Federation Commends Their Work for Religion and Humanity-Atlantic City Chosen as Next Meeting Place-Old Officers Re-Elected.

Chicago, Aug. 8.-The temper of the convention of the Federated Caththe Philippine question was put to a bernians, offered a substitute resolution for those previously brought before the meeting. Mr. Keating proposed that the delegates dismiss the friars and the Philippine school questions with a mere expression of satisfaction with the manner in which the subject is being handled by the vatican and the administration. This was along the lines advised by Archbishop Ireland. When a motion on the substitute was put there was but one affirmative vote, and that one was Keating's. The convention then adopted the following resolution on the subject:

"We hereby express confidence that President Roosevelt will perform his duty under the constitution and laws and our firm belief that he will institute a rigid judicial inquiry into any abuses by subordinate government officials in our territorial possessions and promptly rectify such abuses. We are especially confident that in his arising in the Philippine Islands, property and personal rights will be faith- in debt." fully safeguarded and protected.

"Resolved. That we extend to the sympathy in this, their hour of trial; that we appreciate the value of their services in the cause of religion and humanity; that we pledge them our support as American citizens in upholding the hands of our government in its determination to see that they are treated with that common justice that belongs to all who enjoy the protection of the American flag.

SEVERE SENTENCES IMPOSED. Summary of Court-Martial Work in

the Philippines.

Washington, Aug. 8 .- A recent mail from the Philippines contains an interesting summary of the result of court-martial cases in the Philippines. It shows that the accused in 227 cases were dishonorably discharged, in 231 cases forfeited pay and allowances, in 115 cases suffered other punishments, in 110 cases were fined, and 320 cases were sentenced to confinement. The charges included murder, manslaughter, assaults and attempted rape. Most of the charges, however, were for trivial offenses and were based on complaints made by native Fillpinos. The record shows that the milftary courts have imposed severe sentences for all breaches of discipline, in some instances inflicting the death penalty.

Temperance Society in Session. Dubuque, Aug. 8 .- The Catholic Total Abstinence union of America got down to business yesterday, with an increased attendance of delegates. The feature of the day's session was an animated discussion of an amendment to the constitution affecting the vote of spiritual advisers of local unions. The amendment, which provided that the spiritual adviser to a local union, who is also a delegate, shall have but one vote, was defeated. thus settling a question of long standing. Baltzer of St. Louis, now presiding officer of the board, and taken under advisement by him for ten days to consult his congregation at St. Louis.

Situation in Venezuela.

Willemstadt, Aug. 8.-The political situation in Venezuela remains unchanged. President Castro, with an army of 6,000 men, arrived at Cua. The revolutionists continue to hold up railway trains between Caracas and LaGuayra.

Buffalo, Aug. 8 .- The elevator association and the Western Elevator company reached an understanding yesterday, with the result that all the elevators of the two organizations are now in a single pool and the elevator rate war is practically over. A Simple Cure For Earnche.

"I am afraid I have greatly interfered with my own practice," said a celebrated aurist, "by giving the following advice to many of my friends: "At the first symptoms of earache let the patient lie on the bed with the painful ear uppermost. Fold a thick towel and tuck it around the neck; then with a teaspoon fill the ear with warm water.

"Continue doing this for fifteen or twenty minutes. The water will fill the ear orifice and flow over on the towel. Afterward turn over the head, let the water run out and plug the ear with warm glycerin and cotton.

"This may be done every hour until relief is obtained. It is an almost invariable cure and has saved many cases of acute inflammation. The water should be quite warm, but not too hot."-London Tit-Bits.

Getting the King's Ear.

The gentle art of speeding a parting guest is not new. The story from Hertfordshire, as told in the "Victoria County History" series, reveals the method tried on King James I. Hunting had taken the place of state affairs in the monarch's affections, and one morning a favorite hound was missing, The dog appeared the next day, bearing a mes sage tied to his neck: "Good Mr. Jowler, we pray you speak to the king for us (he hearing you every day and so doth not us) that it will please his majesty to go back to London, for else the country will be undone, all our provisions spent already."

Curly Hair.

Persons with naturally curly hair are said to be possessed of more lovable and sweet natures than those with wiry or straight capillary adornment. On most occasions the fact that we are looking our best is a wonderful incentive to good behavior, and the woman with natural curls can discount her straight haired sister many a time and oft. She knows it. Why should she not be amiable? Straight hair was considered by the ancients as a mark of the gods' displeasure. Hair which was straight before sickness will sometimes grow curly afterward.

SCROFULA

I bequeath to my children Scrofula with all its attendant horrors, humiliation and suffering. This is a strange legacy to leave to posterity; a heavy burden to

place upon the shoulders of the young.

This treacherous disease dwarfs the body and hinders the growth and development of the faculties, and the child born of blood poison, or scrofula-tainted parentage, is poorly equipped for life's duties.

Scrofula is a disease with numerous and varied symptoms; enlarged glands or tumors about the neck and armpits, catarrh of the head, weak eyes and dreadful skin eruptions upon different parts of the body show the presence of tubercular or scrofulous matter in the blood.
