## MEET NEXT AT SEATTLE

Transmississippi Congress Selects Convention City.

### RECALLS THURBER RESOLUTION

Eustis Content With Evidence That New Yorker's Denial of Trusts' Existence Does Not Represent Sentiments of the Congress.

St. Paul, Aug. 22.—Seattle was selected as the city in which will be held the next session of the Transmississippi congress in 1903. New Orleans was the only other candidate for the honor of entertaining the congress.

The feature of yesterday's session was the animated discussion of the resolution introduced by William Henry Eustis of Minneapolis, demanding that the address of F. B. Thurber of New York, which Mr. Eustis' resolution declared was a specious plea in behalf of the so-called beef trust, be eliminated from the records of the congress. Mr. Eustis argued that the printed proceedings of the congress should not be made the vehicle for disseminating literature of this class, which, he asserted, did not represent the views of the majority of the delegates. A number of other delegates warmly supported Mr. Eustis, while others as warmly opposed him. Those opposed took the ground that Mr. Thurber, having been invited to address the congress, was entitled as a matter of courtesy to have his remarks embodied in the printed proceedings. After much discussion, which at times became rather personal, Mr. Eustis withdrew his resolution, declaring its purpose accomplished, as the discussion upon its merits would be embodied in the minutes of the congress, and in this way the public would be able to see that a great portion of its members did not favor so-called trusts.

A number of important papers were presented at the morning and evening sessions, one of the most interesting being Professor J. C. Monaghan's address on "Waterways and Irrigation as an Aid to Commerce."

Resolutions Adopted. The committee on resolutions reported late last night and its report was adopted.

No attention was given the resolution introduced by Colonel Wetmore of St. Louis, putting the congress on record as being against trusts, or that of F. B. Thurber, in which an opposite view was taken. The committee refused to consider them and they were laid on the table. The resolutions adopted favor the admission as states of Arizona, Oklahoma and Indian territory; call for the extension of the system of irrigation for the reclamation of the arid lands of the west; favor a nine-foot channel in the Mississippi from St. Paul to the mouth of the Ohio; declare for an improved merchant marine, whereby American products may be carried in American ships; endorse the good roads movement; demand an improvement in the foreign consular service, and demand a secretary of commerce.

### RUSSELL SAGE ON TRUSTS.

Says Big Corporations Are a Menace to the Country.

New York, Aug. 22.—Russell Sage, in an interview yesterday, referred to a published statement quoting J. P. Morgan as saying that the era of great trusts had just begun and that more gigantic corporations are stored in the near future, some of which may overshadow the steel trust. Mr. Sage said: "Whether Mr. Morgan said that or not, combinations of all industries are a menace to true government. Not only this, but they are the oppressors of the people."

"What will be the result of such an era?" asked the reporter.

"In such an event the American people will revolt against them and there will be financial ruin, the like of which this country has never seen, or any other."

It was suggested to Mr. Sage that it was a general opinion that combinations at certain times were good things for the country.

"Yes," said Mr. Sage, "when several industries are started out in business, it is well to combine for mutual protection until the business is well established. When the business is so established, the combination should be disrupted and conducted on individual lines. Then, if one individual became embarrassed, it would not mean the wrecking of the industry."

### Hard Coal Famine in Chicago.

Chicago, Aug. 22.—An immediate hard coal famine threatens Chicago. In the entire city there was not more than 50,000 tons on hand and as one-half of that has already been contracted for or bought outright, the public has only 25,000 tons of the hard fuel available for purchase. Usually at this time of year there are 300,000 tons of hard coal within the corporate limits. Heretofore unlimited quantities could be purchased at \$7.25 a ton, but today the majority of the dealers were asking \$8.50 a ton and some of them wanted \$9.

### SCARES MANY AND FREQUENT.

White Squadron May Be Able to Slip In Through Existing Mist—War Conditions Well Simulated by the Opposing Fleets.

