been decided on, but in view of the expressed opinion heard on all sides The Citizen is justified in stating that a Tilden celebration this year is a very doubtful possibility."

It quickly cures coughs, colds and all lung troubles of the severest nature, removing as it does the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. They go to Lincoln with determination of helping the candidacy of Hon. W. M. Robertson for governor.

Drovers Journal-Stockman, South Omaha, June 9th: L. S. Needham, one

of Nebraska's prominent feeders, was on the market today with six loads of well fattened beef cattle that netted him over \$13,000. To say that Mr. Needham was well pleased is not necessary as he has found that he can make just as much money at home as he can at Chicago market, where he has been shipping for the last six years, this being the first consignment he has sent to South Omaha in that length of time. The cattle were all fed in the feed lots near Winsde, which Mr. Needham owns, shelled corn and alfalfa hay being used to prepare them for market. Among the cattle shipped were 107 steers and stags, averaging 1,335 pounds.

She stated that she had been in towns where the people evidenced great interest in and sympathy with the work of caring for homeless children, but not all of them had given the substantial evidence of their interest and sympathy that the people of Norfolk gave. She also stated that she had just received word from headquarters at Omaha stating that they had received five boy babies who were in need of homes.
