

REBELS KILL AMERICAN

Battle Between Bogota and Colombian Insurgents.

ENDS IN GOVERNMENT VICTORY.

Richard Kane, an American, Fighting for Colombia, Numbered Among the Dead—Rebel Loss Is Heavy, One Shot Alone Killing Ten.

Panama, Nov. 13.—The first American casualties as a result of the revolution occurred yesterday. The Colombian fleet captured a boat having on board correspondence showing the whereabouts of two revolutionary schooners loaded with provisions. The government warships headed for the place and on arriving there the Bogota, manned by an American crew, commanded by Captain Marmaduke, lowered two boats with armed men, but as the schooners were aground, they waited until high tide to attack them. In the meanwhile the revolutionists were discovered in ambush close to the beach and when the Bogota boats pulled ahead the second time the rebels opened fire on them, killing the ship's armorer, Richard Kane, of Washington, and wounding George Walker, who was shot through the legs. A seaman named Clarke and Lieutenant Vasquez were also wounded, but not seriously. The Bogota and Chucuito then opened fire on the enemy and killed every man in sight. One shot fired at a group of ten rebels who were most actively engaged in shooting at the boat's crew killed every one of them.

Gunner Cross of the Bogota thinks that from forty to fifty rebels were killed.

One of the schooners, the Helvelta, loaded with rice, was captured, but the first shot at the second schooner set her on fire, and she was completely destroyed with her cargo.

The body of Kane will be buried here with military honors. He fought under Dewey at the battle of Manila. Gunner J. Cross of the Bogota hails from Cedar Rapids, Ia. He is only seventeen years old.

PRESIDENT GOES HUNTING

Roosevelt is Speeding Away to the South.

TRAIN IS GREETED BY CROWDS.

Shooting is to Take Place Near Smedes, Mississippi, Where General Wade Hampton Formerly Hunted. Will Chase Bear With Dogs.

Memphis, Nov. 13.—President Roosevelt is speeding south on his way to Smedes, Miss., about twenty-five miles north of Vicksburg, for a four days' bear hunt. The place selected for the hunt is some miles from the railroad and is in the region which was formerly the favorite hunting ground of General Wade Hampton, the famous leader of the Confederate Black Horse cavalry.

Years ago the president and General Hampton planned a hunt in this region, but it was never made, and when President Stuyvesant Fish of the Illinois Central proposed the present trip, the president readily assented. The president, however, does not anticipate the pleasure of killing a bear so much as the pleasure of a few days' complete recreation in the woods. To one who has hunted grizzlies in the Rockies, black bear are not very big game. But hunting bear with horse and hounds will be a new experience for him. Mr. Fish has arranged to have one of the best packs of hounds in the Mississippi delta at the camp.

Upon arriving at Smedes, or near there, the train will be run upon a siding, there to remain until next Wednesday, when the president will return to Memphis.

The president's trip across Ohio and Kentucky was pleasant, but uneventful. Despite the fact that the itinerary had not been published in advance there were waiting crowds at the stations and there were plenty of cheers as the train swept by.

The same resolution stated the association's approval of a law imparting a greater degree of elasticity to the currency system, to make it responsive to the demands of the business interests of the country.

Chateau D'Eu in Ruins.

Rouen, France, Nov. 13.—The fire which broke out at the chateau d'Eu, the seat of the Duke of Orleans, practically destroyed that building. Only one wing, the chapel, and some of the art treasures were saved. The destruction of the chateau was caused by a fire in one of the chimneys, which was at first thought not to be dangerous. Owing to the great height of the building the pressure of water was insufficient to permit of reaching the flames and the chateau soon became a vast furnace. The greatest efforts were made to save the art treasures, but they were not entirely successful. Many objects of great value were destroyed, including two-thirds of the library of 30,000 volumes.

After an all day session, it was agreed that there could be nothing but disagreement among the members regarding prices, and the association was formally disbanded. The strife over prices was caused by the determined stand taken by a number of the delegates for a sharp advance in prices. Other members, as stubbornly, opposed a marked advance just now, their chief argument for keeping prices down being that such action would be giving competitors who were not members of the association too great an advantage.

Seven Men of the Fifth Infantry Are Dead.

OTHERS ARE SERIOUSLY ILL.

Dread Disease Appears Among the Troops Detailed on Guard Along the Maraguina River Near Manila. General Miles at Iloilo.

Manila, Nov. 13.—Cholera made its appearance yesterday among the men of a detachment of the Fifth infantry, which is stationed here. Seven men have already died and a number of others are seriously ill.

The detachment of the Fifth infantry in question has been placed on guard along the Maraguina river, whence Manila receives its water supply, as it was deemed necessary to protect the stream from possible pollution. The cholera developed while the men were on this duty.

It was believed that cholera had entirely disappeared from Manila and its reappearance has created feelings of apprehension.

General Miles, who is making a tour of the archipelago, was given a reception and banquet at Iloilo yesterday. The general delivered a short address, in which he expressed sympathy with the people in the afflictions which had come to them with the war and the cholera. He said he hoped for an early improvement in their affairs. From Iloilo General Miles proceeded for Jolo.

Two of a Kind.

"I'm a plain, everyday business man," said Meritt, "and I am nothing if not practical. Miss Wisely, will you be my wife?" "I admire your frankness, Mr. Meritt," replied the fair object of his affections, "because I am inclined to be rather matter of fact myself. How much are you worth?"

No Fight.

"Did you know that your political antagonist had cast reflections on your truth and veracity?" "Yes." "What are you going to do about it?" "Nothing. My pride forbids me to fight any one except a gentleman, and a man who calls another a liar is no gentleman."—Washington Star.

PREPARING MINERS' CASE.

President Mitchell Goes Over the Evidence With Attorneys. Wilkesbarre Pa., Nov. 13.—There was a busy time at miners' headquarters yesterday. President Mitchell was holding conferences all day with delegations of miners, his lawyers and members of the executive boards of the united miners. The case of the miners as it will be submitted to the arbitration commission, which meets at Scranton Friday, was gone over carefully by the executive heads of the miners' union, the attorneys and the expert miners who were summoned here especially for that purpose.

The evidence collected by President Mitchell in behalf of the miners is voluminous and covers every possible point that may be raised when the commission sits. President Mitchell and his official family will "break up house" today and remove to Scranton. The chief officer of the miners' union has made his headquarters in Wilkesbarre since May 19. He will now make his headquarters in Scranton and remain there until the commission completes its work, when he will return to national headquarters at Indianapolis. President Mitchell and the other executive officers of the miners' union declined to discuss the replies of the presidents of the coal carrying roads to the statements filed in behalf of the miners.

BITTER AGAINST THE UNION.

Anthracite Coal Operators Say They Will Not Recognize It.

Washington, Nov. 13.—That the anthracite coal mine owners will resist to the utmost every effort to make the recognition of United Mine Workers of America an issue in the arbitration, which is now in progress, is made evident by the replies to the statement of President John Mitchell of the miners' organization, which have been filed with the strike commission. There are five of these answers, in addition to that of President Baer, and all dwell with especial emphasis and marked unanimity on this point.

They also agree in resisting the demands of the miners for an increase of pay for the hour work, a reduction of hours for time work and for the weighing rather than the measurement of coal.

Carroll D. Wright left for the anthracite regions, taking these replies with him. In addition to the statement made for the Reading company by President Baer, the list comprises the replies of the Delaware and Hudson company, the Delaware and Lackawanna, the Lehigh Valley, the Pennsylvania and the Scranton Coal company.
