

CLASH IN THE SENATE

Bailey Assaults Beveridge on Floor of Chamber.

RESULT OF A HEATED TILT.

Texas Asks Indiana Senator to Retract and Refusal is Met With Physical Attack in Which Beveridge's Neckwear is Ripped and Torn Away.

Washington, July 1.—Hot words passed between Bailey (Tex.) and Beveridge (Ind.) on the floor of the senate and, after the adjournment, was followed up with a physical assault by the Texas senator on the senator from Indiana. Bailey criticized the state department for its handling of the case of an American citizen, Dr. Scott, and relected on the competency of Judge Penfield, solicitor of the department. Beveridge characterized the words of the Texas senator as "an unwarranted attack." This characterization Bailey regarded as an insult and demanded that the Indiana senator withdraw his words. Beveridge declined to withdraw them unless Bailey first withdrew his language in respect to Solicitor Penfield, although he disclaimed any intention of insulting Bailey.

The trouble grew out of a resolution offered by Bailey calling for the papers in a Mexican mining case, in which, he maintained, Dr. Scott had been unfairly treated, not only by the Mexican courts, but also by the American ambassador, Mr. Clayton, and the officials of the state department. Bailey declared that Ambassador Clayton was ethically incompetent or dishonest, and his remarks led to some tart rejoinders.

After the senate had adjourned from executive session Bailey walked over to where Beveridge was sitting and told him that if he did not withdraw his words he would make him retract. Upon his refusal to do so Bailey threw himself upon Beveridge, who is a man hardly up to the average in physique, and seized him by the throat with both hands. The rush was so sudden and fierce that the chair in which Beveridge was sitting was pushed back against a desk and the desk toppled over. Before the assault could go any further senators who had been sitting near had moved up between the desks. Handsprung seized Bailey by one arm and Spooner seized the other. The Texas senator is a powerful man, and it was with great difficulty that the two senators were able to drag him away from Beveridge, and when they succeeded a part of the Indiana senator's neckwear was ripped and torn away, in the vigorous grasp of Bailey. Bacon and a doorkeeper came quickly forward and assisted in pulling the Texas senator further away. Bailey meanwhile struggled to get free and lunging toward Beveridge. As he was removed he was heard to utter something that sounded like a threat about killing.

HOUSE READY TO ADJOURN.

Adopts Philippine Conference Report by a Vote of 149 to 92.

Washington, July 1.—With final adjournment probable today, the house worked under high pressure from noon yesterday until far into the night. As a preliminary several resolutions were adopted to grease the legislative wheels. The rule providing for the printing of conference reports before consideration was suspended until the end of the session and a resolution was adopted making a motion to suspend the rules in order at any time. The house then got down to business.

The conference report on the Philippine civil government bill, which is considered the last obstacle in the way of adjournment, was adopted by a strict party vote, with the single exception of McCall (Mass.), who voted with the Democrats. A partial report on the general deficiency appropriation bill was adopted and after a prolonged fight the house, by a vote of 118 to 101, adopted the senate amendment to appropriate \$500,000 for the Buffalo exposition and sent the bill back to conference. The senate amendments to appropriate \$160,000 for the Charleston exposition and \$1,000,000 to pay Hawaiian fire-bombic plague awards were defeated, the former by a vote of 71 to 118. Subsequently, at the night session, the house reversed itself and assented to the senate amendment making an appropriation for the Charleston fair. A number of bills were passed under suspension of the rules, including the senate bills to allot lands in the Cherokee nation and to provide corporation laws for Alaska. At the evening session the Dick militia bill, which is to be used as a stop gap for the remainder of the session while the house is waiting for conference reports, was taken up. The adjournment resolution is to be withheld until the conference report on the Philippine bill is adopted by the senate.

NEWS OF MISSING VESSELS.

Good Prospect That the Jeanie and Portland Will Be Saved.

Port Townsend, Wash., July 1.—The steamer Centennial reached port yesterday nine and a half days from Cape Nome, bringing news of the safety of the steamers Jeanie and Portland. It also brought word that the story of the loss of the United States revenue cutter Thetis is untrue.

