The democrats are busily branding as a lie the statement that they are preparing to overlook the name of Populist John Powers when it comes to marking their ballots this fall.

Chancellor Andrews of the university is certainly an exception to the general run of men. Several months ago the regents offered him an advance of \$1,000 in salary to begin with the commencement of the school year.

York county farmers are worrying—not because they have not good crops, nor yet because there is no market for their products at good prices—but because they fear that they will not be able to secure the help necessary to harvest their corn.

That intensely interesting story, the delinquent tax list, is published this week, or the first chapters of it. It will continue to appear during the next three weeks.

A democratic exchange gives as the reason General Prosperity is "stalking over the state so conspicuously" is that the corn cribs and granaries are filled with plenty.

The Randall Synthetical Coal com-

pany of Boston is choosing a good time to send out its prospectuses. This company proposes to manufacture coal from peat, crude petroleum, lime and a matrix of bituminous pitch and states that such a coal can be built at a cost to allow its retailing at about \$5 a ton.

It is announced from Washington that if the coal strike is not settled soon President Roosevelt will convene congress in special session and deal with the situation in an effective manner. The president is again kept off the market by a necessity while they go into a battle to settle a difference over wages or time, exceed the limit in these modern days, especially when the people have the money and are willing to pay for the necessity.

MITCHELL IS HOPEFUL.

Coal Operators and Strike Leader Will Get Together Today.

Wilkesbarre, Oct. 3.—President Mitchell of the United Mine Workers, accompanied by District Presidents Nicholas, Duffy and Fahey, left here last evening for Washington. It is not known what policy the executive board of the miners' union will pursue at the conference today with President Roosevelt.

Will Not Treat With Mitchell.

Washington, Oct. 3.—The Post says that the coal presidents at today's conference will decline to accept any plan of strike settlement which proposes to treat with President Mitchell, but that they have considered a tentative plan, according to which "the coal presidents will propose that the men return to work with the understanding that their grievances, as individuals, shall be submitted to a board of arbitration and that the coal presidents will agree to abide by the decision of this board, the members of which shall be appointed by the president."

Strikers Attack Wrong Train.
