The ball boys, in order to maintain a club worthy of Norfolk and equal to the surrounding towns, must have more money. It will be necessary to increase the present subscription by about a \$100 a month. Manager Wilkins has been running behind and the gate receipts are light. It is a business proposition and Norfolk should be up to the occasion.

Manager Sprecher, of the Nebraska Telephone company, will send a gang of linemen to Wisner tomorrow under charge of E. J. Denny, to construct a farm line 10 miles long. "The farmers' lines," said Mr. Sprecher this morning, "have come to stay and it is only a question of time when this territory will be netted with them." A solicitor will be here shortly to work up this class of business.

Martin Kane returned from Omaha, where he went with his brother-in-law, Fred Hollingsworth, who submitted to an operation for the removal of gall stones. The condition of the patient was considered quite serious for some time after the operation, but when Mr. Kane left he was much better, with fair chances for complete recovery. Mrs. Hollingsworth is attending upon her husband during his confinement in the hospital.

West Pointers found that Howe's circus maintained their Norfolk reputation at that place. It visited there Friday and a number of farmers were victimized by the bunco game and short change racket, warrant was sworn out for the arrest of one of the men, but when the sheriff appeared on the scene the fellow had so altered his appearance that the victim could not swear that he was the man who did the bunco act.

Beginning with tomorrow a force of men under the direction of Water Commissioner Marquardt will begin the work of flushing the hydrants of the Norfolk waterworks system and it is expected that the work will require several days. In the meantime it is asked that water consumers have a little patience as the work is quite likely to stir up the mud in the mains and the water used may be roily until it has had time to settle.

John Quick is the possessor of a badly disfigured countenance caused by the error of a fellow workman in mistaking his face for an engine boiler and attempting to rivet his whiskers. He was working on a boiler Friday when the welding hammer in the hands of his associate slipped and struck Mr. Quick on the left cheek bone, laying a bad wound open on his cheek. The injury was re-

paired as well as possible but it will take some time for it to heal thoroughly.

Herman Hagerman met with a distressing accident while in the performance of his duties at the F. E. & M. V. round house at the Junction last Friday. He was in the act of mounting an engine when from some unexplained reason he lost his balance and fell over backwards, striking his head on the floor of the engine house. The accident resulted in the paralysis of the optic nerve of his left eye and the victim has lost the sight from that organ. The doctors here and at Omaha have examined the case but offer no hope of the return of vision to the eye. They consider, however that Mr. Hagerman may, in time, outgrow the injury and have his eyesight restored through natural agencies.

A. J. Johnson returned home last night from New Salem, Ill., where he has been visiting his son, Dr. Robert Johnson. Dr. Johnson is doing eminently well in New Salem, which was years ago his father's home.

Dr. Salter will leave in the morning for Arcadia, Kansas, having under his care Sam Harris who was injured by falling from the train at South Norfolk on the morning of the Fourth. Harris' father will join them at Omaha.

The ladies of the W. C. T. U. hold regular meetings on the second and fourth Wednesdays of each month. For the present such meetings are being held in the ladies' parlor of the M. E. church. The next regular meeting will be tomorrow afternoon.

A pit of sticky mud, a heavy load and a none too well kept team, were the causes for a horse falling under the reins of William Christianson in a down town alley-way this morning. The animal had a hard time getting to its feet but was finally helped up.

Last week the earth passed between the planet Saturn and the sun. Astronomers predicted that the result would be either a severe warm spell, boisterous electric storms, or drought. With such a range of predictions it certainly should have happened, but it didn't, to any great extent.

Niobrara recently received "a fine rain". Although so close to this section of country, that town must have escaped the torrents that have been visiting this vicinity during the past month or two, else no rain would have been welcomed with the words that it was "a fine shower".

Among the bidders awarded contracts for supplying army forage for the Nebraska forts, D. Rees, of this city, heads the list with the largest individual contract made. He will furnish Fort Robinson with 2,900,000 pounds of oats at \$1.20, until December 31, 1902, and then at \$1.25 until June 30, 1903; and 100,000 pounds of bran at 73 cents.

H. E. Owen and D. M. Owen are in Norfolk from their railroad contract work in Iowa and Kansas. They have recently bought another large contract-

ing outfit of 25 teams and complements, which makes this one of the strongest firms of this character in the west. "The greatest difficulty we have," said Mr. Owen, "is trying to find laborers. Times are too good."

The construction gang of the F. E. & M. V. extension has now crossed the river at Niobrara on the false work of the big bridge and is hastening toward the terminus of the line with all speed. It is expected that the track will be laid through Boyd to Gregory county within a few weeks. The extension of this line means a great deal to Norfolk and the citizens of this city should arrange a big excursion to the end of the line when it is completed and be prepared to give the people of the town and villages along the way the glad hand of neighborliness. There is a magnificent farming country opened up to trade by the extension and Norfolk should gather in a share.