The steam whaler Belvidere arrived at Cape Nome on June 20 and reported that the Jeanie and the Portland were sighted in the ice pack on June 17, eighty miles north of Cape Prince of Wales and the Diomed islands.

The revenue cutter Thetis was standing by the imprisoned vessels. The Jeanie and the Portland were not injured by the ice and there were good prospects of their getting away.

A dispatch received at Valdes from Kotzina, under date of June 21, says: "Mount Wrangell is in plain sight of here and great clouds of black smoke can be seen rolling up from her crest."

ADMITS HE KILLED MOYER.

Otto W. Roderick of South Omaha Confesses Guilt.

Council Bluffs, July 1.—Otto W. Roderick of South Omaha confessed to killing Clark Moyer of Council Bluffs last Saturday night. Roderick was the first witness called in the inquest, and his testimony caused a sensation. He says he and a man named Wilson met Moyer and two companions on South Main street, and the latter passed some insulting remarks. Then Roderick hit Moyer in the face and he fell down and off the sidewalk. The others ran and Roderick and Wilson went on, not thinking Moyer was badly hurt. The police are looking for Wilson. Roderick will probably be held for manslaughter.

Guthrie, Okla., July 1.—Sheriff A. J. Bullard and Under Sheriff Coburn of Roger Mills county, Oklahoma, were killed yesterday in a battle with horse-thieves while the officers were attempting to arrest members of the band of outlaws. The fight occurred in the northeast portion of the county and continued for about thirty minutes, the outlaws finally surrounding the two officers and riddling them with bullets. The entire band made its escape, supposedly uninjured, although the sheriffs put up a plucky fight. Suspicion points to the Bert Casey band.

North Dakota Town Fire-Swept.

Larimore, N. D., July 1.—The business portion of Conway, a village of about 600 population, thirty-eight miles north of here, was completely wiped out by fire yesterday afternoon, causing a loss of about \$70,000. The fire started in Rushiska & Vandrabek's hardware store and, spreading to the adjoining business places, destroyed three general stores, one drug store, two hardware stores, one meat market, two hotels, one tailor shop, one dwelling and a millinery store. The insurance is about \$30,000.

Sheriff Asks for Troops.

Boise, Ida., July 1.—Governor Hunt yesterday received a dispatch from Sheriff Rice of Bannock county, suggesting that in view of attacks made by roving Indians on the white men in a portion of the Fort Hall reservation the government should be appealed to send the troops to clear the red men off. Agent Caldwell yesterday wired the governor, denying that there is serious trouble. The governor has notified General Randall, commander of this department, of the complaints.

BONFIRES ARE LIGHTED

King is Still Improving and England Celebrates Good News.

NO BAD SYMPTOMS DEVELOP

Dressing of the Wound Gives Pain, but This, However, is Not Regarded as Serious by the Doctors—Dinner to Poor of London.

London, July 1.—The general feeling of relief as a result of the favorable reports of the condition of the king, vented itself last night by the lighting of 3,000 bonfires throughout the United Kingdom, which were originally prepared to celebrate coronation night. The signal to light the fires was given at five minutes past 9 o'clock. A rocket was sent up from the top of the gigantic wheel in Earl's court and burst in a cloud of stars, 1,000 feet overhead. In response to this signal, bonfires rose from every elevation of any consequence from the Lisar to the Orkneys. The celebrations were unfortunately somewhat dampened by a downfall of rain.

London was not officially illuminated. The display in this line was confined to the theaters, the hotels and the business houses. There was quite a celebration at Spithead yesterday, when the nearest approach to a review of the great fleet there was seen in the trip of several transports loaded with volunteers and colonial troops and a number of distinguished persons, who inspected the empire's first line of defense.

The dressing of the wound causes some pain, but the doctors announce that there is no bad symptom of any kind. In view of the king's continued improvement no bulletins were issued last night. The arrangements for King Edward's dinner to the poor of London, to be held July 5, are being rapidly completed. The Prince and Princess of Wales have arranged to visit a number of the localities where the poor are to be entertained, and if King Edward's condition continues to improve, Queen Alexandra will probably make the rounds with them.

