Hon. J. J. McCarthy, of Ponca, republican nominee for congress from this district, was in our city Wednesday looking after his political interests.

Outlaw Tracy of Washington proved an adept at escaping the officers. He evaded them in many ways but his latest escape has been by far the most complete and sensational.

Had Mr. Mickey let his cornplows and rakes and harrows stand out in the weather and rust the year round; had he let the pigs root up his front yard; had he permitted his fences and barns to go to rack and ruin; had he done these and other things and proved himself a failure as a farmer and been reduced to a renter instead of a farm owner with banking on the side, it is probable the calamity organs would now view him with a good deal more admiration and respect.

Pleasant For the Lover. In Mexico the young men can show great attention to young ladies and at very little expense. They are therefore quite eager to invite them to theaters, parties, etc.

Pineapple Juice. The Lancet points out that fresh pineapple juice contains a remarkably active digestive principle similar to pepsin.

More Filling. The girl who flitted a poet and married a butcher did an eccentric thing.

The true test of civilization is not the census or the size of cities or the crops—no, but the kind of men the country turns out.

rapidity that would be astonishing. Western states and localities sincerely hope that there is good profit in the business and that will mean its development, and a great advantage to the communities supporting factories, but evidence is that this is another of the sugar trust stories, and that the industry will need protection until it can be developed into a profitable business.

Governor Savage is a man of resources when he wants to be. He can do and direct thing with no money on hand when he desires. He can also ignore his reputation as the head of an economical administration when he wishes to do so. All this is proven by his action in preparing the way to send two regiments of Nebraska's National Guard to Kansas for a ten-days' outing.

Flower and Tree. Fruit trees and fruit require potash for their best development. With house plants all extreme changes of temperature should be avoided. Too many trees prevent rapid growth and extend the time when a grove is well shaded.

Strong Pulse Beats. Cases in which they are perceptible to the eye. "It is not such an uncommon thing," said a physician, "to find a person whose pulse beats can be plainly seen, and yet I suppose there are but few outside of the profession who realize the fact."

A Queer Library. A curious collection of books is contained in the library of Warstenstein, near Cassel, in Germany. The books appear at first sight to be logs of wood, but each volume is really a complete history of the tree it represents.

A Matter of Fact. "Do you see the horizon yonder, where the sky seems to meet the earth?" "Yes, uncle."

Excellent Explanation. "Why is a woman—honest, now—why is a wife cross?" "Before marriage she was an I. After marriage she leaned on another I, and they formed an X. Of course she's cross, and so are you, I'll bet."

Benefit your friends, that they may love you more dearly still. Benefit your enemies, that they may at last become your friends.

WHILE WE SLEEP.

The Muscles and Organs of the Body Are Still Working.

If the organs of the body cannot be said to sleep, neither can the voluntary muscles. Witness the phenomena of sleepwalking, the postillions in stage-coach days who slept in their saddles and cavaliers who do it today, infantry who have been known to sleep on forced marches, sentinels who walk their beats carrying their guns in a fixed position while they sleep.

FLOWER AND TREE.

Fruit trees and fruit require potash for their best development.

With house plants all extreme changes of temperature should be avoided.

Too many trees prevent rapid growth and extend the time when a grove is well shaded.

Grapevines like their roots to be near the surface, and the food for them should not be placed at too great a depth.

Small growth and too much small fruit go together. Thrifty growth furnishes a few large and fine specimens of fruit.

There is no use in growing a tree very tall. The top limbs are apt to become slender and break if fruit is produced on them.

All members of the poppy family are hard to transplant. By choosing a rainy day and not exposing the roots one can sometimes manage a transplant.

Avoid straight lines as much as possible. There is no straight line in nature. It is for this reason that groups and masses are so much better than formal or set beds.

What Puzzled Louis. Louis Philippe was a wit. What he specially excelled in was the clinching of an argument, such as, for instance, his final remark on the death of Talleyrand.

He Saw the Joke.

Here is a true story of a curious personality well known to many professional men in London today: He is a Scot, whose business ability is above the average, but everything he does is done with the air of a man constantly wrestling with some problem of the soul.

An Impossible Task.

The committee waited upon the successful man.

"Your fame has preceded you," they said as he entered the room. He smiled serenely. "I am rather well known," he admitted modestly.

"You have given names to sleeping cars, new cigars, health foods and games—names that have pleased the public and your patrons?"

The successful man bowed.

"Well," said the spokesman, "we have a new baby at our house, and we have come to you to select a name that will please her parents, sisters and brothers, grandparents, cousins, uncles, aunts and friends of the family and herself later on."

The successful man frowned sternly. "Sir," he said, "I do not undertake the impossible!"—Cincinnati Commercial Tribune.

Corrected His Error.

With the Germans the absentminded college professor is a stock source of witticisms.

One of these deeply absorbed gentlemen, sitting on a rear seat, thought he knew a person sitting in front and was about to speak to him when, the stranger by chance turning a little, the professor saw that he was mistaken.

Nevertheless, touching him on the shoulder, he remarked politely: "You will excuse me, but you are not the person I thought you were."—Philadelphia North American.
