### Judge Fales Confident.

Judge Fales, of Ponca, chairman of the republican congressional central committee, was in Fremont today consulting with leaders of the party. The judge has been active in organizing the district in behalf of McCarthy and says there is a good organization everywhere and that he expects to see good results from it.

The campaign headquarters are at Norfolk, from whence the committee keeps in touch with workers throughout the district. A great deal of correspondence is had with township committeemen and voters generally.

The judge says he has yet to learn of a republican who is not in line for the party. He hears of no defection from the ranks. On the other hand he gets many letters in which numerous instances are cited of former fusionists who will this year support McCarthy. Many of these last year voted the other way, when the republicans carried this district by a majority of 1,800.

As the campaign draws to a close, public meetings are being held in large numbers, especially in the interests of Mr. McCarthy. Chairman Fales is sanguine of the success of his candidate, though he fully realizes the difficulties of the fight and the importance of leaving nothing undone to promote the good cause. —Fremont Tribune.
