No murder or store robbery has been reported in Norfolk since election.

For the next two years, at the very least, Congressman McCarthy will grace Mr. Robinson's place in Washington.

We can now devote our attention to the discussion of that important problem, "Why do turnips not grow in winter?"

Even the powerful logic of Ex-Senator Allen could not combine with that of Ex-Congressman Bryan to stem the tide.

The up-country vote did the business in New York and Nebraska. The farmers were willing to "stand pat" though all the rest flunked.

The editor of the World-Herald is one of the few democrats who can look upon the returns of the late election with complacency, if not exultation.

Those who have watched the trend of events are not surprised that a republican congressman was elected from the Third district. It was the logical conclusion.

Governor Savage may now take time from his arduous duties to issue that belated Thanksgiving proclamation. If he has nothing to be thankful for other people have.

With the showing that the reorganized democracy has made in New York it can be imagined that Mr. Bryan will not be the dictator of the next democratic national convention.

Congressman Hitchcock's politics will feel very lonesome in the Nebraska delegation, but he may find congenial spirits on the other side of the house from Texas and other states.

The people of Ohio, where McKinley was the ideal politician, didn't stand for a campaign of demagoguery, not for a moment, and Tom Johnson's 1904 aspirations were laid on the shelf emphatically.

A Wisconsin man has found a new use for woolley dogs. He used his as a chimney sweep, but the example of the man is not likely to be followed extensively. He was arrested for cruelty to dumb animals.

Editor Hitchcock of the World-Herald has issued a card of thanks to his friends who assisted in his election. He could have reached the point more quickly by devoting about two-thirds of the card to his friend the enemy, otherwise the Bee.

An Indiana woman has adopted a new style of committing suicide, but it is believed that her method "will not become popular enough to be deserving of a copyright or a patent. She drank a quart of gasoline and then touched a match to her breath.

Some democrat had intimated Pennsylvania might be going democratic some day. If he was able to get his head out from under the snowfall in that state last Tuesday he would probably consent to take it back. A person may as safely bet on Pennsylvania for republicanism as Texas for democracy.

The republicans have not lost anything in congress by reason of the recent election. They still have a majority of 40 in the house of representatives. The gains from the west have overcome the losses in the east and the people have said that they did not want another do-nothing congress as was the case some years ago.

The libel suit against the publishers of the Fremont Tribune by Mrs. Martha West-Daniels has been withdrawn by the plaintiff, who pays the costs of the action. While the Hammond Brothers have never doubted that the outcome of the action would result in their favor, they will undoubtedly eat their Thanksgiving turkey with additional relish because of the utter inability of the plaintiff to sustain her case.

It is announced from Washington that the gold dollars to be struck in commemoration of the centennial celebration of the Louisiana purchase by a world's fair at St. Louis in 1904, will be ready in December of this year. Two designs will be used, on one the head of Jefferson, who negotiated the great purchase, the other the head of McKinley who issued the proclamation of the world's fair. The number will be limited to 250,000. They will be placed on sale by the treasurer of the world's fair, the act of congress which authorized the issue permitting this to be done

under the proper bond. They will be sold at a premium.

It has not been learned that any of the saloons of the state have been closing up their doors because Mickey was elected governor, even though they did endeavor to create the impression that such would be the result. Mickey may be a prohibitionist, but that has not been adopted as a principle of the republican party in Nebraska, and until it is there need be no fear that a prohibitory law will be enforced. The republicans quite generally believe in decency, however, and if any element exceeds that which is right the governor and other republicans may take a hand in correcting the evils.

The election of Hon. J. J. McCarthy to congress is about as pleasant to the republicans of the Third district as any result of the election. For six long years the district has not had republican representation in the halls of the national legislature. With the fusion of the two opposition parties they secured control of this district, and have kept it since, though with constantly decreasing pluralities. The tide began to turn almost as soon as fusion was accomplished and the district has now swung back, it is believed for many long years. With the retiring of the fusion congressmen about the last of the combine is noted.

### LIPTON ROUSES OFFICIALS' IRE

British Foreign Office Furious Over Reported Interview with King Edward VII.

Manchester, Nov. 7.—The Dispatch says the foreign office is furious over a letter reported to have been written by Sir Thomas Lipton to General Corbin, in which the Irish sportsman says he had an interview with King Edward, who had indicated to him his intention of appointing a commission to the St. Louis exposition. The paper says:

"For one who a few years ago was a grocer's assistant to be paraded before the world as the adviser of the king on Anglo-American relations is an affront which old-fashioned officialdom cannot understand. The king, it is being said, never harms his own dignity, but allows his indiscreet friends to discount it for him. Lipton's social prestige is such that it is bound to suffer through his singular appearance as the king's confidence-keeper."

### Fatal Fall of an Elevator.

Chicago, Nov. 7.—A passenger elevator in the new retail store of Marshall Field & Co. fell from the ninth floor to the basement. The car was reduced to ruins and one man was killed. A second victim was badly injured. The dead man was named Thomas Byrne, the conductor of the elevator.

### Charged with Stealing \$25,000.

Toronto, Ont., Nov. 7.—Alfred McDougall, barrister, for many years collector of succession dues for the Ontario government, has been arrested for the alleged theft of \$25,000 from the government.

### Attorney Convicted of Fraud.

Poston, Nov. 7.—In the superior criminal court P. L. Burton of Dumont, Col., an attorney, who was charged with obtaining \$2,500 from the New York Central railroad under false pretenses, was found guilty.
