The book bears the date of 823. In other words it is 1079 years old. It was given to Mr. Novak by his father and has been in the Novak family for many generations. Naturally Mr. Novak thinks a great deal of the book and would not part with it for any price.

Postmaster John R. Hays recently addressed to the secretary of the treasury at Washington letters of inquiry concerning the status of the proposed public building to be erected in this city, which were referred to James K. Taylor, supervising archietct, who replied that "the sketch plans for this building are now under way. These plans, together with the estimates, must be submitted to the cabinet board for formal approval, as required by law, before actual working drawings can be started. It will require, after such approval has been obtained, at least three months to complete the working drawings, after which the specifications will be prepared and the work placed upon the market. A period of at least six months will therefore elapse before the actual work of construction can be begun."

The Sioux City Gas and Electrical company finds that the basis for the greatest amount of complaint from customers regarding poor lights is that in a spirit of economy they will use old and burned out lamps long after their usefulness as light producers is past and then complain to the company Entries Are Being Made for the because they are provided with poor lights. THE CARNIVAL

Subscription Committee Report Substantial Encouragement.

The solicting committee for the carnival and picnic has been meeting with excellent encouragement from the business men of Norfolk and the citizens generally and there is no longer any question but that the entertainment will be held on the dates set aside for the purpose. The committee has succeeded in raising in cash subscriptions about \$470, which is fully up to the expectations of the committees having the affair in charge. This sum will be swelled considerably from the sale of concessions and privileges and will be ample to provide a three days' entertainment that will be well worth attending by the people of this section of the state. Already the committees have received numerous inquiries regarding concessions, and correspondence with meritorious attract-

ions is now under way. The committee on grounds have reached an agreement with Dr. J. H. Mackay who controls the race track and ball park and have closed a contract with him for the use of these grounds. Other preliminary work is well advanced and the prospects are flattering for a three-days' entertainment of unusual excellence. Advertising matter will soon be issued detailing how much and what kind of entertainment the people

may expect. Candidates for governor, and candidates for congress from the Third district have been invited to be present during the carnival. An answer to the invitation has already been received from Hon. J. J. McCarthy of Ponca, republican candidate for congress, stating that he will be here two days, the 23d Hills, returned from the trip yesterday and 24th. Other candidates will undoubtedly be here and good speaking will be a feature of the carnival.

As with the Fourth of July celebration, leading business men of the city are in charge of affairs, and they will see to it that visitors to the city on September 22, 23 and 24 are well entertained. They will use their best endeavors to prevent disappointments and those interested may feel safe in counting on a good time on those dates.

Other entries pense to the company but they expect have been handed in to Secretary Stitt during the day and enough have already signified their intentions to make the tournament assured. The drawings will be made by a committee of Stitt, Mapes and Mayer Saturday afternoon and play names must be in by Saturday noon. Trophy cups that will be good to have, will be given to winners in both singles and doubles.

The fact that no practice games are allowed before the matches adds interest to the meet. It will be exceedingly difficult to pick the winners until they have gotten into the game. Sol G. Mayer was at one time a star man with the racket and with a good partner should do something in doubles. Bucholz has a reach that ought to put an ordinary man out of business. Stitt is a shark at the net and Mapes serves a ball that is hard to get. Reynolds has a great back hand stroke and Salter uses the Lawford with effect. Matches will be arranged to suit players as nearly as possible, evening play being quite superior.
