MEN WILL RESUME WORK

Strike Leaders Recommend That Terms Be Accepted.

CALL CONVENTION OF MINERS

General Resumption of Mining Throughout the Anthracite Coal Fields is Expected to Begin Next Thursday—Congratulations Pour In.

Wilkesbarre, Pa., Oct. 17.—The executive board of the three anthracite districts of the United Mine Workers of America, in joint session yesterday, unanimously decided to recommend to a delegate convention of striking miners the acceptance of the arbitration proposition submitted by the president of the United States, and it is reasonably certain that the advice will be followed and the great struggle brought to a close. The convention will be convened in this city Monday morning, and it is the hope and the belief of the officers of the union that the mining of coal will be resumed before the close of next week, after a suspension of more than five months. The citizens of the entire region are much elated that the strike is almost over, because business in the coal fields has been practically paralyzed since the strike began.

If the plans of the strike leaders are not disarranged, a general resumption of mining will take place about next Thursday. It is expected the convention will last two days and that there will be an interval of one day from the time the convention adjourns until the time set for the men to go back to the mines. If the convention should be in session on Wednesday, it is probable resumption would not take place until Friday. There will not be enough work at first for all the strikers, as it is the intention of the companies not to dismiss nonunion men, who have stood by them during the strike. The organization will take care of such other men as are unable to find work until two or three months have elapsed. This is due to the condition of the mines. Some of them are wholly or partially flooded and others need repairs.

It was a lively day around strike headquarters. From early in the morning until after the announcement was made that a convention would be called a crowd was congregated at the place. Mr. Mitchell spent an extremely busy day. In the morning he had many callers, who came to con-

gratulate him, and in the afternoon he was engaged with the three district boards. Telegrams of congratulations from all parts of the country came to the miners' leader during the day.

There was some opposition manifested in the meeting against certain features of the plan, but after a full discussion of the objectionable parts a unanimous vote was taken to recommend to the convention the acceptance of the proposition. It is expected that some objections will be raised on the floor of the convention, but the officers are confident that the opposition will disappear when President Mitchell explains all the features of the modified proposition to the delegates.

A question was raised yesterday as to whether Commissioner Wright, who will be the recorder of the commission, shall have the right to vote in case the six other members of the board are equally divided on any question in connection with a settlement. Mr. Mitchell, when asked, appeared to be sure that he had not, and other officials of the union were also uncertain of Mr. Wright's status. The matter of the term of years that the agreement shall be in force was also a source of much inquiry. The union was strongly opposed to the operators fixing the term of years.

The coal companies, anticipating the ending of the strike next week, are busily engaged in preparing for resumption. Tens of thousands of coal cars are in the regions ready for loading and extra efforts will be made in moving them to the large distributing centers once mining is resumed. It is estimated that more than 200 of the 350 collieries will be in operation by the end of next week, and will produce enough coal to relieve the situation. There is considerable talk heard that the withdrawal of the troops will begin in a day or two, but this cannot be confirmed. Soldiers are spending their time quietly in the camps.

Telegram From Mitchell.

Washington, Oct. 17.—There was received at the white house quite a long telegram from Mr. Mitchell of the mine workers' union, in reply to a message the president had wired him, giving the final result of the strike agreement, with certain suggestions from the president that had been accomplished. It was the president's wish to have a speedy resumption of mining. Mr. Mitchell's response gave what had been done in Wilkesbarre toward declaring the strike off. Acceptance of places on the commission have been received from Mr. Parker and some other members of the commission.

The work of the commission will be

exhaustive and will take considerable time. It is the president's desire that the inquiry be very thorough and that the commission perform the labors set before it so completely as to secure not only a final adjustment of the present troubles, but also to furnish a basis upon which similar great labor troubles may be averted in the future. Its first step will be to organize and select a chairman to preside over its deliberations. Who this will be, of course, is not settled, but depends on the individual members of the body. General Wilson, formerly chief of the engineer corps of the army, however, heads the list of members and may be chosen as chairman of the commission.

British Press Comment.

London, Oct. 17.—"The president's triumph" is the subject of long dispatches and editorial articles in all the morning newspapers, and in some cases congratulations are also extended to J. Pierpont Morgan. The opinions expressed are a measure of the relief felt in England. The Daily Telegraph says: "American trades unionism, by securing a reference to arbitration, has achieved a precedent which may be far-reaching, for it suggests unmistakably that the spread of labor organization across the Atlantic may prove to be a more rapid and powerful check upon the trusts than either tariff reform or federal amendment."

Pleased With Commission.

New York, Oct. 17.—During the afternoon Presidents Truesdale, Fowler and Underwood and Chairman Thomas called at J. Pierpont Morgan's office. President Underwood was asked what he thought of the commission appointed by President Roosevelt. "It is a good commission," he said. "Nobody could have appointed a better one."

No News From Valencia.

Willemstad, Oct. 17.—The Venezuelan government has had no news from Valencia for three days. It finds it impossible to communicate with that city even by way of Puerto Cabello, as the telegraph lines have been cut. Valencia was attacked Monday and Tuesday of this week by insurgents under General Kiera.

Three Lost in Shipwreck.

St. Johns, N. F., Oct. 17.—The schooner Lillian was driven ashore at Grate's Point last night, and is a total wreck. One woman and two men lost their lives. The schooner Rosebud rescued the remainder of the crew. The schooner Pretoria, with a crew of seven, is missing. It is feared that she has foundered.
