This is the first time since the Homestead riots, in 1892, that the entire division of the guard has been ordered out for strike duty. The cost to the state will probably exceed \$1,000,000. How long the troops will be kept in the field depends on the situation in the coal regions.

MITCHELL PREDICTS VICTORY.

Calls District Meetings for Expressions Against Lawlessness.

Wilkesbarre, Oct. 7.—Before leaving for Buffalo at midnight President Mitchell issued the following state-

"To District Secretaries and All Mine Workers in the Anthracite Field: You have no doubt read in the daily papers the proceedings of the conference at the white house last Friday, in which your officers proposed an immediate resumption of work if the operators would agree with us to refer the question at issue in the strike to the decision of the president of the United States and a tribunal named by him. You have noted the reply of the presidents of the coal carrying roads, in which last night. Engineer Hotchkiss and and officers in the most vehement and the strikers would return to work if demanded that the president send the track and was overturned. United States troops to the coal fields. In order to demonstrate to the people of our country that the statements of the operators are unfounded and that the miners are law-abiding citizens, mine workers are not restrained from going to work by fear of bodily harm, and if this is the sentiment prevailing at the meetings, resolutions should be adopted emphatically declaring the statements of the operators to be untrue. We also advise that acts of lawlessness by the coal and iron police and by strikers be denounced and the services of members of the union tendered the local authorities to preserve law and order. Great care should be exercised that those on strike do not permit themselves to be provoked by the coal and iron police gation congress will open at 2 o'clock into the commission of overt acts. The operators, failing to break the strike and deprive you of your well earned ing visitors. Be steadfast and true while this struggle for living wages and American conditions of employment is going on and we have no hesitancy in saying that victory will be achieved in the not distant future. The heart of the nation beats in sympathy with you and all good citizens favor your cause."

The news of the calling out of the entire state guard caused a mild sensation among those gathered at strike headquarters, but apparently the least perturbed was President Mitchell, who said: "If they call all the troops the men go to work."