Gardner Drops Hostility Charge.

Manila, July 1.—Major Cornelius Gardner, governor of the province of Tayabas, continued his testimony yesterday before the board which is inquiring into the charges of cruelty brought by him against American officers and soldiers. Major Gardner has abandoned the charge that higher officers in the army in the Philippines were hostile to the civil government. He said this hostility existed, but that the summoning of witnesses to substantiate his charge might result adversely to the interests of the government without benefitting himself.

Final Effort to Save Rice.

Toronto, July 1.—A last effort is being made to save the life of Lee Rice, awaiting execution for the murder of Constable William Boyd. Robinette, counsel for the condemned man, has placed himself in communication with Senator Mason of Illinois and Representative Cannon of Illinois. He hopes that they can be induced to interest themselves in the case.

More Murderers Slain.

St. Louis, July 1.—A low estimate placed on the damage wrought within a radius of 150 miles of Alton, Ill., by the storm of wind and rain is \$1,000,000. While the farmers are the heaviest losers the railroads also suffered severely. In the American bottom district the farmers are ruined.

STEAMER BEACHED IN HARBOR.

Alaska Liner Springs Leak and Has Eight Feet of Water in Hold.

Seattle, Wash., July 1.—The steamer Oregon is ashore at Dutch Harbor with eight feet of water in its hold.

On the voyage north the Oregon began leaking badly before it had passed Vancouver island, and it was found necessary to keep the pumps going constantly to keep the vessel afloat. It reached Nome, however, with two feet of water in its hold and the machinery badly out of repair.

As soon as the passengers and cargo were landed Captain Seeley decided that he could make St. Michael, where the vessel could be safely beached and repaired. After leaving Nome the rudder post gave out and the steamer refused to answer to its helm.

Fortunately the weather was good and Captain Seeley was able to make temporary repairs. As the leak had not increased and did not appear to be dangerous he decided that he could reach Seattle in safety and so did not stop at St. Michael. With the pumps going constantly he found it impossible to keep the water down, and as it was gaining at a dangerous rate he was compelled to put into Dutch Harbor and beach the vessel.

The Oregon had some southbound passengers aboard, but the number is not known. It is believed the vessel can be saved.

YACHT FOR THE PRESIDENT.

Mayflower to be the Ocean Home of the Chief Executive.

New York, July 1.—The Mayflower, the official yacht of the United States and ocean home of President Roosevelt, lies in the Brooklyn navy yard. In its new function, after undergoing alterations that cost \$50,000, it is ready for sea as one of the most luxuriously appointed vessels afloat. The yacht was commissioned Saturday, but the date of sailing from the navy yard has not been settled.

Of the new Mayflower all the officers at the navy yard are proud, as they feel it will be a fitting residence for the chief executive of the nation when social or naval regulations call on him to fly his flag afloat. In designing such a palace for use by the president the United States departs somewhat from the old lines of Jefferson simplicity and takes its place with the other world powers in the matter of naval luxury. Neither the Hohenzollern nor any of the other royal yachts has state rooms and saloons more beautiful or costly than those of the president's yacht.

File Motion for New Trial.

Eldorado, Kan., July 1.—The attorneys for Jessie Morrison, who Saturday was found guilty of murder in the second degree for having killed Mrs. Olin Claiter, yesterday filed a motion for a new trial. One of the principal reasons for asking for a new trial is that a change of venue had been refused. Judge Aikman set the time for hearing the motion for next Monday, when it is believed the motion will be overruled and Miss Morrison formally sentenced. Under the verdict, her punishment can be assessed at from ten years to life imprisonment.

STRIKE IS NOT COMPLETE

Machinists at Some Points Refuse to Walk Out.

EXPECT TROUBLE AT CHEYENNE

Railway Officials Say They Have Machinists on the Way and Will Board and Lodge Them in the Shops. Pinkertons Have Arrived.

Omaha, July 1.—The strike of the Union Pacific machinists, which was formally declared at 10 o'clock Monday morning, is not complete. At Evanston the men refused to quit work, at Green River they voted not to go out, at Rawlins four of the thirteen original number remained at work and at Armstrong only half of the men have gone out.