Rockport, Mass., Aug. 22.—At midnight thirty-six hours had passed of the 120 for the attacking squadron under Commander Pillsbury and the defending squadron commanded by Rear Admiral Higginson to come together. The anticipated meeting between the hostile fleets had not come to pass up to a late hour. On the whole, the day had been devoid of many sensations. The night, thick and cloudy as it was, with the moon quite obscured, developed so many confusing situations and so many extraordinary reports that the Higginson squadron had just cause for grave uneasiness. Somehow the feeling grew that it would not be such a difficult attainment for the three cruisers of the white squadron to slip in and anchor at some harbor, protected as they would be by the darkness.

Perhaps the greatest danger that came to Admiral Higginson was that of yielding to the temptation to withdraw the Kearsarge and leave the Alabama and Massachusetts to go in search of the enemy, reported to have been sighted at either this point or at some point along the coast. Such reports were in fact made. In the early part of the night, the station on the Isle of Shoals notified the nearest mainland point by the use of the torch that a large craft had been sighted outside the shoals. Admiral Higginson's wonderful system of signals worked to perfection. Almost in a moment it seemed the destroyer Decatur was rocketed from Portsmouth to pursue the mysterious comer, and in a moment the Decatur, with the smoke belching from her four great stacks, was plunging furiously through the heavy seas. The stranger turned and fled at full speed and this fact led to the decision that she may have been one of the attacking fleet passing onward on scout duty.

The complications which occurred during the day in the shape of un doubted news that Admiral Pillsbury had secretly landed some of his officers ashore to spy, served only to increase the perplexity of Admiral Higginson's position.

### OMAHA MUSICAL FESTIVAL.

Four Thousand Attend Opening Concert of Royal Italian Band.

Omaha, Aug. 22.—Omaha's third musical festival was opened last night by the Royal Italian band, with Cavaliere Emilio Rivalta as conductor. Society was well represented in the 4,000 persons present. From the Japanese pagoda through which all pass on entering the grounds to the last strains of "The Star Spangled Banner" with which the concert closed the opening night was an unqualified success. While there were nine numbers on the program, seventeen selections were presented, each number but the last calling for a return of the players in some selection not upon the program.

### Death List Now Reaches Sixteen.

Wilmington, Del., Aug. 22.—Five bodies were found in the ruins of the Jessup & Moore Paper company's digesting room accident yesterday, which brings the number of dead to sixteen. The bodies found were those of William Ruth, E. H. Mousley, Bernard Sweeney, William Scott and Joseph Henry. Joel Hutton, who was a fireman in the digesting room, and was in the building when the explosion occurred, is the only employe now missing. The injured in the hospital will recover.

### Creosote Trots Fast Mile.

Indianapolis, Aug. 22.—Creosote trotted a mile here in 2:04.14. This breaks the track's mile trotting record of 2:04.12. This was established in 1894 by Nancy Hanks. George Ketcham, who drove Creosote, said the performance, considering the track conditions, strengthens his belief that later the stallion will make a mile in two minutes flat. The stallion had as pace-maker the running horse, Mike the Tramp.

### Storm Damage in Illinois.

Springfield, Ill., Aug. 22.—Additional reports as to the storms in Christian county are to the effect that almost all the corn and hay in the vicinity of Pana is a total loss. Within a radius of eight miles of that city there is not a barn standing, and several farm houses were demolished. At Tower Hill roofs were blown off several buildings, and at Rosemond the Congregational church was blown down.

### Divine Healer is Flogged.

Texarkana, Ark., Aug. 22.—A man named Perkins, an alleged divine healer and prophet, who has been posing for the past ten days as an angel of Christ, whom he declared would appear in a few days, was taken out of town last night by whitecappers, flogged, his hair cut short and then given thirty minutes to leave town. A notice late on Perkins' door read: "Same fate to sympathizers."

## REMINDER HASTENS PORTE.

Shows Some Indication of Carrying Out Agreements With United States.

Constantinople, Aug. 22.—The sharp reminder of the United States minister, John G. A. Leishman, to the porte is having the desired effect of hastening the carrying out of the latter's engagements for the settlement of pending questions.

One of the minor American demands, heretofore disregarded, namely the return of a package of insurance policies seized by the authorities, was complied with yesterday.

Indications point to the porte being desirous of preventing further friction by settling the other matters, including the rebuilding of the American mission house at Kharpout, Turkish Armenia, destroyed at the time of the Armenian massacre there, and the granting of permission to Armenian women and children to join their husbands and fathers who are naturalized Americans.

