Colombian Rebels Are Defeated at Rio Frio.

CASTILLO ALSO A PRISONER.

General Marjarrés, After a Hard Fight, Captures Men and Munitions of War—Both Sides Suffer Heavy Losses—Rejoicing at Colon.

Panama, Oct. 29.—The revolutionary general, Uribe-Uribe, with ten cannon, 2,500 rifles, 200 rounds of ammunition, has surrendered to General Marjarrés at Rio Frio, near Santa Marta.

The revolutionary forces under General Uribe-Uribe, consisting of 1,300 men, which were defeated Oct. 14, at La Ciénega, retreated to Rio Frio and took up positions there. General Marjarrés, with 2,000 men, proceeded against them from La Ciénega, and engaged the enemy two days ago. The government general succeeded in surrounding the rebels and forcing them to surrender. General Castillo was with General Uribe-Uribe. The news of this victory was received here by General Perdoma and Governor Salazar in a telegram from General Marjarrés. Details of the engagements are lacking, but heavy casualties on both sides are reported. The surrender of Uribe-Uribe is said to complete the pacification of the departments of Magdalena and Bolívar. The revolutionists now occupy the isthmus only.

Colon, Oct. 29.—The government gunboat General Pinzon arrived here yesterday afternoon from Sanvillia. She was especially sent from that port by the governor of the department of Bolívar to bring to the isthmus news of the defeat of the revolutionists under Uribe-Uribe and Castillo at Rio Frio. Both these generals were made prisoners. There is much rejoicing in Colon and Panama over the success of General Marjarrés and especially over the capture of Uribe-Uribe.

Confirm Defeat of Rebels.
Washington, Oct. 29.—Confirmation of the news of the surrender of General Uribe-Uribe was received at the Colombian legation here. The legation officials declare that with the surrender of Uribe-Uribe the life of the rebellion in the interior of Colombia has received its death blow and complete pacification of that portion of the country must inevitably follow. He was the acknowledged leader of the movement against the government and by his energy and perseverance in raising and equipping troops and securing assistance from the outside has kept the revolution going for some years. General Castillo, who surrendered with Uribe-Uribe, is about fifty years of age, and previous to joining forces with Uribe-Uribe, was a guerrilla general, who gave the government a great deal of trouble.

COLOMBIA GETS PROMPT REPLY.
United States' Answer Deals With Question of Sovereignty.

Washington, Oct. 29.—It was learned that a prompt answer has been made by the state department to the latest Colombian note respecting the Panama canal treaty, which was transmitted to the department Monday. Its nature was not divulged, but the presumption is that it deals almost entirely with Colombia's representations regarding the sovereignty of the isthmus, which the Colombians feel has been seriously invaded by the acts of Commander McLean and Admiral Casey in preventing the prompt movement of troops across the railroad. This matter, as before stated, is now the subject of negotiations between the Colombian government and Minister Hart at Bogota, and an early adjustment is looked for. The state department is anxious that a speedy settlement be reached in order to facilitate the completion of the Panama canal treaty.

The caboose was demolished and the track obstructed so that the special could not proceed. BOLD ROBBERS GET \$4,000

WATCHMAN HELD A PRISONER.

Covered With Rifle and Kept Cornered for Three Hours While Thieves Work on Safe—Poase and Bloodhounds on Trail of Robbers.

Prairie City, Ia., Oct. 29.—The bold bank robbery occurring in Iowa in recent years took place here yesterday. The robbers dynamited the safe of the Iowa State Savings bank and secured an amount approximating \$4,000. They exchanged a fusillade of shots with local officers and escaped.

Night Watchman Erskine discovered four men approaching the bank at 1 o'clock. One of the men cornered him and kept him covered with a rifle for three hours, while another broke open the bank door and worked on the safe. The other two men patrolled the street and by a system of signals were able to hold at bay a dentist, a physician and two or three other citizens who were attracted to the scene. Five dynamite shots were fired by the man in the bank before he succeeded in getting at the cash box. The sum secured was mostly silver, although it included a quantity of currency. At 4 o'clock the four men left the bank and disappeared through the east outskirts of the town, after firing a number of shots to terrify those who had seen them and shooting through a door in an effort to hit Erskine, who had opened fire.

A general alarm was given and a posse quickly formed, which is now on the trail. Bloodhounds were dispatched to the scene.