Prospects continue favorable to Norfolk's securing the Modern Woodmen picnic for September. Norfolk was to have had the picnic last year but gave it up on account of the small pox and the meeting place for this year was not designated. It would seem that this city was entitled to it this year and the local camp will meet tonight to form some definite plans. A crowd of 10,000 people in the city for three days would be a good thing for Norfolk, and every business man should be present at the meeting next Friday night at the city hall. President Luikart, of the Commercial club, states that it is the intention to handle the affair in much the same way as the Fourth of July celebration, with an executive committee of representative men, and sub-committees who will carry the entertainment through without a hitch anywhere along the line.

Miss Kathryn Sisson of this city has been engaged by the Central Nebraska assembly to take charge of the children attending at the session to be held at Fullerton August 12 to 22. The Central Nebraska assembly edition of the St. Edward Sun of the 19th has this to say of Miss Sisson and her work: "The 'Little Tots' will have a bigger time than ever this year, for Miss Kathryn M. Sisson, the child entertainer and instructor, will be here to take charge of the children and will lead them in all their sports, and conduct their games and drills. If parents feel they must leave the little tots at home so they will not have to worry about them, the assembly management can assure those fond parents they can lay aside all worry when they place their children in the care of Miss Sisson at the assembly. Bring your children along and give them a time which they shall never forget. Toys and playthings stored at the 'Children's Headquarters' free of charge."

Howe's "Great" London shows, with their band of Monte Carlo grafters and Bowery bunco men, likewise visited Hooper, calling on that town last Saturday. The shell, short change, and other graft games were at once opened on the show grounds, an ineffectual attempt having been made to get permits from the town. They gathered in about 25 victims, for sums ranging from \$100 to \$4, pocket-picking being a feature of their game. Along toward supper time the atmosphere surrounding the tents began to grow sultry, and after one of the ticket sellers had been knocked down and his satchel appropriated by an intended victim the show decided to cancel the evening entertainment and leave for other fields. Departure was made in such haste that some of the "game" were left behind and were compelled to hire teams to overtake their "snap" jobs. The circus cars were guarded by men with rifles to keep the mob off while the show was making its record get-away.

Editor A. F. Enos of the Stanton Pickett, and his family, were in the city visiting friends yesterday. Mr. Enos is a member of the central committee of the Eleventh senatorial district and attended a meeting of that committee.

Mrs. Caulfield, who is spending the summer in Hot Springs, S. D., for hay fever, writes that she is very much improved in health and will probably remain until September. Mrs. P. H. Patterson, of Chadron, who made Norfolk her home last winter, is with Mrs. Caulfield.

In the tennis tournament being held at the Kenwood club in Chicago for the western companionship, Earl E. Farnsworth of Grand Island, champion of the state university and holder of the Sioux City cup, was defeated in the second round but E. M. Ashcraft, 6-3, 7-9, 4-6.

A. H. Winder has just returned from a trip to Oklahoma. At Oklahoma City he found several former Norfolk people, among them being G. M. Thompson, S. Fuesler and E. Wallerstadt. All of them are prospering and well pleased with the country. Mr. Winder was delighted with what he saw of the territory.

F. G. Simmons, deputy grand master workman of the A. O. U. W., arrived in the city last evening and will spend some time here in the interests of that order. He is the gentleman who gave Norfolk lodge such valuable assistance last winter and the members expect considerable good to come from his help on this visit.

A small party of young people took advantage of the beautiful moonlight of last evening for a serenading venture. The delightful stillness of a perfect night, the charming brilliancy of a July moon and the sweet strains of song to the accompaniment of mandolin and guitar, blended well to make the stunt, withal, a most superior one.

The committee having charge of the base ball subscriptions are meeting with fair success. Few persons appreciate the expense connected with maintaining a good ball team, and if this city wants to stay in the game along with smaller towns around, the expenses will have to be met. Otherwise there will be no more of the sport.

Probably few tennis courts in Norfolk have ever been in as good condition as the one at the corner of Norfolk avenue and Tenth street. The pity is that so many old time enthusiasts have lost their interest in the sport. There have been years in Norfolk when 11 courts were kept filled constantly, but today it is hard to scrape up enough for a game of doubles.

A Massachusetts business firm prints this paragraph at the top of its letter heads: "Errors—we make them; so does everyone. We will cheerfully correct them if you will write us. Try to write good naturedly if you can, but write to us anyway. Do not complain to someone else first or let the matter drop. We want the first opportunity to make right any injustice we may do." The little sermon deserves a wide audience. Few people have not had occasion at some time in their lives to regret the sending of a harsh or hasty note of complaint. It may be necessary to assert one's right in

Fred Seebalt, an old resident and somewhat peculiar character of Wayne, arrived in the city last evening determined to go to Seattle, Wash., having decided to leave his Wayne property and her future welfare in the care of his wife. A friend learning that he had procured his ticket very cheaply, asked to see the pastebord and found that it was good to Salt Lake City, only. The traveler had anticipated his trip to the extent that a box containing barber tools and other personal property had been sent on to Seattle while his trunk is on the way to Salt Lake. After consulting with the agent here and his friends Seebalt decided to return to Wayne and start over again, after the railroad company has fitted him out with the ticket desired. The traveler speaks English only indifferently well and it is supposed that his deficiency in language was responsible for the mistake, the names of the two cities having a similar sound.