### TOWNSHIP TO OPERATE ROAD.

Receivers Appointed for Kansas and Southern Railway.

Onaga, Kan., Aug. 22.—The Kansas and Southern railway, operating between Blaine and Westmoreland, a distance of ten miles, has been placed in the hands of receivers on application of the Rock Creek township board because the owners, Kansas City capitalists, had discharged its employes and given notice that operations would be suspended indefinitely.

The township board, which bought \$31,500 in bonds in the road when it was built, taking stock in exchange, purposes to operate the line. Both sides are guarding the property.

### Proceedings of Peace Union.

Mystic, Conn., Aug. 22.—At yesterday's session of the Universal Peace union, the report of Treasurer Charles P. Hastings of Philadelphia was read. It showed a balance of \$762 in the treasury after a disbursement of \$1,885 for the year. Ernest Howard Crosby of New York made an address on "The Unmanliness of War." Mr. Crosby said that the Philippine war was wicked. He spoke of the ovation tendered to General Smith on his return home and said that even the administration disapproved of it. He said that the way for military men to get popular was to have the administration down on them, and mentioned General Miles, General Smith and Admiral Schley as examples.

### Lutheran Synod in Session.

Madison, Wis., Aug. 22.—The thirty-sixth biennial convention of the Evangelical Lutheran joint synod, an organization that embraces all the states of the Union, began here yesterday. A resolution was passed providing that pastors and teachers shall contribute 1 per cent of their salaries to the board of aid and that the congregations shall be asked for an annual offering for the use of the board. The board shall assist not only needy pastors and teachers, together with widows and orphans, but also extend a part of this aid to pastors and teachers who may be wholly or partly deformed. Three hundred delegates are in attendance.

### For No Living Man.

Examining Counsel—What do you for a living?  
"Don't do anything for a living soul. I'm an undertaker."—Boston Transcript.

### The Difficult Part.

Husband—I don't believe you can keep account of the money you spend.  
Wife—Oh, yes, I can. It's the money I cannot keep.—Town and Country.

### SPARKS FROM THE WIRES.

During a drunken quarrel at Gloucester, O., Thursday, Perry Oxley and Charles A. Brown were shot and killed by Frank Smith.

The steamer Cedric, of 21,000 tons, the largest liner afloat, was successfully launched at Belfast Thursday. It is 700 feet long.

Acting Commissioner Richards of the general land office ordered three additional special agents to Saratoga, Wyo., where forest fires are raging.

The convention of the Metal Polishers and Brass Workers' union of North America at Bridgeport tabled a resolution boycotting the military organizations.

The last horse car disappeared from Berlin's streets Thursday, owing to the abolition of that means of transportation in favor of more modern conveyances.

President Schwab of the United States Steel corporation called for Europe Thursday on the steamship La Lorraine. He appeared to be in good health.

Mayor Thomas Marshall of Keithsburg, the well known trap shooter, who was nominated for congress by the Democrats of the Fourteenth Illinois district, has withdrawn.

General Eli Torrance has selected Colonel A. Noel Blakeman, his chief of staff, as chief marshal of the parade of the G. A. R. to be held on Oct. 8 at Washington during the encampment.

J. M. McMorris, an aged and well known resident of Charleston, Ill., was mistaken for a burglar in the home of J. F. Shaffer at Oklahoma City Thursday and fatally shot by Shaffer.

Rufus K. Cravens and a man named O. P. Nolan, quarrymen, were struck by a westbound Rock Island passenger train west of Kansas City Thursday and killed. Both men were deaf.

## DOE WAH JACK

Any Kind of Fuel

Round Oak Furnaces burn any kind of fuel, give great heat, and hold fire 12 hours with wood, 24 hours with coal. All of the fuel—the gases from the fire and the black smoke—is consumed, an economy of fuel impossible without the characteristic principle of Round Oak Furnaces.

Round Oak Furnaces are very easy of operation and require but little attention. They are made of the best materials, constructed by skilled workmen, thoroughly inspected before shipment and guaranteed without reservation to give entire satisfaction.