WORK OF THE MARINE CORPS.

Valuable Aid to the Soldiers in the Philippine Islands.

Washington, Oct. 29.—Major General Charles Heywood, commandant of the United States marine corps, in his annual report to the secretary of the navy, says it is his policy to keep the officers and men of his command in the Philippines only two years and a half, returning them after such service in this country. He hopes to reduce this term of service to as long as it is advisable to keep them in that climate.

During the last year, while there have been practically no demonstrations in the Philippines by organized insurgents, the marines, says General Heywood, have done excellent work in ridding the islands of roving bands of ladrones.

The report presents in detail the operations of Major Waller and his courageous band of marines on the coast of southern Samar. Major Waller is quoted as saying that the expeditions early in last November in Sohoton district were the most important of the campaign, so far as their effect on the insurgents was concerned.

A graphic account is given of the operations of the main expedition in the Sohoton district. The attack was on the fortified cliffs and caves in the mountains, which has been reported to be practically impregnable, but were easily taken.

In Japan the latest advices show that there have been 4,329 cases and 1,650 deaths from cholera.

The cholera situation in China is summed up as follows: Nanking, 40,000 deaths; Shou Yuanghsien, 3,000 cases per day.

According to a report of the director general of the Egyptian department of health the cholera epidemic continues to claim a large number of victims. The number of infected places increased to 1,557.

BOUNDARY MONUMENTS FOUND.

Alaska Prospectors Discover Them in Location Mentioned by the Treaty.

Seattle, Wash., Oct. 29.—Advices were received from Juneau, on the steamer Dolphin, that the missing Russian boundary monuments, which have been so energetically searched for by Lieutenant Emmons for the last two seasons, had been discovered by a prospector of the Porcupine district.

Through his friendship with the Chilkat Indians the prospector gained information which gave him a clue to the position of the first monument. From this start he followed along and discovered several more of the bid land marks, put up years ago by the czar's followers. The line marked by these monuments is about five miles inland from Pleasant Camp, which is seventeen miles from Klukwon. The latter is five miles from tidewater on the Chilkat river. This makes the Russian survey line approximately twenty-seven miles inland to the summit, less than one marine league and just where it was expected to be from the language used in the Anglo-Russian treaty of 1825. The Rainy Hollow district is within American territory.

ARMY OF FANATICS AT YORKTON.

Refuse Proffered Shelter for Women and Children—Special Officers Are Sworn in to Protect Citizens From Invaders From Rural Districts.

Winnipeg, Man., Oct. 29.—With gaunt faces and eyes lifted heavenward, an army of fanatics, chanting weird religious hymns, entered Yorkton, Assiniboia, yesterday, filling the inhabitants with fear and pity. The pilgrims form part of the colony of Doukhobors, or Russian zealots, who located in the Canadian northwest two years ago, which has gone on the march, leaving crops half harvested and deserting their horses and cattle. Sixteen hundred men, women and children entered Yorkton yesterday, carrying their infants and sick on stretchers.

The body marched to the immigration sheds, where agents of the government met and interviewed them. Through interpreters the Doukhobors told the officials they did not know where they were going or what they expected to do, their only mission was to convert people and find "Jesus." The male members of the party refused proffered shelter for the women and children and the sick, but after much persuasion were induced to leave the weaker ones behind while they continued their march through the city. The men and women are living on weeds and raw potatoes and look emaciated after their long tramp from the villages. Four hundred more Doukhobors are now just outside of the town, and 600 are leaving their villages. A child died last evening while they were on the march.

When word was brought in of their proximity a meeting of the council was called and several special constables were sworn in. While the original mission of the Doukhobors was of a peaceful nature, some apprehension is felt that they will be driven to acts of violence by sheer necessity.

There have been forty-five distinct shocks of earthquakes at San Cristobal. Palenque advices are that no change can be observed from there in the shape of San Juan mountain, but loud and prolonged explosions are frequent. Ashes fell all day yesterday. Every attempt at violence met with a rush from the police and if caught, the culprit was taken into custody. Teamsters who tried to blockade the streets were pulled from their wagons and hustled into patrol wagons. Each arrest was followed by a volley of stones and mud, but the police found little difficulty in coping with the men. When arrested the men scoffed and jeered at the injunction.