President Kennedy of the Boiler-makers' union says there are three boiler-makers at work on the Union Pacific system, two at Armstrong and one at Council Bluffs. He says two nonunion men who are at work in Denver, have gone out and this statement is corroborated by General Manager Dickinson of the Union Pacific. Mr. Dickinson, however, says that there are still two men left in the Denver shops.

Cheyenne, July 1.—It is said by the officials that the Union Pacific has ninety machinists en route west. Sixty of them are said to be under orders to report at Cheyenne. A number of the men engaged yesterday are at work transferring the wheel shop into a boarding house. A large number of cots are being made and bunks put in. It is said to be the intention of the company to board and lodge the employees. Four Pinkertons are reported to have arrived here and more are en route.

SEEK TO STOP INTIMIDATION.

Wilkesbarre Citizens' Alliance Offers Big Reward for Boycottees.

Wilkesbarre, Pa., July 1.—The Citizens' alliance of Wilkesbarre offers rewards aggregating \$5,000 for the arrest and conviction of all persons engaged in boycotting, hanging effigies and other criminal acts of intimidation. A reward of \$1,000 is offered for the arrest and conviction of any one who enters into a conspiracy to boycott any individual, firm or corporation. For hanging anybody in effigy \$500 reward will be paid.

At strike headquarters it is claimed that the offering of such large rewards will cause irresponsible detectives to arrest innocent people in the hope of securing the rewards.

Several small coal companies in the vicinity of Hazleton have posted notices requesting their former employees to apply for their old positions at once lest they should be given to new hands.

The district officers of the United Mine Workers in Hazleton say that the ranks of the strikers are as firm as ever and that none of the employees of Pardee & Co. or any other coal company will pay any attention to the notices posted.

Freight Handlers May Strike.

Chicago, July 1.—Unless the general managers of the railroads reverse their announced decision in regard to a new scale of wages, 10,000 freight handlers will in all probability quit work today in all the railroad warehouses and freight sheds in Chicago. If the freight handlers strike it is probable that other unions will be drawn into the struggle through sympathy. Officials of all the railroads replied yesterday to the demand of the freight handlers for more wages. The answers were almost uniform, each of the companies submitting an amended scale of wages, to go into effect after three months. The men refused to consider the concessions of the railroads and declare that unless they are granted better terms they will quit work. From the railroads it was learned that all have determined not to make any further concessions.

Strike on Canadian Northern.

Winnipeg, Man., July 1.—A big strike of employes was inaugurated on the Canadian Northern railway system, owned by Messrs. McKenzie and Mann, caused by the refusal of the management to sign schedules of wages presented by the shopmen of the United Brotherhood of Railway employes. The engineers, firemen, conductors and brakemen are still at work, so that the system is not yet tied up. About 2,000 men are affected.

Birmingham Miners Out.

Birmingham, Ala., July 1.—Over 12,000 miners struck yesterday in the Birmingham district. At a recent meeting of the operators and miners the latter demanded an eight hour day, a pay day every two weeks and 60 cents per ton as the maximum price for mining coal, an increase of 5 cents. The operators refused to grant these concessions.

MOTHER'S FRIEND

ARE YOU A DREAMING MOTHER? ARE YOU EXPECTANT? makes childbirth easy by preparing the system for parturition and thus shortening labor. The painful ordeal is robbed of its terrors, and the danger lessened to both mother and child; the time of confinement is shortened, the mother rested, and child fully developed, strong and healthy. Morning sickness, or nausea arising from pregnancy, is prevented by its use. As pregnancy advances, the breasts enlarge, become swollen and hard. Long before the child is born, they are preparing for the secretion of milk. It is important that they receive early attention. Mother's Friend softens the skin and facilitates the secretion of Life Fluid. Underdeveloped breasts, hard-caked shortly after delivery, are the result of non-treatment, and likely to culminate in Mammary Abscess, from which so many suffer excruciating pain and are left with these organs permanently impaired. Softness, pliability and expansion are given to the muscles and sinews, thus bringing comfort and causing an easy issue of the child. Try it. Of Druggists, etc., our book "Motherhood" free.
